ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 000-54263

CAREY WATERMARK INVESTORS INCORPORATED

(Exact name of registrant as specified in its charter)

Maryland

(State of incorporation)

26-2145060

(I.R.S. Employer Identification No.)

50 Rockefeller Plaza

New York, New York

(Address of principal executive office)

10020

(Zip Code)

Investor Relations (212) 492-8920

(212) 492-1100

(Registrant's telephone numbers, including area code)

Securities registered pursuant to Section 12(b) of the Act: **None**

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, Par Value \$0.001 Per Share

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Registrant has no active market for its common stock. Non-affiliates held 134,074,079 shares of common stock at June 30, 2017.

As of March 9, 2018, there were 138,967,167 shares of common stock of registrant outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

The registrant incorporates by reference its definitive Proxy Statement with respect to its 2018 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission within 120 days following the end of its fiscal year, into Part III of this Annual Report on Form 10-K.

Forward-Looking Statements

This Annual Report on Form 10-K, or this Report, including Management’s Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of Part II of this Report, contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements generally are identified by the words “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “plan,” “may,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result” and similar expressions. These statements are based on the current expectations of our management. Forward-looking statements in this Report include, among others, statements about the impact of Hurricane Irma on certain hotels, including the condition of the properties, cost estimate and the timing of resumption of operations. It is important to note that our actual results could be materially different from those projected in such forward-looking statements. You should exercise caution in relying on forward-looking statements, as they involve known and unknown risks, uncertainties, and other factors that may materially affect our future results, performance, achievements or transactions. Information on factors that could impact actual results and cause them to differ from what is anticipated in the forward-looking statements contained herein is included in this Report as well as in our other filings with the Securities and Exchange Commission, or the SEC, including but not limited to those described in [Item 1A. Risk Factors](#) of this Report. Except as required by federal securities laws and the rules and regulations of the SEC, we do not undertake to revise or update any forward-looking statements.

All references to “Notes” throughout the document refer to the footnotes to the consolidated financial statements of the registrant in Part II, [Item 8. Financial Statements and Supplementary Data](#).

PART I

Item 1. Business.

General Development of Business

Overview

Carey Watermark Investors Incorporated, or CWI, together with its consolidated subsidiaries, is a publicly owned, non-listed real estate investment trust, or REIT, that invests in, manages and seeks to enhance the value of, interests in lodging and lodging-related properties, in the United States. As a REIT, we are not subject to U.S. federal income taxation as long as we satisfy certain requirements, principally relating to the nature of our income, the level of our distributions to our stockholders and other factors. We conduct substantially all of our investment activities and own all of our assets through CWI OP, LP, a Delaware limited partnership, or the Operating Partnership. We are a general partner and a limited partner of, and own a 99.985% capital interest in, the Operating Partnership. Carey Watermark Holdings, LLC, or Carey Watermark Holdings, which is owned indirectly by both W. P. Carey Inc., or WPC, and Watermark Capital Partners, LLC (the parent of the Subadvisor described below), or Watermark Capital Partners, holds a special general partner interest of 0.015% in the Operating Partnership. In order to qualify as a REIT, we cannot operate hotels directly; therefore, we lease our hotels to our wholly-owned taxable REIT subsidiaries, which we refer to as TRSs, and collectively as the TRS lessees. At December 31, 2017, we held ownership interests in 31 hotels, with a total of 8,343 rooms. As of the date of this Report, we held ownership interests in 28 hotels, with a total of 7,821 rooms.

We are managed by Carey Lodging Advisors, LLC, or our Advisor, an indirect subsidiary of WPC, pursuant to an advisory agreement among us, the Operating Partnership and our Advisor, which we refer to herein as the Advisory Agreement. Under the Advisory Agreement, our Advisor is responsible for managing our overall hotel portfolio, including providing oversight and strategic guidance to the independent hotel operators that manage our hotels. On September 15, 2010, CWA, LLC, or the Subadvisor, entered into a subadvisory agreement with our Advisor, which we refer to herein as the Subadvisory Agreement. The Subadvisor provides services to our Advisor primarily relating to acquiring, managing, financing and disposing of our hotels and overseeing the independent hotel operators that manage the day-to-day operations of our hotels. In addition, the Subadvisor provides us with the services of Mr. Michael G. Medzigian, our Chief Executive Officer, subject to the approval of our independent directors.

WPC is a publicly traded REIT listed on the New York Stock Exchange under the symbol "WPC." In addition to operating as an internally-managed diversified REIT, WPC also manages the portfolios of certain non-traded investment programs. As of June 30, 2017, WPC exited non-traded retail fundraising activities and no longer sponsors new investment programs, although it currently expects to continue managing its existing programs, which includes us and Carey Watermark Investors 2 Incorporated, or CWI 2, through the end of their respective life cycles.

Watermark Capital Partners, LLC is a private investment firm formed in May 2002 that focuses on assets that benefit from specialized marketing strategies and demographic shifts, including hotels and resorts, resort residential products, recreational projects (e.g. golf and club ownership programs), and new-urbanism and mixed-use projects. The principal of Watermark Capital Partners, Mr. Medzigian, has managed lodging properties valued in excess of \$7.0 billion during his over 36 years of experience in the lodging and real estate industries, including as the chief executive officer of Lazard Freres Real Estate Investors, a real estate private equity management organization, and as a senior partner of Olympus Real Estate Corporation, the real estate fund management affiliate of Hicks, Muse, Tate and Furst Incorporated.

We raised \$575.8 million through our initial public offering, which ran from September 15, 2010 through September 15, 2013, and \$577.4 million through our follow-on offering, which ran from December 20, 2013 through December 31, 2014. In addition, from inception through December 31, 2017, \$169.8 million of distributions were reinvested in our common stock through our distribution reinvestment plan, or DRIP. We have fully invested the proceeds from both our initial public offering and follow-on offering.

In April 2017, we announced that our Advisor had determined our estimated net asset value per share, or NAV, as of December 31, 2016 to be \$10.80. We currently intend to announce our NAV as of December 31, 2017, as determined by our Advisor, in the second quarter of 2018.

We have no employees. At December 31, 2017, WPC had 207 full-time employees who were available to perform services for us under the Advisory Agreement ([Note 3](#)) and Watermark Capital Partners employed 15 individuals who were available to perform services for us through the Subadvisory Agreement.

Financial Information About Segments

We operate in one reportable segment – Hospitality. See Our Portfolio below.

Narrative Description of Business

Business Objectives and Strategy

We are a non-traded REIT that strives to create value in the lodging industry. Our primary investment objectives are to provide stockholders with current income in the form of quarterly distributions and to increase the value of our portfolio in order to generate long-term capital appreciation.

Our core strategy for achieving these objectives is to build and enhance the value of a portfolio of interests in lodging and lodging related investments. We employ value-added strategies, such as re-branding, renovating, expanding or changing hotel operators, when we believe such strategies will increase the operating results and values of the hotels we acquire. We regularly review the hotels in our portfolio to ensure that they continue to meet our investment criteria. If we were to conclude that a hotel's value has been maximized, or that it no longer fits within our financial or strategic criteria, we may seek to sell the hotel and use the net proceeds for investments in our existing or new hotels, or to reduce our overall leverage. While we do not operate our hotel properties, both our asset management team and our executive management team monitor and work cooperatively with our hotel operators in all aspects of our hotels' operations, including advising and making recommendations regarding property positioning and repositioning, revenue and expense management, operations analysis, physical design, renovation and capital improvements, guest experience and overall strategic direction. We believe that we can add significant value to our portfolio through our intensive asset management strategies. Our executive and asset management teams have significant experience in hotels, as well as in creating and implementing innovative asset management initiatives.

We will adjust our investment focus from time to time based upon market conditions and our Advisor's views on relative value as market conditions change. Material changes in our investment focus will be described in our periodic reports filed with the SEC; however, these reports would typically be filed after changes in our investment focus have been made, and in some cases, several months after such changes.

As a REIT, we are allowed to own lodging properties, but are prohibited from operating these properties. In order to comply with applicable REIT qualification rules, we enter into leases with certain of our subsidiaries organized as TRSs. The TRS lessees in turn contract with independent property operators that manage the day-to-day operations of our properties.

The lodging properties we have acquired include full-service branded hotels located in urban settings, resort properties and select-service hotels. Full-service hotels generally provide a full complement of guest amenities, including food and beverage services, meeting and conference facilities, concierge and room service and valet parking, among others. Select-service hotels typically have limited food and beverage outlets and do not offer comprehensive business or banquet facilities. Resort properties may include smaller boutique hotels and large-scale integrated resorts. All of our investments to date have been in the United States. However, we may consider, and are not prohibited under our organizational documents from making, investments outside the United States.

Our Advisor evaluates potential acquisitions on a case-by-case basis. We are not required to meet any diversification standards and have no specific policies or restrictions regarding the geographic areas where we make investments or on the percentage of our capital that we may invest in a particular asset. However, without the prior approval of a majority of our independent directors, we may not invest more than 25% of our equity capital in non-lodging-related investments. We may also invest in permitted temporary investments, which include bank accounts and certificates of deposit, short-term U.S. government securities and other short-term liquid investments.

Our Portfolio

At December 31, 2017, our portfolio was comprised of our full or partial ownership in 31 hotels with 8,343 guest rooms, all located in the U.S. market. See [Item 2. Properties](#).

Holding Period

We generally intend to hold our investments in real property for an extended period depending on the type of investment. The determination of whether a particular asset should be sold or otherwise disposed of will be made after consideration of relevant factors, including prevailing economic conditions, with a view to achieving maximum capital appreciation for our stockholders while avoiding increases in risk. No assurance can be given that this objective will be realized.

Financing Strategies

At December 31, 2017, our hotel portfolio, including both the hotels that we consolidate in our financial statements, or our Consolidated Hotels (as further discussed in [Note 4](#)), and the hotels that we record as equity investments in our financial statements, or our Unconsolidated Hotels (as further discussed in [Note 5](#)), was 63% leveraged. Our organizational documents permit us to incur leverage of up to 75% of the total costs of our investments, or 300% of our net assets, whichever is less, or a higher amount with the approval of a majority of our independent directors.

Over time, we expect to meet our long-term liquidity requirements, including funding any additional hotel property acquisitions, through long-term secured and unsecured borrowings.

Transactions With Affiliates

We may borrow funds or purchase properties from, or enter into joint ventures with, our Advisor, the Subadvisor, or their respective affiliates, if we believe that doing so is consistent with our investment objectives and we comply with our investment policies and procedures. A majority of our directors (including the independent directors) must approve any significant investment in which we invest jointly with an entity sponsored and/or managed by our Advisor, the Subadvisor or their respective affiliates.

Competition

The hotel industry is highly competitive. Hotels we acquire compete with other hotels for guests in our markets. Competitive factors include location, convenience, brand affiliation, room rates, range and the quality of services, facilities and guest amenities or accommodations offered. Competition in the markets in which our hotels operate include competition from existing, newly renovated and newly developed hotels in the relevant segments. Competition can adversely affect the occupancy, average daily rates, or ADR, and revenue per available hotel room, or RevPAR, of our hotels, and thus our financial results, and may require us to provide additional amenities, incur additional costs or make capital improvements that we otherwise might not choose to make, which may adversely affect our profitability.

Seasonality

Certain lodging properties are seasonal in nature. Generally, occupancy rates and revenues are greater in the second and third quarters than in the first and fourth quarters. As a result of the seasonality of certain lodging properties, there may be quarterly fluctuations in results of operations of our properties. Quarterly financial results may be adversely affected by factors outside our control, including weather conditions and poor economic factors.

Environmental Matters

Our hotel properties are subject to various federal, state and local environmental laws and regulations. In connection with our current or prior ownership or operation of hotels, we may potentially be liable for various environmental costs or liabilities (including investigation, clean-up and disposal of hazardous materials released at, on, under, in or from the property). Environmental laws and regulations typically impose responsibility without regard to whether the owner or operator knew of or was responsible for the presence of hazardous materials or contamination, and liability is often joint and several. As part of our efforts to mitigate these risks, we typically engage third parties to perform assessments of potential environmental risks when evaluating new acquisitions or if required to do so by a lender. Such environmental surveys are limited in scope, however, and we remain exposed to contaminants (e.g., such as asbestos and mold) and hazardous or regulated substances used during the routine operations of our hotels (e.g., swimming pool or dry cleaning chemicals). Our hotel properties incur costs to comply with environmental and health and safety laws and regulations and could be subject to fines and penalties for non-compliance.

We have not received written notice from any governmental authority of any material noncompliance, liability or claim relating to hazardous or toxic substances or other environmental matters in connection with any of our properties. And although we are not currently aware of any material environmental or health and safety claims pending or threatened against us, a claim may be asserted against us in the future that could have a material adverse effect on us.

Our properties must comply with Title III of the Americans with Disabilities Act, or the ADA, to the extent that such properties are “public accommodations” as defined by the ADA. We believe that our properties are substantially in compliance with the ADA, however, the obligation to make readily achievable accommodations is an ongoing one and we will continue to assess our properties and make alterations as appropriate.

Financial Information About Geographic Areas

See [Management’s Discussion and Analysis of Financial Condition and Results of Operations — Portfolio Overview in Item 7](#) for financial information pertaining to our geographic operations.

Available Information

We will supply to any stockholder, upon written request and without charge, a copy of this Report as filed with the SEC. All filings we make with the SEC, including this Report, our quarterly reports on Form 10-Q, and our current reports on Form 8-K, and any amendments to those reports, are available for free on our website, <http://www.careywatermark.com>, as soon as reasonably practicable after they are filed with or furnished to the SEC. We are providing our website address solely for the information of investors. We do not intend our website to be an active link or to otherwise incorporate the information contained on our website into this Report, or other filings with the SEC. Our SEC filings are available to be read or copied at the SEC’s Public Reference Room at 100 F Street, NE, Washington, D.C. 20549. Information regarding the operation of the Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330. Our filings can also be obtained for free on the SEC’s website at <http://www.sec.gov>. Our Code of Business Conduct and Ethics, which applies to all employees, including our chief executive officer and chief financial officer, is available on our website, <http://www.careywatermark.com>. We intend to make available on our website any future amendments or waivers to our Code of Business Conduct and Ethics within four business days after any such amendments or waivers.

Item 1A. Risk Factors.

Our business, results of operations, financial condition and ability to pay distributions could be materially adversely affected by various risks and uncertainties, including the conditions below. These risk factors may affect our actual operating and financial results and could cause such results to differ materially from our expectations as expressed in any forward-looking statements. You should not consider this list exhaustive. New risk factors emerge periodically and we cannot assure you that the factors described below list all risks that may become material to us at any later time.

The price of shares being offered through our DRIP are determined by our board of directors based upon our NAV from time to time and may not be indicative of the price at which the shares would trade if they were listed on an exchange or actively traded by brokers.

The price of the shares being offered through our DRIP are determined by our board of directors in the exercise of its business judgment based upon our NAV from time to time. The valuation methodologies underlying our NAV involves subjective judgments. Valuations of real properties do not necessarily represent the price at which a willing buyer would purchase our properties; therefore, there can be no assurance that we would realize the values underlying our NAV if we were to sell our assets and distribute the net proceeds to our stockholders. In addition, the values of our assets and debt are likely to fluctuate over time. This price may not be indicative of (i) the price at which shares would trade if they were listed on an exchange or actively traded by brokers, (ii) the proceeds that a stockholder would receive if we were liquidated or dissolved or (iii) the value of our portfolio at the time you were able to dispose of your shares.

Our distributions have exceeded, and may in the future exceed, our funds from operations, or FFO.

Over the life of our company, the regular quarterly cash distributions we pay are expected to be principally sourced from our FFO. However, we have funded a portion of our cash distributions to date using net proceeds from our public offerings and, to a lesser extent, other sources; and there can be no assurance that our FFO will be sufficient to cover our future distributions. Our distribution coverage using FFO was approximately 68% and 58% of total distributions for the year ended December 31, 2017 and on a cumulative basis through that date, respectively. Our distribution coverage using cash flow from operations was approximately 100% and 81% of total distributions for the year ended December 31, 2017 and on a cumulative basis through that date, respectively. If our properties are not generating sufficient cash flow or our other expenses require it, we may need to use other sources of funds, such as proceeds from asset sales, borrowings or our DRIP to fund distributions in order to satisfy REIT requirements. If we fund distributions from borrowings, such financing will incur interest costs and need to be repaid.

Stockholders' equity interests may be diluted.

Our stockholders do not have preemptive rights to any shares of common stock issued by us in the future. Therefore, if we (i) sell shares of common stock in the future, including those issued pursuant to our DRIP, (ii) issue shares of common stock to our independent directors or to our Advisor and its affiliates for payment of fees in lieu of cash, (iii) issue shares of common stock under our 2010 Equity Incentive Plan, or (iv) issue additional common stock or other securities that are convertible into our common stock, then existing stockholders and investors that purchased their shares in our initial and follow-on offerings will experience dilution of their percentage ownership in us. Depending on the terms of such transactions, most notably the offer price per share, which may be less than the per share proceeds received by us in our offering, and the value of our properties and our other investments, existing stockholders might also experience a dilution in the book value per share of their investment in us.

Our board of directors may change our investment policies without stockholder approval, which could alter the nature of your investment.

Our charter requires that our independent directors review our investment policies at least annually to determine that the policies are in the best interest of our stockholders. These policies may change over time. The methods of implementing our investment policies may also vary as new investment techniques are developed. Except as otherwise provided in our charter, our investment policies, the methods for their implementation, and our other objectives, policies and procedures may be altered by a majority of our directors (including a majority of the independent directors), without the approval of our stockholders. As a result, the nature of your investment could change without your consent. Material changes in our investment focus will be described in our periodic reports filed with the SEC; however, these reports would typically be filed after changes in our investment focus have been made, and in some cases, several months after such changes. A change in our investment strategy may, among other things, increase our exposure to interest rate risk, default risk and hotel property market fluctuations, all of which could materially adversely affect our ability to achieve our investment objectives.

We are not required to meet any diversification standards; therefore, our investments may become subject to concentration risks.

Subject to our intention to maintain our qualification as a REIT, there are no limitations on the number or value of particular types of investments that we may make. We are not required to meet any diversification standards, including geographic diversification standards. Therefore, our investments may become concentrated in type or geographic location, which could subject us to significant concentration risks with potentially adverse effects on our ability to achieve our investment objectives.

Our success is dependent on the performance of our Advisor and the Subadvisor.

Our ability to achieve our investment objectives and to pay distributions is dependent upon the performance of our Advisor in the acquisition of investments, the determination of any financing arrangements and the management of our assets. The Advisory Agreement has a term of one year and may be renewed for successive one-year periods. In addition, our Advisor currently advises CWI 2, which also focuses on lodging investments. Our Advisor has retained the services of the Subadvisor because the Subadvisor is experienced in investing in and managing hotel properties and other lodging-related assets, including for CWI 2. If either our Advisor or the Subadvisor fails to perform according to our expectations, we could be materially adversely affected.

The past performance of WPC or Watermark Capital Partners, or partnerships and programs sponsored or managed by WPC, including the CPA Programs, may not be indicative of our Advisor's performance with respect to us. Prior to us, our Advisor had not previously sponsored a program focused on lodging investments. We cannot guarantee that our Advisor will be able to successfully manage and achieve liquidity for us to the extent it has done so in the past.

We are dependent upon our Advisor and our Advisor's access to the lodging experience of the Subadvisor.

We are subject to the risk that our Advisor will terminate the Advisory Agreement or that the Advisor or the Subadvisor will terminate the Subadvisory Agreement and that no suitable replacement(s) will be found to manage us. We have no employees or separate facilities and are substantially reliant on our Advisor, which has significant discretion as to the implementation and execution of our business strategies. Our Advisor in turn is relying in part on the lodging experience of the Subadvisor. We can offer no assurance that our Advisor will remain our external manager, that the Subadvisor will continue to be retained or that we will continue to have access to our Advisor's, WPC's and/or Watermark Capital Partners' professionals, or their information or deal flow. If our Advisor terminates the Advisory Agreement or if our Advisor or the Subadvisor terminates the Subadvisory Agreement, we will not have such access and will be required to expend time and money to seek replacements, all of which may impact our ability to execute our business plan and meet our investment objectives.

Moreover, lenders for certain of our assets may request change of control provisions in the loan documentation that would make the termination, replacement or dissolution of our Advisor, events of default or events requiring the immediate repayment of the full outstanding balance of the loan. If such a default or accelerated repayment event occurs with respect to any of our assets, our revenues and distributions to our stockholders may be adversely affected.

Exercising our right to repurchase all or a portion of Carey Watermark Holdings' interests in our Operating Partnership upon certain termination events could be prohibitively expensive and could deter us from terminating the Advisory Agreement.

The termination or resignation of Carey Lodging Advisors, LLC as our Advisor, including by non-renewal of the Advisory Agreement and replacement with an entity that is not an affiliate of our Advisor, would give our Operating Partnership the right, but not the obligation, to repurchase all or a portion of Carey Watermark Holdings' interests in our Operating Partnership at the fair market value of those interests on the date of termination, as determined by an independent appraiser. This repurchase could be prohibitively expensive and require the Operating Partnership to sell assets in order to complete the repurchase. If our Operating Partnership does not exercise its repurchase right, we might be unable to find another entity that would be willing to act as our Advisor while Carey Watermark Holdings owns a significant interest in the Operating Partnership. Even if we do find another entity to act as our Advisor, we may be subject to higher fees than the fees charged by Carey Lodging Advisors, LLC. These considerations could deter us from terminating the Advisory Agreement.

The repurchase of Carey Watermark Holdings' special general partner interest in our Operating Partnership upon the termination of our Advisor in connection with a merger or other extraordinary corporate transaction may discourage certain business combination transactions.

In the event of a merger or other extraordinary corporate transaction in which the Advisory Agreement is terminated and an affiliate of WPC does not replace Carey Lodging Advisors, LLC as our Advisor, the Operating Partnership must either repurchase all or a portion of Carey Watermark Holdings' special general partner interest in our Operating Partnership or obtain Carey Watermark Holdings' consent to the merger. This obligation may deter a transaction in which we are not the surviving entity. This deterrence may limit the opportunity for stockholders to receive a premium for their shares that might otherwise exist if a third party attempted to acquire us through a merger or other extraordinary corporate transaction.

Payment of fees to our Advisor and distributions to our special general partner will reduce cash available for investment and distribution.

Our Advisor will perform services for us in connection with the selection and acquisition of our investments, the management of our properties and the administration of our other investments. Unless our Advisor elects to receive shares of our common stock in lieu of cash compensation, we will pay our Advisor substantial cash fees for these services. In addition, Carey Watermark Holdings, as the special general partner of our Operating Partnership, is entitled to certain distributions from our Operating Partnership. The payment of these fees and distributions will reduce the amount of cash available for investments or distribution to our stockholders.

The Subadvisor would likely assert a lack of fiduciary duty as a defense to claims.

The Subadvisor and its affiliated principals believe that they are not in a fiduciary relationship to our stockholders and may assert this position as a defense in any legal proceeding or claim asserting a breach of fiduciary duties by the Subadvisor.

We have limited independence from our Advisor, the Subadvisor and their respective affiliates, who may be subject to conflicts of interest.

Substantially all of our management functions are performed by officers of our Advisor pursuant to the Advisory Agreement and by the Subadvisor pursuant to the Subadvisory Agreement. Additionally, some of the directors of WPC and Watermark Capital Partners, or entities managed by them, are also members of our board of directors. This limited independence, combined with our Advisor's and Carey Watermark Holdings' interests in us, may result in potential conflicts of interest because of the substantial control that our Advisor has over us and because some of its economic incentives may differ from those of our stockholders. Circumstances under which a conflict could arise between us, our Advisor, the Subadvisor and their affiliates include:

- our Advisor and the Subadvisor are compensated for certain transactions on our behalf (e.g., for acquisitions of investments, sales and financing), which may cause our Advisor to engage in transactions that generate higher fees, rather than transactions that are more appropriate or beneficial for our business;
- agreements between us and our Advisor, and between our Advisor and the Subadvisor, including agreements regarding compensation, will not be negotiated on an arm's-length basis, as would occur if the agreements were with unaffiliated third parties;
- acquisitions of single assets or portfolios of assets from affiliates (including WPC or the other investment programs that it manages), subject to our investment policies and procedures, in the form of a direct purchase of assets, a merger or another type of transaction;
- competition with WPC, the other entities managed by it and the Subadvisor for investment acquisitions, which are resolved by our Advisor (although our Advisor is required to use its best efforts to present a continuing and suitable investment program to us, allocation decisions present conflicts of interest, which may not be resolved in the manner most favorable to our interests);
- decisions regarding asset sales, which could impact the timing and amount of fees payable to our Advisor and the Subadvisor as well as allocations and distributions payable to Carey Watermark Holdings pursuant to its special general partner interests (e.g., our Advisor receives asset management fees and may decide not to sell an asset; however, our Advisor receives disposition fees and Carey Watermark Holdings will be entitled to certain profit allocations and cash distributions based upon sales of assets as a result of its Operating Partnership profits interest, and the Subadvisor will share in apportionment of those fees and distributions);
- business combination transactions, including mergers with WPC or the other investment programs that it manages;

- decisions regarding liquidity events, which may entitle our Advisor, the Subadvisor and their affiliates to receive additional fees and distributions relation to the liquidations;
- disposition fees based on the sale price of assets, as well as interests in disposition proceeds based on net cash proceeds from the sale, exchange or other disposition of assets may cause a conflict between our Advisor's desire to sell an asset and our plans to hold or sell the asset;
- the termination and negotiation of the Advisory Agreement and other agreements with our Advisor, the Subadvisor and their affiliates; and
- as of December 31, 2017, our Advisor and its affiliates own approximately 2.1% of our outstanding common stock, which gives our Advisor influence over our affairs even if we were to terminate the Advisory Agreement (there can be no assurance that such affiliates will act in accordance with our interests when exercising the voting power of their shares).

There are conflicts of interest with certain of our directors and officers who have duties to WPC and/or to Watermark Capital Partners and entities sponsored or managed by either of them.

Most of the officers and certain of the directors of our Advisor or the Subadvisor are also our officers and directors, including Mr. Medzigian and Mr. Jason E. Fox, the chairman of our board of directors who is also the chief executive officer of WPC. Our Advisor has entered into a contract with us to provide us with asset management, property acquisition and disposition services and the Subadvisor supports our Advisor in the provision of these services. Our officers may benefit from the fees and distributions paid to our Advisor, the Subadvisor and Carey Watermark Holdings.

In addition, Mr. Medzigian, our chief executive officer and one of our directors, is and will be a principal in other real estate investment transactions or programs that may compete with us. Currently, Mr. Medzigian is the chairman and managing partner of Watermark Capital Partners, a private investment and management firm that specializes in real estate private equity transactions involving hotels and resorts, resort residential products, recreational projects (including golf and club ownership programs), and new-urbanism and mixed-use projects. Watermark Capital Partners, through its affiliates, currently owns interests in and/or manages three lodging properties within the United States, including one which is part of a joint venture with WPC and two in which Watermark Capital Partners serves as asset manager pursuant to an asset management agreement with an affiliate of WPC. WPC and some of its managed programs own five investments in 21 lodging properties located within the United States, including one which is part of a joint venture with Watermark Capital Partners. WPC, some of its managed programs and Watermark Capital Partners have an economic interest in other transactions, including in such pre-existing lodging investments, and Mr. Medzigian, by virtue of his position in Watermark Capital Partners, may be subject to conflicts of interests. As a result of the interests described in this section, our Advisor, the Subadvisor and the directors and officers who are common to us and the other investment programs that WPC manages, WPC and Watermark Capital Partners will experience conflicts of interest.

Our NAV is computed by our Advisor relying in part on information that our Advisor provides to a third party.

Our NAV is computed by our Advisor relying in part upon an annual third-party appraisal of the fair market value of our real estate and third-party estimates of the fair market value of our debt. Any valuation includes the use of estimates and our valuation may be influenced by the information provided to the third party by our Advisor. Because NAV is an estimated value and can change as interest rate and real estate markets fluctuate, there is no assurance that a stockholder will realize such NAV in connection with any liquidity event.

We may face competition from WPC and entities managed by our Advisor, the Subadvisor and their respective affiliates in the purchase, sale and ownership of properties.

WPC, Watermark Capital Partners and the other investment programs that WPC manages may compete with us with respect to properties, potential purchasers, sellers of properties and mortgage financing for properties. If some of the entities formed and managed by our Advisor or the Subadvisor, or their respective affiliates, in the future focus specifically on lodging investments, they may receive preference in the allocation of those types of investments.

If we internalize our management functions, stockholders' interests could be diluted and we could incur significant self-management costs.

In the future, our board of directors may consider internalizing the functions currently performed for us by our Advisor by, among other methods, acquiring our Advisor or the Subadvisor. The method by which we could internalize these functions could take many forms. There is no assurance that internalizing our management functions will be beneficial to us and our stockholders. There is also no assurance that the key employees of the Advisor or the Subadvisor who perform services for us would elect to work directly for us, instead of remaining with our Advisor (or another affiliate of WPC) or the Subadvisor. An acquisition of our Advisor or the Subadvisor could also result in dilution of your interests as a stockholder and could reduce earnings per share and FFO per share. Additionally, we may not realize the perceived benefits, be able to properly integrate a new staff of managers and employees, or be able to effectively replicate the services provided previously by our Advisor or the Subadvisor.

Internalization transactions, including the acquisition of our Advisor or property managers affiliated with entity sponsors, have also, in some cases, been the subject of litigation. Even if these claims are without merit, we could be forced to spend significant amounts of money defending claims, which would reduce the amount of funds available for us to invest in properties or other investments and to pay distributions. All of these factors could have material adverse effect on our results of operations, financial condition and ability to pay distributions.

We could be adversely affected if our Advisor internalizes with another investment program or otherwise discontinues its investment management business.

Our Advisor and its affiliates act as the external advisor to other investment programs. If any of those entities were to acquire our Advisor in an internalization transaction, we could be adversely affected because such a transaction could result in the loss of our Advisor's services to us or our Advisor could be incentivized to make decisions regarding investment allocation, asset management, liquidity transactions, and other matters that are more favorable to its new owner than to us. In addition, our Advisor is a subsidiary of WPC, which is a publicly traded and exchange-listed REIT in its own right. As of June 30, 2017, WPC exited non-traded retail fundraising activities and no longer sponsors new investment programs, although it has stated that it currently expects to continue serving as our Advisor through the end of our life cycle. There can be no assurance that WPC will not discontinue its investment management business entirely, in which case, we would have to find a new advisor, who may not be familiar with our company, may not provide the same level of services as our Advisor, and may charge fees that are higher than the fees we pay to our Advisor, all of which may materially adversely affect our performance and delay or otherwise negatively impact our ability to effect a liquidity event.

We could have property losses that are not covered by insurance.

Our property insurance policies provide that all of the claims from each of our hotels resulting from a particular insurable event must be combined together for purposes of evaluating whether the aggregate limits and sub-limits contained in our policies have been exceeded. Therefore, if an insurable event occurs that affects more than one of our hotels, the claims from each affected hotel will be added together to determine whether the aggregate limit or sub-limits, depending on the type of claim, have been reached. If the total value of the loss exceeds the aggregate limits available, each affected hotel may only receive a proportional share of the amount of insurance proceeds provided for under the policy. We may incur losses in excess of insured limits, and as a result, may be even less likely to receive sufficient coverage for risks that affect multiple properties, such as earthquakes or catastrophic terrorist acts. In addition, catastrophic losses, such as those from successive or massive hurricanes, could make the cost of insuring against such types of losses prohibitively expensive or difficult to obtain. Risks such as war, catastrophic terrorist acts, nuclear, biological, chemical or radiological attacks, and some environmental hazards may be deemed to fall completely outside the general coverage limits of our policies, may be uninsurable or may be too expensive to justify insuring against.

We may also encounter disputes concerning whether an insurance provider will pay a particular claim that we believe is covered under our policy. Should a loss in excess of insured limits or an uninsured loss occur, or should we be unsuccessful in obtaining coverage from an insurance carrier, we could lose all, or a portion of, the capital we have invested in a property, as well as the anticipated future revenue from the hotel. In such event, we may nevertheless remain obligated for any mortgage debt or other financial obligations related to the property.

We obtain terrorism insurance to the extent required by lenders or franchisors as a part of our all-risk property insurance program, as well as our general liability policy. However, our all-risk policies have limitations, such as per occurrence limits and sub-limits, which may have to be shared proportionally across participating hotels under certain loss scenarios. Also, all-risk insurers only have to provide terrorism coverage to the extent mandated by the Terrorism Risk Insurance Act for "certified" acts of terrorism - namely those that are committed on behalf of non-U.S. persons or interests. Furthermore, we do not have full replacement coverage at all of our hotels for acts of terrorism committed on behalf of U.S. persons or interests ("non-certified")

events), as our coverage for such incidents is subject to sub-limits and/or annual aggregate limits. In addition, property damage related to war and to nuclear, biological and chemical incidents is excluded under our policies. While the Terrorism Risk Insurance Act will reimburse insurers for losses resulting from nuclear, biological and chemical perils, it does not require insurers to offer coverage for these perils and, to date, insurers are not willing to provide this coverage, even with government reinsurance. Additionally, there is a possibility that Congress will not renew the Terrorism Risk Insurance Act, which would eliminate the federal subsidy for terrorism losses. As a result of the above, there remains uncertainty regarding the extent and adequacy of terrorism coverage that will be available to protect our interests in the event of future terrorist attacks that impact our properties.

Our operations could be restricted if we become subject to the Investment Company Act.

A person will generally be deemed to be an “investment company” for purposes of the Investment Company Act of 1940, or the Investment Company Act, if:

- it is, or holds itself out as being engaged primarily, or proposes to engage primarily, in the business of investing, reinvesting, or trading in securities; or
- it owns or proposes to acquire investment securities having a value exceeding 40% of the value of its total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis, which is referred to as the “40% test.”

We believe that we and our subsidiaries are engaged primarily in the business of acquiring and owning interests in real estate. We do not hold ourselves out as being engaged primarily in the business of investing, reinvesting, or trading in securities. Accordingly, we do not believe that we are an investment company as defined under the Investment Company Act. If we were required to register as an investment company, we would have to comply with a variety of substantive requirements under the Investment Company Act that impose, among other things, (i) limitations on our capital structure (including our ability to use leverage), (ii) restrictions on specified investments, (iii) prohibitions on proposed transactions with “affiliated persons” (as defined in the Investment Company Act), and (iv) compliance with reporting, record keeping, voting, proxy disclosure, and other rules and regulations that would significantly increase our operating expenses.

Securities issued by majority-owned subsidiaries, such as our Operating Partnership, are excepted from the term “investment securities” for purposes of the 40% test described in the second bullet point above because they are not themselves investment companies and do not rely on the exception from the definition of investment company set forth in Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act, hence our Operating Partnership generally expects to satisfy the 40% test. However, depending on the nature of its investments, our Operating Partnership may rely upon the exclusion from registration as an investment company pursuant to Section 3(c)(5)(C) of the Investment Company Act, which is available for entities “primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interests in real estate.” This exclusion generally requires that at least 55% of the Operating Partnership’s assets must be comprised of qualifying real estate assets and at least 80% of its portfolio must be comprised of qualifying real estate assets and real estate-related assets. Qualifying assets for this purpose include mortgage loans and other assets, including certain mezzanine loans and B notes, that the SEC staff in various no-action letters has affirmed can be treated as qualifying assets. We treat the following as real estate-related assets: commercial mortgage-backed securities, debt and equity securities of companies primarily engaged in real estate businesses, and securities issued by pass-through entities of which substantially all the assets consist of qualifying assets and/or real estate-related assets. We rely on guidance published by the SEC staff or on our analyses of guidance published with respect to other types of assets to determine which assets are qualifying real estate assets and real estate-related assets. In August 2011, the SEC issued a concept release soliciting public comment on a wide range of issues relating to Section (3)(c)(5)(C), including the nature of the assets that qualify for purposes of the exemption and whether mortgage REITs should be regulated in a manner similar to investment companies. There can be no assurance that the laws and regulations governing the Investment Company Act status of REITs, including the guidance of the SEC or its staff regarding this exclusion, will not change in a manner that adversely affects our operations. To the extent that the SEC staff publishes new or different guidance with respect to these matters, we may be required to adjust our strategy accordingly. In addition, we may be limited in our ability to make certain investments and these limitations could result in the Operating Partnership holding assets we might wish to sell or selling assets we might wish to hold.

Because the Operating Partnership is not an investment company and does not rely on the exclusion from investment company registration provided by Section 3(c)(1) or 3(c)(7), and the Operating Partnership is our majority-owned subsidiary, our interests in the Operating Partnership do not constitute investment securities for purposes of the 40% test. Our interest in the Operating Partnership is our only material asset; therefore, we believe that we satisfy the 40% test.

To maintain compliance with an Investment Company Act exemption or exclusion, we may be unable to sell assets we would otherwise want to sell and may need to sell assets we would otherwise wish to retain. In addition, we may have to acquire additional income or loss generating assets that we might not otherwise have acquired or may have to forego opportunities to acquire interests in companies that we would otherwise want to acquire and that would be important to our investment strategy. If we were required to register as an investment company, we would be prohibited from engaging in our business as currently contemplated because the Investment Company Act imposes significant limitations on leverage. In addition, we would have to seek to restructure the Advisory Agreement because the compensation that it contemplates would not comply with the Investment Company Act. If we fail to comply with the Investment Company Act, criminal and civil actions could be brought against us, our contracts could be unenforceable unless a court were to require enforcement, and a court could appoint a receiver to take control of us and liquidate our business.

Compliance with the Americans with Disabilities Act of 1990 and the related regulations, rules and orders may adversely affect our financial condition.

Under the Americans with Disabilities Act of 1990, all public accommodations, including hotels, are required to meet certain federal requirements for access and use by disabled persons. Various state and local jurisdictions have also adopted requirements relating to the accessibility of buildings to disabled persons. We make every reasonable effort to ensure that our hotels substantially comply with the requirements of the Americans with Disabilities Act of 1990 and other applicable laws. However, we could be liable for both governmental fines and payments to private parties if it were determined that our hotels are not in compliance with these laws. If we were required to make unanticipated major modifications to our hotels to comply with the requirements of the Americans with Disabilities Act of 1990 and similar laws, it could materially adversely affect our ability to make distributions to our stockholders and to satisfy our other obligations.

We incur debt to finance our operations, which may subject us to an increased risk of loss.

We incur debt to finance our operations. The leverage we employ varies depending on our ability to obtain credit facilities, the loan-to-value and debt service coverage ratios of our assets, the yield on our assets, the targeted leveraged return we expect from our investment portfolio and our ability to meet ongoing covenants related to our asset mix and financial performance. Our return on our investments and cash available for distribution to our stockholders may be reduced to the extent that changes in market conditions cause the cost of our financing to increase relative to the income that we can derive from the assets we acquire.

Debt service payments may reduce the net income available for distributions to our stockholders. Moreover, we may not be able to meet our debt service obligations and, to the extent that we cannot, we risk the loss of some or all of our assets to foreclosure or sale to satisfy our debt obligations. Our charter and bylaws do not restrict the form of indebtedness we may incur.

Our participation in joint ventures creates additional risk.

From time to time, we have and may continue to participate in joint ventures to purchase assets together with unaffiliated third parties, Watermark Capital Partners, WPC, or the other entities sponsored or managed by our Advisor or its affiliates, such as the other investment programs that WPC manages. There are additional risks involved in joint venture transactions. As a co-investor in a joint venture, we would not be in a position to exercise sole decision-making authority relating to the property, the joint venture or our investment partner. In addition, there is the potential that our joint venture partner may become bankrupt or that we may have diverging or inconsistent economic or business interests. These diverging interests could, among other things, expose us to liabilities in the joint venture investment in excess of our proportionate share of those liabilities. The partition rights of each owner in a jointly owned property could reduce the value of each portion of the divided property. Further, the fiduciary obligation that our Advisor or members of our board of directors may owe to our partner in an affiliated transaction may make it more difficult for us to enforce our rights.

We are subject, in part, to the risks of real estate ownership.

Our performance and asset value is, in part, subject to risks incident to the ownership and operation of real estate, including:

- adverse changes in general or local economic conditions;
- changes in local conditions, such as an oversupply of hotel rooms or a reduction in demand for hotel rooms;
- changes in traffic patterns, mass transit options and neighborhood characteristics;
- increases in the cost of property insurance;
- uninsured property liability, property damage or casualty losses;

- changes in operating expenses, interest rates or the availability of financing;
- changes in laws and governmental regulations, including those governing real estate usage, zoning, environmental issues and taxes;
- unexpected expenditures for capital improvements or to bring properties into compliance with applicable federal, state and local laws;
- exposure to environmental losses; and
- force majeure and other factors beyond the control of our management.

If available financing declines or interest rates rise, our financial condition and ability to make distributions may be adversely affected.

A reduction in available financing or increased interest rates for real-estate related investments may impact our financial condition by increasing our cost of borrowing, reducing our overall leverage (which may reduce our returns on investment) and making it more difficult for us to obtain financing for ongoing acquisitions. These effects could in turn adversely affect our ability to make distributions to our stockholders.

We may have difficulty selling our properties and this lack of liquidity may limit our ability to quickly change our portfolio in response to changes in economic or other conditions.

Real estate investments are generally less liquid than many other financial assets, which may limit our ability to quickly adjust our portfolio in response to changes in economic or other conditions. The real estate market is affected by many factors that are beyond our control, including general economic conditions, availability of financing, interest rates and other factors, such as supply and demand.

We may be required to spend funds to correct defects or to make improvements before a property can be sold and such funds may not be readily available. When acquiring lodging properties, we may agree to lock-out provisions that restrict us from selling a property for a period of time or that impose other material restrictions, such as a limitation on the amount of debt that can be placed or repaid on that property. These factors, and any others that would impede our ability to respond to adverse changes in the lodging industry or the performance of our properties, could have a material adverse effect on our results of operations and financial condition, as well as our ability to pay distributions to stockholders.

Our inability to sell properties may result in us owning lodging facilities that no longer fit within our business strategy. Holding these properties or selling them at a loss may affect our earnings and, in turn, could adversely affect our value. Some of the other factors that could restrict our ability to sell properties include, but are not limited to:

- inability to agree on a favorable price or on favorable terms;
- restrictions imposed by third parties, such as an inability to transfer franchise or management agreements;
- lender restrictions;
- environmental issues; and
- property condition.

Potential liability for environmental matters could adversely affect our financial condition.

Owners of real estate are subject to numerous federal, state and local environmental laws and regulations. Under these laws and regulations, a current or former owner of real estate may be liable for costs of remediating hazardous substances found on its property, whether or not they were responsible for its presence. Although we subject our properties to an environmental assessment prior to acquisition, we may not be made aware of all the environmental liabilities associated with a property prior to its purchase, or we or a subsequent owner may discover hidden environmental hazards after acquisition. The costs of investigation, remediation or removal of hazardous substances may be substantial. In addition, the presence of hazardous substances on one of our properties, or the failure to properly remediate a contaminated property, could adversely affect our ability to sell the property or to borrow using the property as collateral.

Various federal, state and local environmental laws impose responsibilities on an owner or operator of real estate and subject those persons to potential joint and several liabilities. Typical provisions of those laws include:

- responsibility and liability for the costs of investigation and removal (including at appropriate disposal facilities) or remediation of hazardous or toxic substances in, on or migrating from our real property, generally without regard to our knowledge of, or responsibility for, the presence of the contaminants;
- liability for claims by third parties based on damages to natural resources or property, personal injuries, or costs of removal or remediation of hazardous or toxic substances in, on or migrating from our property; and
- responsibility for managing asbestos-containing building materials, and third-party claims for exposure to those materials.

Environmental laws may also impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require expenditures.

We and our independent hotel operators rely on information technology in our operations, and any material failure, inadequacy, interruption or security failure of that technology could harm our business.

We and our independent hotel operators rely on information technology networks and systems, including the Internet, to process, transmit and store electronic information, and to manage or support a variety of business processes, including financial transactions and records, personal identifying information, reservations, billing and operating data. We purchase some of our information technology from third-party vendors and we rely on commercially available systems, software, tools and monitoring to provide security for processing, transmission and storage of confidential customer information (e.g., individually identifiable information, including information relating to financial accounts). Although we have taken steps to protect the security of our information systems and the data maintained in those systems, it is possible that our safety and security measures will not be able to prevent improper system functions, damage or the improper access or disclosure of personally identifiable information. Security breaches, including physical or electronic break-ins, computer viruses, attacks by hackers and similar breaches, can create system disruptions, shutdowns or unauthorized disclosure of confidential information. Any failure to maintain proper function, security and availability of our information systems could interrupt our operations, damage our reputation, subject us to liability claims or regulatory penalties and could have a material adverse effect on our business, financial condition and results of operations.

We face risks relating to cybersecurity attacks, loss of confidential information and other business disruptions.

Our business is at risk from and may be impacted by cybersecurity attacks, including attempts to gain unauthorized access to our confidential data and other electronic security breaches. Such cyberattacks can range from individual attempts to gain unauthorized access to our or our independent property operators' information technology systems to more sophisticated security threats. While we and our independent property operators employ a number of measures to prevent, detect and mitigate these threats including password protection, backup servers and annual penetration testing, there is no guarantee such efforts will be successful in preventing a cyberattack. Cybersecurity incidents could compromise the confidential information of financial transactions and records, personal identifying information, reservations, billing and operating data and disrupt and affect the efficiency of our business operations.

The occurrence of cyber incidents to our Advisor, or a deficiency in our Advisor's cyber security, could negatively impact our business by causing a disruption to our operations, a compromise or corruption of our confidential information, and/or damage to our business relationships, all of which could negatively impact our financial results.

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of information resources. More specifically, a cyber incident is an intentional attack that can include gaining unauthorized access to systems to disrupt operations, corrupt data or steal confidential information, or an unintentional accident or error. As our Advisor's reliance on technology has increased, so have the risks posed to our Advisor's systems, both internal and those our Advisor has outsourced. Our Advisor may also store or come into contact with sensitive information and data. If, in handling this information, our Advisor or their respective partners fail to comply with applicable privacy or data security laws, we could face significant legal and financial exposure to claims of governmental agencies and parties whose privacy is compromised. The three primary risks that could directly result from the occurrence of a cyber incident include operational interruption, damage to our business relationships in the hotel industry and private data exposure. We and our Advisor maintain insurance intended to cover some of these risks, but it may not be sufficient to cover the losses from any future breaches of our Advisor systems. Our Advisor has implemented processes, procedures, and controls to help mitigate these risks, but these measures, as well as our

and our Advisor's increased awareness of a risk of a cyber incident, do not guarantee that our financial results will not be negatively impacted by such an incident.

Economic conditions may adversely affect the lodging industry.

The performance of the lodging industry has historically been closely linked to the performance of the general economy and, specifically, growth in U.S. GDP. It is also sensitive to business and personal discretionary spending levels. Declines in corporate budgets and consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence or adverse political conditions can lower the revenues and profitability of our hotel properties, and therefore our net operating profits. The global economic downturn in 2008 and 2009 led to a significant decline in demand for products and services provided by the lodging industry, lower occupancy levels and significantly reduced room rates. Any similar downturn in the U.S. economy would likely adversely impact our revenues and have a negative effect on our profitability.

We are subject to various operating risks common to the lodging industry, which may adversely affect our ability to make distributions to our stockholders.

Our hotel properties and lodging facilities are subject to various operating risks common to the lodging industry, many of which are beyond our control, including the following:

- competition from other hotel properties or lodging facilities in our markets;
- over-building of hotels in our markets, which would adversely affect occupancy and revenues at the hotels we acquire;
- dependence on business and commercial travelers and tourism;
- increases in energy costs and other expenses affecting travel, which may affect travel patterns and reduce the number of business and commercial travelers and tourists;
- increases in operating costs due to inflation and other factors that may not be offset by increased room rates;
- changes in governmental laws and regulations, fiscal policies and zoning ordinances, and the related compliance costs of such changes;
- adverse effects of international, national, regional and local economic and market conditions;
- unforeseen events beyond our control, such as terrorist attacks, travel related health concerns (including pandemics and epidemics), political instability, governmental restrictions on travel, regional hostilities, imposition of taxes or surcharges by regulatory authorities, travel related accidents and unusual weather patterns (including natural disasters such as hurricanes, wildfires, tsunamis or earthquakes);
- adverse effects of a downturn in the lodging industry; and
- risks generally associated with the ownership of hotel properties and real estate, as discussed in other risk factors.

These risks could reduce our net operating profits, which in turn could adversely affect our ability to make distributions to our stockholders.

Seasonality of certain lodging properties may cause quarterly fluctuations in results of operations of our properties.

Certain lodging properties are seasonal in nature. Generally, occupancy rates and revenues are greater in the second and third quarters than in the first and fourth quarters of each year. As a result of the seasonality of certain lodging properties, there may be quarterly fluctuations in the results of operations of our properties. Quarterly financial results may be adversely affected by factors outside our control, including weather conditions and poor economic factors. As a result, we may need to enter into short-term borrowings during certain periods in order to offset these fluctuations in revenues, to fund operations or to make distributions to our stockholders.

The cyclical nature of the lodging industry may cause fluctuations in our operating performance.

The lodging industry is highly cyclical in nature. Fluctuations in operating performance are caused largely by general economic and local market conditions, which affect business and leisure travel levels. In addition to general economic conditions, new hotel room supply is an important factor that can affect the lodging industry's performance, and over-building has the potential to further exacerbate the negative impact of an economic recession. Room rates and occupancy, and thus RevPAR, tend to increase when demand growth exceeds supply growth. A decline in lodging demand, a substantial growth in lodging supply or a deterioration in the improvement of lodging fundamentals as forecast by industry analysts could result in returns that are

substantially below expectations, or result in losses, which could have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

Future terrorist attacks or increased concern about terrorist activities, or the threat or outbreak of a pandemic disease, could adversely affect the travel and lodging industries and may affect the operations of our hotels.

As in the past, terrorist attacks or alerts in the United States and abroad, or the threat of, or actual outbreak of, pandemic disease could reduce both business and leisure travel, resulting in a decline in the lodging sector. Any kind of terrorist activity within the United States or elsewhere could negatively impact both domestic and international markets, as well as our business. Such attacks or threats of attacks could have a material adverse effect on our business, our ability to insure our properties and our operations. The threat of or actual outbreak of a pandemic disease could reduce business and leisure travel, which could have a material adverse effect on our business.

We may not have control over properties under construction or renovation.

We may acquire hotels under development, and we have acquired, and may continue to acquire, hotels that require extensive renovation. When we acquire a hotel for development or renovation, we are subject to the risk that we cannot control construction costs and the timing of construction or a developer's ability to build in conformity with plans, specifications and timetables.

We are subject to the risk of increased lodging operating expenses.

We are subject to the risk of increased lodging operating expenses, including, but not limited to, the following cost elements: wage and benefit costs; repair and maintenance expenses; employee liabilities; energy costs; property taxes; insurance costs; and other operating expenses. Any increases in one or more of these operating expenses could have a significant adverse impact on our results of operations, cash flows and financial position.

Our results of operations, financial position, cash flows and ability to service debt and to make distributions to stockholders depend on the ability of the independent property operators to operate and manage the hotels.

As a REIT, we are allowed to own lodging properties, but are prohibited from operating them. Therefore, in order for us to satisfy certain REIT qualification rules, we enter into leases with the TRS lessees for each of our lodging properties. The TRS lessees in turn contract with independent property operators that manage the day-to-day operations of our properties. Although we consult with the property operators with respect to strategic business plans, we may be limited, depending on the terms of the applicable operating agreement and REIT qualification rules, in our ability to direct the actions of the independent property operators, particularly with respect to daily operations. Thus, even if we believe that our lodging properties are being operated inefficiently or in a manner that does not result in satisfactory occupancy rates, RevPAR, ADR or operating profits, we may not have sufficient rights under a particular property operating agreement to force the property operator to change its method of operation. We can only seek redress if a property operator violates the terms of the applicable property operating agreement with the TRS lessee, and then only to the extent of the remedies provided in the property operating agreement. Our results of operations, financial position, cash flows and ability to service debt and to make distributions to stockholders are, therefore, substantially dependent on the ability of the property operators to successfully operate our hotels. Some of our operating agreements may have lengthy terms, may not be terminable by us before the agreement's expiration and may require the payment of substantial termination fees. In the event that we are able to and do replace any of our property operators, we may experience significant disruptions at the affected hotels, which may adversely affect our ability to make distributions to our stockholders.

There may be operational limitations associated with management and franchise agreements affecting our properties and these limitations may prevent us from using these properties to their best advantage for our stockholders.

The TRS lessees hold some of our properties and have entered into franchise or license agreements with nationally recognized lodging brands. These franchise agreements contain specific standards for, and restrictions and limitations on, the operation and maintenance of our properties in order to maintain uniformity within the franchise system. The franchisors also periodically inspect our properties to ensure that we maintain their standards. We do not know whether these limitations will restrict the business plans we have tailored for each property and/or market.

The standards are subject to change over time, in some cases at the direction of the franchisor, and may restrict the ability of our TRS lessees' ability, as franchisees, to make improvements or modifications to a property. Conversely, as a condition to the

maintenance of a franchise license, a franchisor could also require us to make capital expenditures, even if we do not believe the improvements are necessary, desirable or likely to result in an acceptable return on our investment. Action or inaction by us or our TRS lessees could result in a breach of those standards or other terms and conditions of the franchise agreements and could result in the loss or termination of a franchise license.

In addition, when terminating or changing the franchise affiliation of a property, we may be required to incur significant expenses or capital expenditures. Moreover, the loss of a franchise license could have a material adverse effect upon the operations or the underlying value of the property covered by the franchise due to the associated loss of name recognition, marketing support and centralized reservation systems provided by the franchisor. The loss of a franchise license for one or more lodging properties could materially and adversely affect our results of operations, financial condition and cash flows, including our ability to service debt and make distributions to our stockholders.

We are subject to the risks of brand concentration.

Of the 31 hotels that we held ownership interests in as of December 31, 2017, 24 utilize brands owned by Marriott or Hilton. As a result, our success is dependent in part on the continued success of their brands. A negative public image or other adverse event that becomes associated with those brands could adversely affect hotels operated under those brands. If those brands suffer a significant decline in appeal to the traveling public, the revenues and profitability of our hotels operated under those brands could be adversely affected.

We face competition in the lodging industry, which may limit our profitability and returns to our stockholders.

The lodging industry is highly competitive. This competition could reduce occupancy levels and revenues at our properties, which would adversely affect our operations. We face competition from many sources, including from (i) other lodging facilities, both in the immediate vicinity and the geographic market where our lodging properties are located and (ii) nationally recognized lodging brands that we are not associated with. In addition, increases in operating costs due to inflation may not be offset by increased room rates.

We also face competition for investment opportunities. In addition to WPC, Watermark Capital Partners and their respective affiliates, including the other investment programs that WPC manages, we face competition from other REITs, national lodging chains and other entities that may have substantially greater financial resources than us. If our Advisor is unable to compete successfully in the acquisition and management of our lodging properties, our results of operation and financial condition may be adversely affected and may reduce the cash available for distribution to our stockholders.

Because our properties are operated by independent property operators, our revenues depend on the ability of such independent property operators to compete successfully with other hotels and resorts in their respective markets. Some of our competitors may have substantially greater marketing and financial resources than us. If independent property operators are unable to compete successfully or if our competitors' marketing strategies are effective, our results of operations, financial condition and ability to service debt may be adversely affected and may reduce the cash available for distribution to our stockholders.

The lack of an active public trading market for our shares could make it difficult for stockholders to sell shares quickly or at all. We may amend, suspend or terminate our redemption plan without giving our stockholders advance notice.

There is no active public trading market for our shares and we do not expect one to develop. Moreover, we are not required to ever complete a liquidity event. Our stockholders should not rely on our redemption plan as a method to sell shares promptly because it includes numerous restrictions that limit stockholders' ability to sell their shares to us and our board of directors may amend, suspend or terminate the plan without advance notice. In particular, the redemption plan provides that we may redeem shares only if we have sufficient funds available for redemption and to the extent the total number of shares for which redemption is requested in any quarter, together with the aggregate number of shares redeemed in the preceding three fiscal quarters, does not exceed 5% of the total number of our shares outstanding as of the last day of the immediately preceding fiscal quarter. Given these limitations, it may be difficult for stockholders to sell their shares promptly or at all. In addition, the price received for any shares sold prior to a liquidity event is likely to be less than the applicable NAV at that time. Investor suitability standards imposed by certain states may also make it more difficult for stockholders to sell their shares to someone in those states. Two CPA programs, Corporate Property Associates 14 Incorporated and Corporate Property Associates 15 Incorporated, suspended their redemption programs in 2009; both programs have since completed liquidity events.

The limit in our charter on the number of our shares a person may own may discourage a takeover, which might provide our stockholders with liquidity or other advantages.

To assist us in meeting the REIT qualification rules, among other things, our charter prohibits the ownership by one person or affiliated group of more than 9.8% in value of our stock or more than 9.8% in value or number, whichever is more restrictive, of our outstanding shares of common stock, unless exempted (prospectively or retroactively) by our board of directors. This ownership limitation may discourage third parties from making a potentially attractive tender offer for our stockholders' shares, thereby inhibiting a change of control in us.

We disclose FFO and modified funds from operations, or MFFO, which are financial measures that are not derived in accordance with U.S. generally accepted accounting principles, or GAAP, in documents we file with the SEC; however, FFO and MFFO are not equivalent to our net income or loss as determined under GAAP, and stockholders should consider GAAP measures to be more relevant to our operating performance.

We use and disclose to investors FFO and MFFO, which are metrics not derived in accordance with GAAP, or non-GAAP financial measures. FFO and MFFO are not equivalent to our net income or loss as determined in accordance with GAAP and investors should consider GAAP measures to be more relevant to evaluating our operating performance. FFO and GAAP net income differ because FFO excludes gains or losses from sales of property and asset impairment write-downs, depreciation and amortization, and is after adjustments for such items related to noncontrolling interests. MFFO and GAAP net income differ because MFFO represents FFO with further adjustments to exclude acquisition-related expenses, amortization of above- and below-market leases, fair value adjustments of derivative financial instruments, realized gains and losses from early extinguishment of debt, and the further adjustments of these items related to noncontrolling interests.

Presentation of this information is intended to provide useful information to investors as they compare the operating performance of different REITs, although it should be noted that not all REITs calculate FFO and MFFO the same way, so comparisons with other REITs may not be meaningful. Furthermore, FFO and MFFO are not necessarily indicative of cash flow available to fund cash needs and should not be considered as an alternative to net income (loss) or income (loss) from continuing operations as an indication of our performance, as an alternative to cash flows from operations as an indication of our liquidity, or indicative of funds available to fund our cash needs, including our ability to make distributions to our stockholders. FFO and MFFO should be reviewed in conjunction with GAAP measurements as an indication of our performance.

Neither the SEC, the National Association of Real Estate Investment Trusts, Inc., or NAREIT, an industry trade group, nor any other regulatory body has passed judgment on the acceptability of the adjustments that we use to calculate FFO or MFFO. In the future, the SEC, NAREIT or another regulatory body may decide to standardize the allowable adjustments across the non-listed REIT industry and we would have to adjust our calculation and characterization of FFO and MFFO accordingly.

Conflicts of interest may arise between holders of our common stock and holders of partnership interests in our Operating Partnership.

Our directors and officers have duties to us and our stockholders under Maryland law in connection with their management of us. At the same time, our Operating Partnership was formed in Delaware and we, as general partner, have duties under Delaware law to our Operating Partnership and the limited partners in connection with our management of our Operating Partnership. Our duties as general partner of our Operating Partnership may come into conflict with the duties of our directors and officers to us and our stockholders.

Under Delaware law, a general partner of a Delaware limited partnership owes its limited partners the duties of good faith and fair dealing. Other duties, including fiduciary duties, may be modified or eliminated in the partnership's partnership agreement. The partnership agreement of our Operating Partnership provides that, for so long as we own a controlling interest in our Operating Partnership, any conflict that cannot be resolved in a manner not adverse to either our stockholders or the limited partners will be resolved in favor of our stockholders. The provisions of Delaware law that allow the fiduciary duties of a general partner to be modified by a partnership agreement have not been tested in a court of law, and we have not obtained an opinion of counsel covering the provisions set forth in the partnership agreement that purport to waive or restrict our fiduciary duties.

In addition, the partnership agreement expressly limits our liability by providing that we and our officers, directors, agents and employees will not be liable or accountable to our Operating Partnership for losses sustained, liabilities incurred or benefits not derived if we or our officers, directors, agents or employees acted in good faith. Furthermore, our Operating Partnership is

required to indemnify us and our officers, directors, employees, agents and designees to the extent permitted by applicable law from, and against, any and all claims arising from operations of our Operating Partnership, unless it is established that: (i) the act or omission was committed in bad faith, was fraudulent or was the result of active and deliberate dishonesty; (ii) the indemnified party actually received an improper personal benefit in money, property or services; or (iii) in the case of a criminal proceeding, the indemnified person had reasonable cause to believe that the act or omission was unlawful. These limitations on liability do not supersede the indemnification provisions of our charter.

Maryland law could restrict a change in control, which could have the effect of inhibiting a change in control of us even if a change in control were in our stockholders' interest.

Provisions of Maryland law applicable to us prohibit business combinations with:

- any person who beneficially owns, directly or indirectly, 10% or more of the voting power of our outstanding voting stock, referred to as an interested stockholder;
- an affiliate or associate who, at any time within the two-year period prior to the date in question, was the beneficial owner of, directly or indirectly, 10% or more of the voting power of our then outstanding stock, also referred to as an interested stockholder; or
- an affiliate of an interested stockholder.

These prohibitions last for five years after the most recent date on which the interested stockholder became an interested stockholder. Thereafter, any business combination must be recommended by our board of directors and approved by the affirmative vote of at least 80% of the votes entitled to be cast by holders of our outstanding voting shares and two-thirds of the votes entitled to be cast by holders of our outstanding voting stock (other than voting stock held by the interested stockholder or by an affiliate or associate of the interested stockholder). These requirements could have the effect of inhibiting a change in control of us even if a change in control were in our stockholders' interest. These provisions of Maryland law do not apply, however, to business combinations that are approved or exempted by our board of directors prior to the time that someone becomes an interested stockholder. In addition, a person is not an interested stockholder if the board of directors approved in advance the transaction by which he or she otherwise would have become an interested stockholder. However, in approving a transaction, the board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

Our charter permits our board of directors to issue stock with terms that may subordinate the rights of the holders of our current common stock or discourage a third party from acquiring us.

Our board of directors may determine that it is in our best interest to classify or reclassify any unissued stock and establish the preferences, conversion or other rights, voting powers, restrictions, limitations as to distributions, qualifications, and terms or conditions of redemption of any such stock. Thus, our board of directors could authorize the issuance of such stock with terms and conditions that could subordinate the rights of the holders of our common stock or have the effect of delaying, deferring or preventing a change in control of us, including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price for holders of our common stock. However, the issuance of preferred stock must also be approved by a majority of independent directors not otherwise interested in the transaction, who will have access at our expense to our legal counsel or to independent legal counsel. In addition, the board of directors, with the approval of a majority of the entire board and without any action by the stockholders, may amend our charter from time to time to increase or decrease the aggregate number of shares or the number of shares of any class or series that we have authority to issue. If our board of directors determines to take any such action, it will do so in accordance with the duties it owes to holders of our common stock.

While we believe that we are properly organized as a REIT in accordance with applicable law, we cannot guarantee that the Internal Revenue Service will find that we have qualified as a REIT.

We believe that we are organized in conformity with the requirements for qualification as a REIT under the Internal Revenue Code beginning with our 2008 taxable year and that our current and anticipated investments and plan of operation will enable us to meet and continue to meet the requirements for qualification and taxation as a REIT. Investors should be aware, however, that the Internal Revenue Service or any court could take a position different from our own. Given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in our circumstances, no assurance can be given that we will qualify as a REIT for any particular year.

Furthermore, our qualification and taxation as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, stockholder ownership, and other requirements on a continuing basis. Our ability to satisfy the quarterly asset tests under applicable Internal Revenue Code provisions and Treasury Regulations will depend in part upon our board of directors' good faith analysis of the fair market values of our assets, some of which are not susceptible to a precise determination. Our compliance with the REIT income and quarterly asset requirements also depends upon our ability to successfully manage the composition of our income and assets on an ongoing basis. While we believe that we will satisfy these tests, we cannot guarantee that this will be the case on a continuing basis.

If we fail to remain qualified as a REIT, we would be subject to federal income tax at corporate income tax rates and would not be able to deduct distributions to stockholders when computing our taxable income.

If, in any taxable year, we fail to qualify for taxation as a REIT and are not entitled to relief under the Internal Revenue Code, we will:

- not be allowed a deduction for distributions to stockholders in computing our taxable income;
- be subject to federal and state income tax, including any applicable alternative minimum tax for taxable years ending prior to January 1, 2018, on our taxable income at regular corporate rates; and
- be barred from qualifying as a REIT for the four taxable years following the year when we were disqualified.

Any such corporate tax liability could be substantial and would reduce the amount of cash available for distributions to our stockholders, which in turn could have an adverse impact on the value of our common stock. This adverse impact could last for five or more years because, unless we are entitled to relief under certain statutory provisions, we will be taxed as a corporation beginning the year in which the failure occurs and for the following four years.

If we fail to qualify for taxation as a REIT, we may need to borrow funds or liquidate some investments to pay the additional tax liability. Were this to occur, funds available for investment would be reduced. REIT qualification involves the application of highly technical and complex provisions of the Internal Revenue Code to our operations, as well as various factual determinations concerning matters and circumstances not entirely within our control. There are limited judicial or administrative interpretations of these provisions. Although we plan to continue to operate in a manner consistent with the REIT qualification rules, we cannot assure you that we will qualify in a given year or remain so qualified.

If we fail to make required distributions, we may be subject to federal corporate income tax.

We intend to declare regular quarterly distributions, the amount of which will be determined, and is subject to adjustment, by our board of directors. To continue to qualify and be taxed as a REIT, we will generally be required to distribute at least 90% of our REIT taxable income (determined without regard to the dividends-paid deduction and excluding net capital gain) each year to our stockholders. Generally, we expect to distribute all, or substantially all, of our REIT taxable income. If our cash available for distribution falls short of our estimates, we may be unable to maintain the proposed quarterly distributions that approximate our taxable income and we may fail to qualify for taxation as a REIT. In addition, our cash flows from operations may be insufficient to fund required distributions as a result of differences in timing between the actual receipt of income and the recognition of income for federal income tax purposes or the effect of nondeductible expenditures (e.g., capital expenditures, payments of compensation for which Section 162(m) of the Internal Revenue Code denies a deduction, the creation of reserves, or required debt service or amortization payments). To the extent we satisfy the 90% distribution requirement, but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. We will also be subject to a 4.0% nondeductible excise tax if the actual amount that we pay out to our stockholders for a calendar year is less than a minimum amount specified under the Internal Revenue Code. In addition, in order to continue to qualify as a REIT, any C-corporation earnings and profits to which we succeed must be distributed as of the close of the taxable year in which we accumulate or acquire such C-corporation's earnings and profits.

Because certain covenants in our debt instruments may limit our ability to make required REIT distributions, we could be subject to taxation.

Our existing debt instruments include, and our future debt instruments may include, covenants that limit our ability to make required REIT distributions. If the limits set forth in these covenants prevent us from satisfying our REIT distribution requirements, we could fail to qualify for federal income tax purposes as a REIT. If the limits set forth in these covenants do not jeopardize our qualification for taxation as a REIT, but prevent us from distributing 100% of our REIT taxable income, we will be subject to federal corporate income tax, and potentially a nondeductible excise tax, on the retained amounts.

Because we will be required to satisfy numerous requirements imposed upon REITs, we may be required to borrow funds, sell assets, or raise equity on terms that are not favorable to us.

In order to meet the REIT distribution requirements and maintain our qualification and taxation as a REIT, we may need to borrow funds, sell assets, or raise equity, even if the then-prevailing market conditions are not favorable for such transactions. If our cash flows are not sufficient to cover our REIT distribution requirements, it could adversely impact our ability to raise short- and long-term debt, sell assets, or offer equity securities in order to fund the distributions required to maintain our qualification and taxation as a REIT. Furthermore, the REIT distribution requirements may increase the financing we need to fund capital expenditures, future growth, and expansion initiatives, which would increase our total leverage.

In addition, if we fail to comply with certain asset ownership tests at the end of any calendar quarter, we must generally correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification. As a result, we may be required to liquidate otherwise attractive investments. These actions may reduce our income and amounts available for distribution to our stockholders.

Because the REIT rules require us to satisfy certain rules on an ongoing basis, our flexibility or ability to pursue otherwise attractive opportunities may be limited.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders, and the ownership of our common stock. Compliance with these tests will require us to refrain from certain activities and may hinder our ability to make certain attractive investments, including the purchase of non-qualifying assets, the expansion of non-real estate activities, and investments in the businesses to be conducted by our TRSs, thereby limiting our opportunities and the flexibility to change our business strategy. Furthermore, acquisition opportunities in domestic and international markets may be adversely affected if we need or require target companies to comply with certain REIT requirements prior to closing on acquisitions.

To meet our annual distribution requirements, we may be required to distribute amounts that may otherwise be used for our operations, including amounts that may be invested in future acquisitions, capital expenditures, or debt repayment; and it is possible that we might be required to borrow funds, sell assets, or raise equity to fund these distributions, even if the then-prevailing market conditions are not favorable for such transactions.

Because the REIT provisions of the Internal Revenue Code limit our ability to hedge effectively, the cost of our hedging may increase, and we may incur tax liabilities.

The REIT provisions of the Internal Revenue Code limit our ability to hedge assets and liabilities that are not incurred to acquire or carry real estate. Generally, income from hedging transactions that have been properly identified for tax purposes (which we enter into to manage interest rate risk with respect to borrowings to acquire or carry real estate assets) do not constitute “gross income” for purposes of the REIT gross income tests (such a hedging transaction is referred to as a “qualifying hedge”). In addition, for taxable years beginning after December 31, 2015, if we enter into a qualifying hedge, but dispose of the underlying property (or a portion thereof) or the underlying debt (or a portion thereof) is extinguished, we can enter into a hedge of the original qualifying hedge, and income from the subsequent hedge will also not constitute “gross income” for purposes of the REIT gross income tests. To the extent that we enter into other types of hedging transactions, the income from those transactions is likely to be treated as non-qualifying income for purposes of the REIT gross income tests. As a result of these rules, we may need to limit our use of advantageous hedging techniques or implement those hedges through a TRS. This could increase the cost of our hedging activities because our TRSs could be subject to tax on income or gains resulting from such hedges or expose us to greater interest rate risks than we would otherwise want to bear. In addition, losses in any of our TRSs generally will not provide any tax benefit, except for being carried forward for use against future taxable income in the TRSs.

Because the REIT rules limit our ability to receive distributions from TRSs, our ability to fund distribution payments using cash generated through our TRSs may be limited.

Our ability to receive distributions from our TRSs is limited by the rules we must comply with in order to maintain our REIT status. In particular, at least 75% of our gross income for each taxable year as a REIT must be derived from real estate-related sources, which principally includes gross income from the leasing of our properties. Consequently, no more than 25% of our gross income may consist of dividend income from our TRSs and other non-qualifying income types. Thus, our ability to receive distributions from our TRSs is limited and may impact our ability to fund distributions to our stockholders using cash flows from our TRSs. Specifically, if our TRSs become highly profitable, we might be limited in our ability to receive net income from our TRSs in an amount required to fund distributions to our stockholders commensurate with that profitability.

We use TRSs, which may cause us to fail to qualify as a REIT.

To qualify as a REIT for federal income tax purposes, we hold our non-qualifying REIT assets and conduct our non-qualifying REIT income activities in or through one or more TRSs. The net income of our TRSs is not required to be distributed to us and income that is not distributed to us will generally not be subject to the REIT income distribution requirement. However, there may be limitations on our ability to accumulate earnings in our TRSs and the accumulation or reinvestment of significant earnings in our TRSs could result in adverse tax treatment. In particular, if the accumulation of cash in our TRSs causes the fair market value of our TRS interests and certain other non-qualifying assets to exceed 20% of the fair market value of our assets, we would lose tax efficiency and could potentially fail to qualify as a REIT (25% for tax years beginning after July 30, 2008 and before December 31, 2017).

Our ownership of TRSs will be subject to limitations that could prevent us from growing our portfolio and our transactions with our TRSs could cause us to be subject to a 100% penalty tax on certain income or deductions if those transactions are not conducted on an arm's-length basis.

Overall, no more than 20% of the value of a REIT's gross assets (25% for tax years beginning after July 30, 2008 and before December 31, 2017), may consist of interests in TRSs; compliance with this limitation could limit our ability to grow our portfolio. The Internal Revenue Code limits the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. The Internal Revenue Code also imposes a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm's-length basis. We will monitor the value of investments in our TRSs in order to ensure compliance with TRS ownership limitations and will structure our transactions with our TRSs on terms that we believe are arm's-length to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to comply with the TRS ownership limitation or be able to avoid application of the 100% excise tax.

Our board of directors, in its sole discretion, determines our dividend rate on a quarterly basis; therefore, our cash distributions are not guaranteed and may fluctuate.

Our board of directors, in its sole discretion, will determine on a quarterly basis the amount of cash to be distributed to our stockholders based on a number of factors, including, but not limited to, our results of operations, cash flow and capital requirements, economic conditions, tax considerations, borrowing capacity, applicable provisions of the Maryland General Corporation Law, and other factors (including debt covenant restrictions that may impose limitations on cash payments and future acquisitions and divestitures). Consequently, our distribution levels are not guaranteed and may fluctuate.

Dividends payable by REITs do not qualify for the reduced tax rates on dividend income from C corporations, which could adversely affect the value of our common stock.

The maximum U.S. federal income tax rate for certain qualified dividends payable by C corporations to U.S. stockholders that are individuals, trusts and estates is 20%. Dividends payable by REITs, however, are generally not eligible for the reduced qualified dividend rate. However, for taxable years beginning after December 31, 2017 and before January 1, 2026, under the recently enacted Tax Cuts and Jobs Act, noncorporate taxpayers may deduct up to 20% of certain qualified business income, including "qualified REIT dividends" (generally, dividends received by a REIT shareholder that are not designated as capital gain dividends or qualified dividend income), subject to certain limitations, resulting in an effective maximum U.S. federal income tax rate of 29.6% on such income. Although the reduced U.S. federal income tax rate applicable to qualified dividends from C corporations does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable rates applicable to regular corporate dividends, together with the recently reduced corporate tax rate (21%), could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the shares of REITs, including our common stock.

Even if we continue to qualify as a REIT, certain of our business activities will be subject to corporate level income tax, which will continue to reduce our cash flows, and we will have potential deferred and contingent tax liabilities.

Even if we qualify for taxation as a REIT, we may be subject to certain (i) federal, state and local taxes on our income and assets, including alternative minimum taxes (for taxable years ending prior to January 1, 2018), (ii) taxes on any undistributed income and state or local income, and (iii) franchise, property, and transfer taxes. In addition, we could be required to pay an excise or penalty tax under certain circumstances in order to utilize one or more relief provisions under the Internal Revenue Code to maintain qualification for taxation as a REIT, which could be significant in amount.

Any TRS assets and operations would continue to be subject, as applicable, to federal and state corporate income taxes and to foreign taxes in the jurisdictions in which those assets and operations are located. Any of these taxes would decrease our earnings and our cash available for distributions to stockholders.

We will also be subject to a federal corporate level tax at the highest regular corporate rate (currently 21%) on all or a portion of the gain recognized from a sale of assets formerly held by any C corporation that we acquire on a carry-over basis transaction occurring within a five-year period after we acquire such assets, to the extent the built-in gain based on the fair market value of those assets on the effective date of the REIT election is in excess of our then tax basis. The tax on subsequently sold assets will be based on the fair market value and built-in gain of those assets as of the beginning of our holding period. Gains from the sale of an asset occurring after the specified period will not be subject to this corporate level tax. We expect to have only a de minimis amount of assets subject to these corporate tax rules and do not expect to dispose of any significant assets subject to these corporate tax rules.

Because dividends received by foreign stockholders are generally taxable, we may be required to withhold a portion of our distributions to such persons.

Ordinary dividends received by foreign stockholders that are not effectively connected with the conduct of a U.S. trade or business are generally subject to U.S. withholding tax at a rate of 30%, unless reduced by an applicable income tax treaty. Additional rules with respect to certain capital gain distributions will apply to foreign stockholders that own more than 10% of our common stock.

The ability of our board of directors to revoke our REIT qualification, without stockholder approval, may cause adverse consequences for our stockholders.

Our charter provides that the board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if it determines that it is no longer in our best interest to continue to qualify as a REIT. If we cease to be a REIT, we will not be allowed a deduction for dividends paid to stockholders in computing our taxable income and we will be subject to federal income tax at regular corporate rates and state and local taxes, which may have adverse consequences on the total return to our stockholders.

Federal and state income tax laws governing REITs and related interpretations may change at any time, and any such legislative or other actions affecting REITs could have a negative effect on us and our stockholders.

Federal and state income tax laws governing REITs or the administrative interpretations of those laws may be amended at any time. Federal, state, and foreign tax laws are under constant review by persons involved in the legislative process, at the Internal Revenue Service and the U.S. Department of the Treasury, and at various state and foreign tax authorities. Changes to tax laws, regulations, or administrative interpretations, which may be applied retroactively, could adversely affect us or our stockholders. We cannot predict whether, when, in what forms, or with what effective dates, the tax laws, regulations, and administrative interpretations applicable to us or our stockholders may be changed. Accordingly, we cannot assure you that any such change will not significantly affect our ability to qualify for taxation as a REIT and/or the attendant tax consequences to us or our stockholders.

Recent changes to U.S. tax laws could have a negative impact on our business.

On December 22, 2017, the President signed a tax reform bill into law, referred to herein as the “Tax Cuts and Jobs Act,” which among other things:

- reduces the corporate income tax rate from 35% to 21% (including with respect to our TRSs);
- reduces the rate of U.S. federal withholding tax on distributions made to non-U.S. shareholders by a REIT that are attributable to gains from the sale or exchange of U.S. real property interests from 35% to 21%;
- allows for an immediate 100% deduction of the cost of certain capital asset investments (generally excluding real estate assets), subject to a phase-down of the deduction percentage over time;
- changes the recovery periods for certain real property and building improvements (e.g. to 15 years for qualified improvement property under the modified accelerated cost recovery system, to 30 years (previously 40 years) for residential real property, and 20 years (previously 40 years) for qualified improvement property under the alternative depreciation system);
- restricts the deductibility of interest expense by businesses (generally, to 30% of the business’s adjusted taxable income) except, among others, real property businesses electing out of such restriction; generally, we expect our business to qualify as such a real property business, but businesses conducted by our TRSs may not qualify, and we have not yet determined whether our subsidiaries can and/or will make such an election;
- requires the use of the less favorable alternative depreciation system to depreciate real property in the event a real property business elects to avoid the interest deduction restriction above;
- restricts the benefits of like-kind exchanges that defer capital gains for tax purposes to exchanges of real property;
- permanently repeals the “technical termination” rule for partnerships, meaning sales or exchanges of the interests in a partnership will be less likely to, among other things, terminate the taxable year of, and restart the depreciable lives of assets held by, such partnership for tax purposes;
- requires accrual method taxpayers to take certain amounts in income no later than the taxable year in which such income is taken into account as revenue in an applicable financial statement prepared under GAAP, which, with respect to certain leases, could accelerate the inclusion of rental income;
- eliminates the federal corporate alternative minimum tax;
- reduces the highest marginal income tax rate for individuals to 37% from 39.6% (excluding, in each case, the 3.8% Medicare tax on net investment income);
- generally allows a deduction for individuals equal to 20% of certain income from pass-through entities, including ordinary dividends distributed by a REIT (excluding capital gain dividends and qualified dividend income), generally resulting in a maximum effective federal income tax rate applicable to such dividends of 29.6% compared to 37% (excluding, in each case, the 3.8% Medicare tax on net investment income); and
- limits certain deductions for individuals, including deductions for state and local income taxes, and eliminates deductions for miscellaneous itemized deductions (including certain investment expenses).

As a REIT, we are required to distribute at least 90% of our taxable income to our shareholders annually. As a result of the changes to U.S. federal tax laws implemented by the Tax Cuts and Jobs Act, our taxable income and the amount of distributions to our stockholders required to maintain our REIT status, as well as our relative tax advantage as a REIT, could change.

The Tax Cuts and Jobs Act is a complex revision to the U.S. federal income tax laws with impacts on different categories of taxpayers and industries, which will require subsequent rulemaking and interpretation in a number of areas. In addition, many provisions in the Tax Cuts and Jobs Act, particularly those affecting individual taxpayers, expire at the end of 2025. The long-term impact of the Tax Cuts and Jobs Act on the overall economy, government revenues, us, and the real estate industry cannot

be reliably predicted at this time. There can be no assurance that the Tax Cuts and Jobs Act will not negatively impact our operating results, financial condition, and future business operations.

(a) On February 5, 2018, we sold our ownership interest in the hotel to an unaffiliated third party (Note 15).

(b) These hotels are subject to long-term ground leases (Note 10).

(c) As a result of damage sustained from Hurricane Irma, as of December 31, 2017 this hotel was closed but is expected to fully reopen by midyear 2018.

(d) Includes 246 privately owned villas that participate in the villa/condo rental program at December 31, 2017.

(e) On January 25, 2018, we sold our ownership interest in the hotel to an unaffiliated third party (Note 15).

- (f) CWI 2 owns an interest of approximately 19% in this venture. Also, the number of rooms presented includes 156 condo-hotel units that participate in the villa/condo rental program at December 31, 2017.
- (g) Includes 31 condo-hotel units that participate in the villa/condo rental program at December 31, 2017.
- (h) During the third quarter of 2017, we completed renovations on the single-family residence adjacent to the hotel that we acquired in August 2016 and created four additional available rooms at the resort.
- (i) On October 3, 2014, we acquired the Marriott Sawgrass Golf Resort & Spa as a Consolidated Hotel. On April 1, 2015, we sold a 50% controlling interest to CWI 2 and began accounting for our interest in the hotel as an equity method investment.
- (j) This investment represents a tenancy-in-common interest; the remaining 60% interest is owned by CWI 2.

Our Hotel Management and Franchise Agreements

Hotel Management Agreements

All of our hotels are managed by independent hotel operators pursuant to management or operating agreements, with some also subject to separate license agreements addressing matters pertaining to operation under the designated brand. As of December 31, 2017, we had management or operating agreements with 12 different management companies related to our Consolidated Hotels. Under these agreements, the managers generally have sole responsibility and exclusive authority for all activities necessary for the day-to-day operation of the hotels, including establishing room rates; securing and processing reservations; procuring inventories, supplies and services; providing periodic inspection and consultation visits to the hotels by the managers' technical and operational experts; and promoting and publicizing the hotels. The managers provide all managerial and other employees for the hotels, review the operation and maintenance of the hotels; prepare reports, budgets and projections; and provide other administrative and accounting support services to the hotels. These support services include planning and policy services, divisional financial services, product planning and development, employee staffing and training, corporate executive management and certain in-house legal services. We have certain approval rights over budgets, capital expenditures, significant leases and contractual commitments, and various other matters.

The initial terms of our management and operating agreements, including those that have been assumed at the time of the hotel acquisition, typically range from five to 30 years, with one or more renewal terms at the option of the manager. The management agreements condition the manager's right to exercise options for specified renewal terms upon the satisfaction of specified economic performance criteria, or allow us to terminate at will with 30 to 60 days' notice. For hotels operated with separate franchise agreements, the manager typically receives compensation in the form of a base management fee, which is calculated as a percentage (generally ranging from 1.0% to 3.5%) of annual gross revenues, and an incentive management fee, which is typically calculated as a percentage of operating profit, either (i) in excess of projections with a cap, or (ii) after the owner has received a priority return on its investment in the hotel.

The management agreements relating to four of our Consolidated Hotels contain the right and license to operate the hotels under specified brands; no separate franchise agreements exist and no separate franchise fee is required for these hotels. These management agreements incur a base management fee equal to 3.0% of hotel revenues. Three of these hotels are managed by subsidiaries of Marriott, under the Ritz-Carlton and Renaissance brands, and one is managed by Fairmont, under the Fairmont brand.

Franchise Agreements

Twenty of our Consolidated Hotels operate under franchise or license agreements with national brands that are separate from our management agreements. As of December 31, 2017, we have 12 franchise agreements with Marriott owned brands, five with Hilton owned brands, two with InterContinental Hotels owned brands and one with a Hyatt owned brand.

Our franchise agreements grant us the right to the use of the brand name, systems and marks with respect to specified hotels and establish various management, operational, record-keeping, accounting, reporting and marketing standards and procedures that the licensed hotel must comply with. In addition, the franchisor establishes requirements for the quality and condition of the hotel and its furniture, fixtures and equipment and we are obligated to expend such funds as may be required to maintain the hotel in compliance with those requirements. Typically, our franchise agreements provide for a license fee, or royalty, of 3.0% to 7.0% of room revenues and, if applicable, 2.0% to 3.0% of food and beverage revenue. In addition, we generally pay 1.0% to 4.0% of room revenues as marketing and reservation system contributions for the system-wide benefit of brand hotels.

Our typical franchise agreement provides for a term of 15 to 25 years. The agreements provide no renewal or extension rights and are not assignable. If we breach one of these agreements, in addition to losing the right to use the brand name for the applicable hotel, we may be liable, under certain circumstances, for liquidated damages equal to the fees paid to the franchisor with respect to that hotel during the three immediately preceding years.

Item 3. Legal Proceedings.

At December 31, 2017, we were not involved in any material litigation.

Various claims and lawsuits arising in the normal course of business are pending against us. The results of these proceedings are not expected to have a material adverse effect on our consolidated financial position or results of operations.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Unlisted Shares and Distributions

There is no active public trading market for our shares. At March 9, 2018, there were 32,467 holders of record of our shares of common stock.

We are required to distribute annually at least 90% of our distributable REIT net taxable income to maintain our status as a REIT. Quarterly distributions declared by us for the past two years are as follows (amount per share):

	Years Ended December 31,	
	2017	2016
First quarter	\$ 0.1425	\$ 0.1425
Second quarter	0.1425	0.1425
Third quarter	0.1425	0.1425
Fourth quarter	0.1425	0.1425
	<u>\$ 0.5700</u>	<u>\$ 0.5700</u>

Unregistered Sales of Equity Securities

During the three months ended December 31, 2017, we issued 340,889 shares to our Advisor as consideration for asset management fees. These shares were issued at our most recently published NAV of \$10.80 per share. Since none of these transactions were considered to have involved a “public offering” within the meaning of Section 4(a)(2) of the Securities Act of 1933, as amended, the shares issued were deemed to be exempt from registration. In acquiring our shares, our Advisor represented that such interests were being acquired by it for investment purposes and not with a view to the distribution thereof.

All prior sales of unregistered securities have been reported in our previously filed quarterly reports on Form 10-Q and annual reports on Form 10-K.

Issuer Purchases of Equity Securities

The following table provides information with respect to repurchases of our common stock during the three months ended December 31, 2017:

2017 Period	Total number of shares purchased ^(a)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares that may yet be purchased under the plans or programs
October	10,753	\$ 10.26	N/A	N/A
November	—	—	N/A	N/A
December	568,279	10.26	N/A	N/A
Total	<u>579,032</u>			

- (a) Represents shares of our common stock repurchased under our redemption plan, pursuant to which we may elect to redeem shares at the request of our stockholders, subject to certain exceptions, conditions and limitations. The maximum amount of shares purchasable by us in any period depends on a number of factors and is at the discretion of our board of directors. We generally receive fees in connection with share redemptions. The average price paid per share will vary depending on the number of redemption requests that were made during the period, the number of redemption requests that qualify for special circumstances and the most recently published NAV.

Securities Authorized for Issuance Under Equity Compensation Plans

This information will be contained in our definitive proxy statement for the 2018 Annual Meeting of Stockholders, to be filed within 120 days following the end of our fiscal year, and is incorporated herein by reference.

Item 6. Selected Financial Data.

The following selected financial data should be read in conjunction with the consolidated financial statements and related notes in [Item 8](#) (in thousands, except per share amounts and statistical data):

RevPAR	167.71	163.67	156.24	146.53	120.44

(a) For the first, second and third quarters of 2013, \$0.025 of each distribution was payable in shares of our common stock.

(b) Net investments in real estate consist of Net investments in hotels, Assets held for sale and Equity investments in real estate.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to provide the reader with information that will assist in understanding our financial statements and the reasons for changes in certain key components of our financial statements from period to period. Management's Discussion and Analysis of Financial Condition and Results of Operations also provides the reader with our perspective on our financial position and liquidity, as well as certain other factors that may affect our future results.

The following discussion should be read in conjunction with our consolidated financial statements included in Item 8 of this Report and the matters described under [Item 1A. Risk Factors](#).

Business Overview

We are a publicly owned, non-listed REIT that invests in, and through our Advisor, manages and seeks to enhance the value of, interests in lodging and lodging-related properties. As a REIT, we are not subject to U.S. federal income taxation as long as we satisfy certain requirements, principally relating to the nature of our income, the level of our distributions to our stockholders and other factors. We conduct substantially all of our investment activities and own all of our assets through the Operating Partnership. We are a general partner and a limited partner of, and own a 99.985% capital interest in, the Operating Partnership. Carey Watermark Holdings, which is owned indirectly by WPC and Watermark Capital Partners, holds a special general partner interest of 0.015% in the Operating Partnership.

We raised a total of \$1.2 billion through our initial public offering and follow-on offering, exclusive of DRIP. We have invested our offering proceeds in a diversified lodging portfolio, including full-service, select-service and resort hotels. Our results of operations are significantly impacted by seasonality, acquisition-related expenses and by hotel renovations. We have invested in hotels and then initiated significant renovations at certain hotels. Generally, during the renovation period, a portion of total rooms are unavailable and hotel operations are often disrupted, negatively impacting our results of operations.

Significant Developments

Management Changes

Mr. Mark J. DeCesaris retired from his positions as chairman and a director of our board in connection with his retirement as chief executive officer and a director of WPC, all effective as of December 31, 2017. On December 14, 2017, our board of directors elected Mr. Jason E. Fox, the incoming chief executive officer of WPC, to fill the vacancy on the board and assume the position of chairman, both effective as of January 1, 2018. Mr. Fox has served as president of WPC since 2015 and previously served in various capacities in WPC's Investment Department, including as its Head of Global Investments, since joining WPC in 2002.

Acquisition

On September 28, 2017, we formed a tenancy-in-common venture with CWI 2 to acquire the Bacara Resort & Spa for \$380.0 million. We own a 40% interest in the venture and CWI 2 owns a 60% interest. Upon acquisition, the hotel was rebranded as the Ritz-Carlton Bacara, Santa Barbara. This investment is accounted for under the equity method of accounting ([Note 5](#)).

Dispositions

2017 Dispositions

On February 1, 2017, we sold our 100% ownership interests in each of the Hampton Inn Frisco Legacy Park, the Hampton Inn Birmingham Colonnade and the Hilton Garden Inn Baton Rouge Airport to an unaffiliated third party for a contractual sales price of \$33.0 million and net proceeds of approximately \$7.4 million. We recognized a loss on sale of \$0.4 million during the first quarter of 2017 ([Note 4](#)).

On May 11, 2017, we sold our 100% ownership interest in the Hampton Inn Boston Braintree to an unaffiliated third party for a contractual sales price of \$19.0 million and net proceeds of approximately \$6.6 million. We recognized a gain on sale of \$5.5 million during the second quarter of 2017 ([Note 4](#)).

On October 19, 2017, the Westin Atlanta Venture sold the Westin Atlanta Perimeter North to an unaffiliated third-party for a contractual sales price of \$85.5 million. We owned a 57% interest in the venture and received net proceeds of approximately \$25.9 million from the sale. We recognized a gain on sale of \$21.6 million during the fourth quarter of 2017 which is included in Equity in earnings of equity method investments in real estate ([Note 5](#)).

2018 Dispositions

On January 25, 2018, we sold our 100% ownership interest in the Marriott Boca Raton at Boca Center to an unaffiliated third-party for a contractual sales price of \$76.0 million and net proceeds of approximately \$35.4 million ([Note 15](#)).

On February 5, 2018, we sold our 100% ownership interests in the Hampton Inn Memphis Beale Street and Hampton Inn Atlanta Downtown to an unaffiliated third-party for a contractual sales price of \$63.0 million and net proceeds of approximately \$31.8 million ([Note 15](#)).

WPC Credit Facility

During the third quarter of 2017, our board of directors and the board of directors of WPC approved secured loans from WPC to us of up to \$100.0 million for acquisition funding purposes and \$25.0 million for working capital purposes. On September 26, 2017, we entered into a secured credit facility, or the WPC Credit Facility, with our Operating Partnership as borrower and WPC as lender. The WPC Credit Facility consists of (i) a bridge term loan of \$75.0 million, or the Bridge Loan, for the purpose of acquiring an interest in the Ritz-Carlton Bacara, Santa Barbara ([Note 5](#)) and (ii) a \$25.0 million revolving working capital facility, or the Working Capital Facility, to be used for our working capital needs. The Working Capital Facility replaced the WPC Line of Credit, which had an outstanding principal balance of \$22.8 million on that date and a maturity date of March 22, 2018. Unless the Advisory Agreement expires or is terminated, the Bridge Loan and Working Capital Facility are scheduled to mature on June 30, 2018 and December 31, 2018, respectively. We can request a three month extension of the Bridge Loan, which WPC may grant in its sole discretion. Both loans bear interest at the London Interbank Offered Rate, or LIBOR, plus 1.0%; provided however, that upon the occurrence of certain events of default (as defined in the loan agreement), all outstanding amounts will be subject to a 2% annual interest rate increase. We serve as guarantor of the WPC Credit Facility and have pledged our unencumbered equity interests in certain properties as collateral, as further described in the pledge and security agreement entered into between the borrower and lender. On September 27, 2017, the Operating Partnership drew down \$75.0 million from the Bridge Loan to acquire our interest in the Ritz-Carlton Bacara, Santa Barbara. During the fourth quarter of 2017, we repaid a total of \$14.2 million towards the Bridge Loan and \$15.0 million towards the Working Capital Facility.

At December 31, 2017, the outstanding balances under the Bridge Loan and Working Capital Facility were \$60.8 million and \$7.8 million, respectively, with \$17.2 million available to be drawn on the Working Capital Facility ([Note 3](#)). On January 16, 2018, we borrowed \$10.0 million from WPC under the Working Capital Facility ([Note 15](#)) and on February 15, 2018, we repaid \$20.0 million towards the Bridge Loan and \$17.0 million towards the Working Capital Facility ([Note 15](#)).

Financings

During the year ended December 31, 2017, we refinanced three non-recourse mortgage loans totaling \$95.6 million with new non-recourse mortgage loans totaling \$109.5 million, which have a weighted-average interest rate of 5.0% and a term to maturity of 4.5 years. We recognized a net loss on extinguishment of debt of \$0.1 million on these refinancings ([Note 9](#)).

Weather-Related Disruption

Consolidated Hotels

At December 31, 2017, we held ownership interests in five Consolidated Hotels in Florida and Georgia that were impacted by Hurricane Irma when it made landfall in September 2017: Hawks Cay Resort, Marriott Boca Raton at Boca Center, Ritz-Carlton Key Biscayne, Ritz-Carlton Fort Lauderdale and Staybridge Suites Savannah Historic District. All five hotels sustained some damage and all except for Marriott Boca Raton at Boca Center, which was sold during the first quarter of 2018 (Note 15), were forced to close for a period of time. As of December 31, 2017, all hotels had reopened, with the exception of the Hawks Cay Resort, which is expected to fully reopen by midyear 2018. Additionally, in October 2017, as a result of evacuations caused by wildfires in the Northern California region, the Fairmont Sonoma Inn & Spa was closed for six days, resulting in lost revenue. During the year ended December 31, 2017, we recognized a loss of \$7.0 million from our Consolidated Hotels as a result of hurricane-related damage and disruptions, which is presented below, representing, in the aggregate, the property damage insurance deductible on certain hotels and our best estimate of uninsured losses for the remaining hotels that have not yet reached their property damage insurance deductible as of December 31, 2017. There can be no assurance that we will not recognize additional hurricane-related losses in the future, some of which may be material. We will continue to monitor the effects of the hurricane on our hotels.

(in thousands)

	Year Ended
	December 31, 2017
Write-off of Fixed assets	\$ 25,346
Write-off of Inventory	445
Remediation work performed	14,286
Property damage insurance advances received	(18,302)
Property damage insurance receivables	(14,767)
	<u>\$ 7,008</u>

We have retained consultants to assess our business interruption claims and are currently reviewing our losses with our insurance carrier. We have not recorded revenue for covered business interruption during the year ended December 31, 2017. As of December 31, 2017, we have received business interruption insurance proceeds of \$9.0 million and have recorded a corresponding payable within Accounts payable, accrued expenses and other liabilities in our consolidated financial statements as of December 31, 2017 as the claims have not yet been settled. We will record revenue for covered business interruption when both the recovery is probable and the claim is settled.

Unconsolidated Hotel

The Sawgrass Golf Resort & Spa Venture, in which we own a 50% interest, recognized a \$2.7 million hurricane loss during the year ended December 31, 2017, representing, in the aggregate, the property damage insurance deductible on two areas of the resort and our best estimate of uninsured losses for one area of the resort that has not yet reached its property damage insurance deductible.

Tax Cuts and Jobs Act

On December 22, 2017, the Tax Cuts and Jobs Act was signed into law by President Trump. The new tax legislation, which is expected to have a favorable impact on our operating results, cash flows, and financial condition, contains several key tax provisions, including the reduction of the U.S. corporate income tax rate from 35% to 21% effective January 1, 2018. Other key provisions that have implications to the real estate industry include the limitation of the tax deductibility of interest expense, acceleration of expensing of certain business assets, deductions for pass-through business income, and limitations on loss carryforwards.

As a result of the Tax Cuts and Jobs Act, for periods beginning on January 1, 2018:

- Tax rates are permanently reduced on businesses conducted by taxable corporations. The Tax Cuts and Jobs Act is expected to have a favorable impact on the effective tax rate and net income as reported under GAAP for our TRSs.

- New limitations on interest deductions are imposed with an exemption for electing real estate businesses. Generally, we expect our business to qualify as such a real property business, but businesses conducted by our TRSs may not qualify, and we have not yet determined whether our subsidiaries can and/or will make such an election.
- Depreciation expensing rules provide taxpayers with 100% expensing deductions for qualifying new or used property acquired and placed in service between September 28, 2017 and December 31, 2022, with annual 20% step-downs generally from 2023-2026; however, this may have an impact on us due to the interest limitation exception election.
- Our non-corporate shareholders may be entitled to deduct 20% of qualified REIT ordinary dividends without regard to wage limitations, asset-based limitations, qualified trade or business limitations, or qualified business income limitations.
- Net operating loss, or NOL, carryforwards arising in tax years beginning after 2017 now may reduce only 80% of taxable income of any year, and NOL carryforwards can be carried forward indefinitely, but can no longer be carried back to prior years; however, the Tax Cuts and Jobs Act does not restrict the usage of our existing NOLs, which arose through 2017.

Senior Credit Facility

At December 31, 2016, we had a senior credit facility that provided for a \$25.0 million senior unsecured revolving credit facility, or our Senior Credit Facility. The Senior Credit Facility bore interest at LIBOR plus 2.75%, was scheduled to mature on December 4, 2017 and had an outstanding balance of \$22.8 million at December 31, 2016. On March 23, 2017, we repaid the \$22.8 million outstanding balance using proceeds from the WPC Line of Credit ([Note 3](#), [Note 9](#)) and simultaneously terminated our Senior Credit Facility. We recognized a loss on extinguishment of debt of \$0.1 million during the first quarter of 2017 on this termination.

Financial and Operating Highlights

(Dollars in thousands, except ADR and RevPAR)

	Years Ended December 31,		
	2017	2016	2015

RevPAR	167.71	163.67	156.24

(a) We consider the performance metrics listed above, including FFO and MFFO, which are supplemental measures that are not defined by GAAP, or non-GAAP measures, to be important measures in the evaluation of our results of operations and capital resources. We evaluate our results of operations with a primary focus on the ability to generate cash flow necessary to meet our objective of funding distributions to stockholders. See [Supplemental Financial Measures](#) below for our definitions of these non-GAAP measures and reconciliations to their most directly comparable GAAP measures.

The comparison of our results period over period is influenced by both the number and size of the hotels consolidated in each of the respective periods. At December 31, 2017, we owned 27 Consolidated Hotels, compared to 31 Consolidated Hotels at December 31, 2016 and 30 Consolidated Hotels at December 31, 2015.

Portfolio Overview

The following table sets forth certain information for each of our Consolidated Hotels and our Unconsolidated Hotels at December 31, 2017:

Hotels	State	Number of Rooms	% Owned	Acquisition Date	Hotel Type	Renovation Status at December 31, 2017 ^(a)
Consolidated Hotels						
<u>2012 Acquisitions</u>						
Hilton Garden Inn New Orleans French Quarter/CBD	LA	155	88%	6/8/2012	Select-service	Completed

(a) Status excludes any renovation work to be undertaken as a result of Hurricane Irma.

(b) On February 5, 2018, we sold our ownership interest in the hotel to an unaffiliated third party (Note 15).

(c) As a result of damage sustained from Hurricane Irma, this hotel is currently closed and is expected to fully reopen by midyear 2018.

(d) Includes 246 privately owned villas that participate in the villa/condo rental program at December 31, 2017.

(e) On January 25, 2018, we sold our ownership interest in the hotel to an unaffiliated third party (Note 15).

(f) CWI 2 owns an interest of approximately 19% in this venture. Also, the number of rooms presented includes 156 condo-hotel units that participate in the villa/condo rental program at December 31, 2017.

(g) Includes 31 condo-hotel units that participate in the villa/condo rental program at December 31, 2017.

- (h) During the third quarter of 2017, we completed renovations on the single-family residence adjacent to the hotel that we acquired in August 2016 and created four additional available rooms at the resort.
- (i) On October 3, 2014, we acquired the Marriott Sawgrass Golf Resort & Spa as a Consolidated Hotel. On April 1, 2015, we sold a 50% controlling interest to CWI 2 and began accounting for our interest in the hotel as an equity method investment.
- (j) This investment represents a tenancy-in-common interest; the remaining 60% interest is owned by CWI 2.

Results of Operations

We evaluate our results of operations with a primary focus on our ability to generate cash flow necessary to meet our objectives of funding distributions to stockholders and increasing the value of our real estate investments. As a result, our assessment of operating results gives less emphasis to the effect of unrealized gains and losses, which may cause fluctuations in net income for comparable periods but have no impact on cash flows, and to other non-cash charges, such as depreciation and impairment charges.

In addition, we use other information that may not be financial in nature, including statistical information to evaluate the operating performance of our business, including occupancy rate, ADR and RevPAR. Occupancy rate, ADR and RevPAR are commonly used measures within the hotel industry to evaluate operating performance. RevPAR, which is calculated as the product of ADR and occupancy rate, is an important statistic for monitoring operating performance at our hotels. Our occupancy rate, ADR and RevPAR performance may be impacted by macroeconomic factors such as U.S. economic conditions, regional and local employment growth, personal income and corporate earnings, business relocation decisions, business and leisure travel, new hotel construction and the pricing strategies of competitors.

The comparability of our results year over year are impacted by, among other factors, the timing of acquisition and/or disposition activity and the timing of any renovation-related activity.

The following table presents our comparative results of operations (in thousands):

	Years Ended December 31,					
	2017	2016	Change	2016	2015	Change
Hotel Revenues	\$ 629,132	\$ 651,095	\$ (21,963)	\$ 651,095	\$ 542,103	\$ 108,992

Loss (income) attributable to noncontrolling interests	1,177	(1,777)	2,954	(1,777)	4,915	(6,692)
Net Income (Loss) Attributable to CWI Stockholders	\$ 4,928	\$ (8,753)	\$ 13,681	\$ (8,753)	\$ (25,725)	\$ 16,972
Supplemental financial measure:^(a)						
MFFO Attributable to CWI Stockholders	\$ 68,717	\$ 83,400	\$ (14,683)	\$ 83,400	\$ 67,082	\$ 16,318

(a) We consider MFFO, a non-GAAP measure, to be an important metric in the evaluation of our results of operations and capital resources. We evaluate our results of operations with a primary focus on the ability to generate cash flow necessary to meet our objective of funding distributions to stockholders. See [Supplemental Financial Measures](#) below for our definition of non-GAAP measures and reconciliations to their most directly comparable GAAP measures.

Our Same Store Hotels are comprised of our 2012 Acquisitions, 2013 Acquisitions and 2014 Acquisitions, excluding the results of hotels sold or classified as held for sale at December 31, 2017 (Note 4), as well as the results for the Hawks Cay Resort, which was closed during a portion of 2017 due to damage from Hurricane Irma. Our Recently Acquired Hotels are comprised of our 2015 Acquisitions and 2016 Acquisitions.

The following table sets forth the average occupancy rate, ADR and RevPAR of our Consolidated Hotels for the years ended December 31, 2017, 2016 and 2015 for our Same Store Hotels.

Same Store Hotels	Years Ended December 31,		
	2017	2016	2015
Occupancy Rate	77.1%	76.3%	76.5%
ADR	\$ 199.16	\$ 201.99	\$ 202.04
RevPAR	153.61	154.03	154.49

Hotel Revenues

2017 vs. 2016 — For the year ended December 31, 2017 as compared to 2016, hotel revenues decreased by \$22.0 million, primarily the result of a decrease in revenue from properties sold during the first and second quarters of 2017 totaling \$14.8 million and a decrease in revenue from the Hawks Cay Resort of \$11.6 million due to its closure, partially offset by increases in revenue from our Recently Acquired Hotels and our Same Store Hotels totaling \$2.6 million and \$1.6 million, respectively.

2016 vs. 2015 — For the year ended December 31, 2016 as compared to 2015, hotel revenues increased by \$109.0 million, primarily the result of an increase in revenue from our Recently Acquired Hotels and Same Store Hotels of \$111.3 million and \$9.4 million, respectively, partially offset by a decrease in revenue of \$13.3 million as a result of the sale of our 50% controlling interest of the Marriott Sawgrass Golf Resort and Spa to CWI 2 on April 1, 2015.

The increase in revenue attributable to our Recently Acquired Hotels for the year ended December 31, 2016 as compared to 2015 was primarily comprised of additional revenue of \$92.7 million contributed by our 2015 Acquisitions during 2016, largely representing the impact of a full period of revenue during 2016 as compared to a partial period in 2015. The increase in revenue attributable to our Same Store Hotels was primarily the result of additional revenue contributed by the Renaissance Chicago Downtown as a result of the completion of renovations that were in progress during 2015.

Hotel Expenses

2017 vs. 2016 — For the year ended December 31, 2017 as compared to 2016, aggregate hotel operating expenses decreased by \$4.9 million, primarily the result of a decrease in expenses from properties sold during the first and second quarters of 2017 totaling \$11.6 million and a decrease in expenses from the Hawks Cay Resort of \$6.0 million due to its closure, partially offset by increases in expenses from our Same Store Hotels and our Recently Acquired Hotels totaling \$8.1 million and \$4.5 million, respectively.

2016 vs. 2015 — For the year ended December 31, 2016 as compared to 2015, hotel expenses increased by \$89.7 million, primarily the result of an increase in expenses from our Recently Acquired Hotels and Same Store Hotels of \$93.4 million and \$5.9 million, respectively, partially offset by a decrease in expenses of \$10.7 million as a result of the sale of our 50% controlling interest of the Marriott Sawgrass Golf Resort and Spa.

The increase in expenses attributable to our Recently Acquired Hotels for the year ended December 31, 2016 as compared to 2015 was primarily comprised of additional expenses of \$77.8 million contributed by our 2015 Acquisitions during 2016, primarily representing the impact of a full period of expenses during 2016 as compared to a partial period in 2015. The increase in expenses attributable to our Same Store Hotels was primarily the result of additional expenses contributed by the Renaissance Chicago Downtown as a result of the completion of renovations that were in progress during 2015.

Asset Management Fees to Affiliate and Other Expenses

Asset management fees to affiliate and other expenses primarily represent fees paid to our Advisor. We pay our Advisor an annual asset management fee equal to 0.50% of the aggregate Average Market Value of our Investments, as defined in the Advisory Agreement with our Advisor ([Note 3](#)). Our Advisor elected to receive its asset management fees in shares of our common stock for the year ended December 31, 2017 and in cash for the years ended December 31, 2016 and 2015.

2016 vs. 2015 — For the year ended December 31, 2016 as compared to 2015, asset management fees to affiliate and other expenses increased by \$2.9 million, reflecting the impact of our 2015 Acquisitions and 2016 Acquisition, which increased the asset base from which our Advisor earns a fee.

Corporate General and Administrative Expenses

2017 vs. 2016 — For the year ended December 31, 2017 as compared to 2016, corporate general and administrative expenses decreased by \$0.8 million, primarily as a result of a decrease in personnel and overhead reimbursement costs of \$0.7 million. The decrease in personnel and overhead reimbursement costs was primarily driven by an increase in pro rata hotel revenue from CWI 2 relative to our pro rata hotel revenue, which directly impacts the allocation of our Advisor's expenses to us ([Note 3](#)).

Hurricane Loss, Net of Insurance Proceeds

2017 — Insurance proceeds are subject to deductibles, which may vary based on the area of the resort. During the year ended December 31, 2017, we recognized a \$7.0 million loss resulting from weather-related disruptions, primarily from Hurricane Irma, representing, in the aggregate, the property damage insurance deductible on certain hotels and our best estimate of uninsured losses for the remaining hotels that have not yet reached their property damage insurance deductible as of December 31, 2017. Our insurance policies provide coverage for property damage, business interruption and reimbursement for other costs that were incurred relating to damages sustained during Hurricane Irma and wildfires in Northern California.

We and CWI 2 maintain insurance on all of our hotels, with an aggregate policy limit of \$500.0 million for both property damage and business interruption. Our insurance policies are subject to various terms and conditions, including property damage and business interruption deductibles on each hotel, which range from 2% to 5% of the insured value. We currently estimate our aggregate casualty insurance claim to be in the range of \$40.0 million to \$50.0 million, which includes estimated clean up, repair and rebuilding costs, and estimate our aggregate business interruption insurance claim to be in the range of \$25.0 million to \$35.0 million. We are continuing to assess the damage sustained, so this estimate is subject to change and could be further impacted by increased costs, including those associated with resource constraints in Florida relating to building materials, supplies and labor. We believe that we maintain adequate insurance coverage on each of our hotels and are working closely with the insurance carriers and claims adjusters to obtain the maximum amount of insurance recovery provided under the policies. However, we can give no assurances as to the amounts of such claims, the timing of payments or the ultimate resolution of the claims.

We experienced a reduction in revenues for the year ended December 31, 2017 as a result of Hurricane Irma and the wildfires in Northern California. Our business interruption insurance covers lost revenue through the period of property restoration and for up to 12 months after the hotels are back to full operations. We have retained consultants to assess our business interruption claims and are currently reviewing our losses with our insurance carrier. We have not recorded revenue for covered business interruption during the year ended December 31, 2017. We will record revenue for covered business interruption when both the recovery is probable and the claim is settled.

If the estimated property damage increases or there is additional remediation work performed at the damaged hotels where the costs have not yet exceeded the property damage deductible, our hurricane loss could increase. We currently estimate the maximum additional hurricane loss we could incur for our Consolidated Hotels to be \$2.3 million.

Impairment Charges

Where the undiscounted cash flows for an asset are less than the asset's carrying value when considering and evaluating the various alternative courses of action that may occur, we recognize an impairment charge to reduce the carrying value of the asset to its estimated fair value. Further, when we classify an asset as held for sale, we carry the asset at the lower of its current carrying value or its fair value, less estimated cost to sell. Our impairment charges are more fully described in [Note 7](#).

2016 — During the year ended December 31, 2016, we recognized impairment charges totaling \$4.1 million to reduce the carrying value of three assets to their estimated fair values ([Note 7](#)).

2015 — During the year ended December 31, 2015, we recognized an impairment charge of \$6.1 million to reduce the carrying value of an asset to its estimated fair value ([Note 7](#)).

Acquisition-Related Expenses

We expense acquisition-related costs and fees associated with acquisitions of our Consolidated Hotels that are accounted for as business combinations as incurred.

We did not expense any acquisition-related fees during the year ended December 31, 2017. For the year ended December 31, 2016 as compared to 2015, acquisition-related expenses decreased by \$16.1 million, reflecting a reduction in investment volume. We acquired one Consolidated Hotel during the year ended December 31, 2016 as compared to six Consolidated Hotels during the year ended December 31, 2015.

Interest Expense

2016 vs. 2015 — For the year ended December 31, 2016 as compared to 2015, interest expense increased by \$10.7 million, primarily as a result of mortgage financing obtained in connection with our 2015 Acquisitions and 2016 Acquisition.

Equity in Earnings of Equity Method Investments in Real Estate

Equity in earnings of equity method investments in real estate represents earnings from our equity investments in Unconsolidated Hotels recognized in accordance with each investment agreement and based upon the allocation of the investment's net assets at book value as if the investment were hypothetically liquidated at the end of each reporting period ([Note 5](#)). We are required to periodically compare an investment's carrying value to its estimated fair value and recognize an impairment charge to the extent that the carrying value exceeds the estimated fair value and is determined to be other than temporary. No other-than-temporary impairment charges were recognized during the years ended December 31, 2017, 2016 or 2015.

The following table sets forth our share of equity in earnings from our Unconsolidated Hotels, which are based on the hypothetical liquidation at book value model, as well as certain amortization adjustments related to basis differentials from acquisitions of investments (in thousands):

	Years Ended December 31,		
	2017	2016	2015
Westin Atlanta Venture ^{(a) (b)}	\$ 22,302	\$ 860	\$ (372)
Ritz-Carlton Bacara, Santa Barbara ^(c)	(2,824)	—	—
Ritz-Carlton Philadelphia Venture ^(d)	2,710	3,042	1,960
Hyatt Centric French Quarter Venture	776	701	660
Marriott Sawgrass Golf Resort & Spa Venture ^{(e) (f)}	(761)	629	170
Total equity in earnings of equity method investments in real estate	\$ 22,203	\$ 5,232	\$ 2,418

- (a) On October 19, 2017, the venture sold the Westin Atlanta Perimeter North to an unaffiliated third-party. The results for the year ended December 31, 2017 represent data through the date of sale of this investment and include a gain on sale of our investment of \$21.6 million ([Note 5](#)).
- (b) The increase in our share of equity in earnings during the years ended December 31, 2016 as compared to the year ended December 31, 2015 reflects the impact of the refinancing of the outstanding mortgage loan of the venture during the fourth quarter of 2015, which substantially reduced the interest rate of the loan.
- (c) We acquired our 40% tenancy-in-common interest in this venture on September 28, 2017 ([Note 5](#)). The results for the year ended December 31, 2017 above represent data from its acquisition date through December 31, 2017 and include pre-opening expenses.
- (d) We purchased our 60% interest in this venture on May 15, 2015. The results for the year ended December 31, 2015 represent data from its acquisition date through December 31, 2015 and is therefore not comparable to the year ended December 31, 2016.

- (e) Our share of equity in losses during the year ended December 31, 2017 was negatively impacted by Hurricane Irma during the third quarter of 2017. The venture recognized a \$2.7 million hurricane loss during the year ended December 31, 2017, of which our share was \$1.3 million. We are still assessing the impact of the hurricane on the property. If the estimated damage increases or there is additional remediation work performed at the hotel, the hurricane loss recognized by the venture could increase. We currently estimate the maximum additional hurricane loss we could incur for the venture to be \$1.9 million, of which our share would be \$0.9 million.
- (f) On October 3, 2014, we acquired the Marriott Sawgrass Golf Resort & Spa. On April 1, 2015, we sold a 50% controlling interest to CWI 2 and began accounting for our remaining interest as an equity method investment. The results for the year ended December 31, 2015 represent financial results from April 1, 2015 through December 31, 2015 and is therefore not comparable to the year ended December 31, 2016.

Net (Loss) Gain on Extinguishment of Debt

2017 — During the year ended December 31, 2017, we recognized a loss on extinguishment of debt of \$0.2 million, related to the termination of the Senior Credit Facility and the refinancing of three non-recourse mortgage loans ([Note 9](#)).

2016 — During the year ended December 31, 2016, we recognized a net loss on extinguishment of debt of \$2.3 million, primarily related to the refinancing of three non-recourse mortgage loans.

2015 — During the year ended December 31, 2015, we recognized a net gain on extinguishment of debt of \$1.8 million, primarily related to a refinancing of one non-recourse mortgage loan.

Other Income

2015 — During the year ended December 31, 2015, we recognized other income of \$2.4 million from the sale of 50% of our interest in the Marriott Sawgrass Golf Resort & Spa to CWI 2 for a contractual sales price of \$37.2 million, resulting primarily from the reimbursement we received from CWI 2 of 50% of the acquisition costs we incurred on our acquisition of the hotel in October 2014, which had been expensed in prior periods.

Benefit from (Provision for) Income Taxes

2017 vs. 2016 — For the year ended December 31, 2017, we recognized a benefit from income taxes of less than \$0.1 million compared to a provision for income taxes of \$3.7 million for the year ended December 31, 2016. This change is primarily the result of pre-tax losses from our TRSs during 2017 as compared to pre-tax income during 2016 due to the changes in revenues and expenses described above.

Net Gain on Sale of Real Estate, Net of Tax

During the year ended December 31, 2017, we recognized a net gain on sale of real estate, net of tax of \$5.2 million, comprised of (i) a gain of \$5.5 million related to the sale of our 100% ownership interest in the Hampton Inn Boston Braintree to an unaffiliated third party for a contractual sales price of \$19.0 million during the second quarter of 2017, partially offset by (ii) a loss of \$0.4 million, in the aggregate, related to the sale of our 100% ownership interests in the Hampton Inn Frisco Legacy Park, the Hampton Inn Birmingham Colonnade and the Hilton Garden Inn Baton Rouge Airport to an unaffiliated third party for a contractual sales price of \$33.0 million during the first quarter of 2017 ([Note 4](#)).

Loss (Income) Attributable to Noncontrolling Interests

The following table sets forth our loss (income) attributable to noncontrolling interests (in thousands):

Venture	Years Ended December 31,		
	2017	2016	2015
Ritz-Carlton Key Biscayne Venture ^{(a) (b)}	\$ 8,828	\$ 8,190	\$ 9,896
Sheraton Austin Hotel at the Capitol Venture	(733)	(792)	(944)
Ritz-Carlton Fort Lauderdale Venture ^{(a) (b)}	613	184	2,086
Hilton Garden Inn New Orleans French Quarter/CBD Venture	(72)	(210)	(120)
Fairmont Sonoma Mission Inn & Spa Venture ^(c)	—	296	1,119
Operating Partnership — Available Cash Distribution (Note 3)	(7,459)	(9,445)	(7,122)
	<u>\$ 1,177</u>	<u>\$ (1,777)</u>	<u>\$ 4,915</u>

- (a) We acquired our 47% interest in the Ritz-Carlton Key Biscayne Venture and our 70% interest in the Ritz-Carlton Fort Lauderdale Venture on May 29, 2015 and June 30, 2015, respectively. The results for the year ended December 31, 2015 represent data from its acquisition date through December 31, 2015, including certain acquisition-related expenses, and is therefore not comparable to the year ended December 31, 2016.
- (b) The increase in our loss attributable to noncontrolling interests during the year ended December 31, 2017 as compared to the same period in 2016 was largely attributable to the impact of Hurricane Irma during the third quarter of 2017.
- (c) On February 12, 2016, we acquired the remaining 25% interest in the Fairmont Sonoma Mission Inn & Spa Venture from an unaffiliated third party, bringing our ownership interest to 100%.

Modified Funds from Operations

MFFO is a non-GAAP measure we use to evaluate our business. For a definition of MFFO and a reconciliation to net income attributable to CWI stockholders, see [Supplemental Financial Measures](#) below.

2017 vs. 2016 — For the year ended December 31, 2017 as compared to 2016, MFFO decreased by \$14.7 million, primarily the result of both hurricane-related and renovation-related disruption at several of our hotels, as well as our 2017 disposition activity.

2016 vs. 2015 — For the year ended December 31, 2016 as compared to 2015, MFFO increased by \$16.3 million, primarily reflecting operating results from our 2015 Acquisitions and 2016 Acquisition, as well as the impact of the completion of various renovations between periods.

Liquidity and Capital Resources

Our principal demands for funds will be for the payment of operating expenses, interest and principal on current and future indebtedness, including the WPC Credit Facility, and distributions to stockholders. We expect to meet our long-term liquidity requirements, including funding any additional hotel property acquisitions, through cash flows from our hotel portfolio and long-term borrowings. We may also use proceeds from financings and asset sales for any hotel acquisitions.

Liquidity is adversely affected by unanticipated costs and greater-than-anticipated operating expenses. To the extent that our working capital reserve is insufficient to satisfy our cash requirements, additional funds may be provided from cash generated from operations, as well as proceeds available under our Working Capital Facility, as described below in Cash Resources. In addition, we may incur indebtedness in connection with the acquisition of any property, refinance the debt thereon or reinvest the proceeds of financings or refinancings in additional properties.

Sources and Uses of Cash During the Year

We have fully invested the proceeds from both our initial public offering and follow-on offering. We use the cash flow generated from hotel operations to meet our normal recurring operating expenses, service debt and fund distributions to our shareholders. Our cash flows fluctuate from period to period due to a number of factors, including the financial and operating performance of our hotels, the timing of purchases or dispositions of hotels, the timing and characterization of distributions

from equity method investments in hotels and seasonality in the demand for our hotels. Also, hotels we invest in may undergo renovations, during which they may experience disruptions, possibly resulting in reduced revenue and operating income. Despite these fluctuations, we believe that we will continue to generate sufficient cash from operations and from our equity method investments to meet our normal recurring short-term and long-term liquidity needs. We may also use existing cash resources, proceeds available under our Working Capital Facility, the proceeds of mortgage loans, asset sales, and distributions reinvested in our common stock through our DRIP. We assess our ability to access capital on an ongoing basis. Our sources and uses of cash during the period are described below.

2017

Operating Activities

For the year ended December 31, 2017 as compared to 2016, net cash provided by operating activities increased by \$38.1 million, primarily as a result of proceeds from the gain on sale of the Westin Atlanta Perimeter North of \$21.6 million, the payment of \$14.5 million of asset management fees to our Advisor in shares rather than in cash as in the prior year and business interruption insurance advances of \$9.0 million, partially offset by a decrease in net cash flow from hotel operations during 2017 as compared to 2016.

Investing Activities

Net cash used in investing activities for the year ended December 31, 2017 was \$95.8 million, primarily as a result of (i) the purchase of our tenancy-in-common interest in the Ritz-Carlton Bacara, Santa Barbara totaling \$64.3 million ([Note 5](#)), (ii) the funding of \$49.1 million of capital expenditures for our Consolidated Hotels and (iii) funds placed into and released funds from lender-held escrow accounts totaling \$182.5 million and \$154.0 million, respectively, primarily for renovations and improvements, property taxes and insurance, as well as required fundings under our loan agreements and hurricane-related insurance proceed advances.

The net outflows were partially offset by (i) aggregate proceeds of \$25.7 million from the sale of four properties comprised of \$7.4 million of proceeds received from the sale of our 100% ownership interests in the Hampton Inn Frisco Legacy Park, the Hampton Inn Birmingham Colonnade and the Hilton Garden Inn Baton Rouge Airport to an unaffiliated third party (that is net of the outstanding non-recourse debt assumed by the seller at closing totaling \$26.5 million) and \$18.3 million from the sale of our 100% ownership interest in the Hampton Inn Boston Braintree to an unaffiliated third party ([Note 4](#)), (ii) hurricane-related property insurance proceeds of \$12.3 million and (iii) distributions received from equity investments in excess of equity income totaling \$9.3 million.

Financing Activities

Net cash used in financing activities for the year ended December 31, 2017 was \$41.1 million, primarily as a result of (i) scheduled payments and prepayments of mortgage financing totaling \$94.1 million, including the \$11.7 million prepayment of the Hampton Inn Boston Braintree mortgage in connection with the sale of the property, (ii) cash distributions paid to stockholders aggregating \$77.7 million, (iii) redemptions of our common stock pursuant to our redemption plan totaling \$33.0 million, (iv) payments totaling \$29.2 million to WPC comprised of \$14.2 million towards the Bridge Loan and \$15.0 million towards the Working Capital Facility ([Note 3](#)), (v) the repayment of the Senior Credit Facility totaling \$22.8 million and (vi) distributions to noncontrolling interest totaling \$9.8 million.

Net cash outflows were partially offset by (i) proceeds totaling \$97.8 million from WPC, comprised of borrowings under the Bridge Loan and WPC Line of Credit (which was replaced by the Working Capital Facility) of \$75.0 million and \$22.8 million, respectively, with the borrowings under the WPC Line of Credit used to repay in full, and terminate, the Senior Credit Facility as noted above, (ii) refinancing three mortgages totaling \$84.5 million ([Note 9](#)) and (iii) proceeds from the issuance of shares, net of offering costs, totaling \$45.2 million from distributions that were reinvested in shares of our common stock by stockholders through our DRIP.

2016

Operating Activities

For the year ended December 31, 2016 as compared to 2015, net cash provided by operating activities increased by \$23.8 million, primarily resulting from net cash flow from hotel operations generated by our 2015 Acquisitions and 2016 Acquisition,

which more than offset operating costs, as well as a significant decrease in acquisition-related expenses resulting from a decrease in investment volume during the year ended December 31, 2016 as compared to 2015.

Investing Activities

Net cash used in investing activities for the year ended December 31, 2016 was \$126.5 million, primarily the result of cash outflows for our 2016 Acquisition totaling \$75.3 million (Note 4). We funded \$65.6 million of capital expenditures for our Consolidated Hotels and placed funds into and released funds from lender-held escrow accounts totaling \$141.9 million and \$147.0 million, respectively, primarily for renovations and improvements, property taxes and insurance. We also released deposits for hotel investments totaling \$5.7 million.

Financing Activities

Net cash provided by financing activities for the year ended December 31, 2016 was \$20.1 million, primarily as a result of mortgage financing obtained in connection with our 2016 Acquisition and proceeds received from refinancings of mortgages aggregating \$403.5 million (Note 9), proceeds from the issuance of shares, net of offering costs, through our DRIP, totaling \$46.3 million and proceeds from our Senior Credit Facility of \$30.0 million. These inflows were partially offset by scheduled payments and prepayments of mortgage financing totaling \$293.9 million, cash distributions paid to stockholders aggregating \$76.2 million, our acquisition of the remaining 25% interest in the Fairmont Sonoma Mission Inn & Spa Venture for \$21.1 million (Note 11), repayments on our Senior Credit Facility totaling \$27.2 million, redemptions of our common stock pursuant to our redemption plan totaling \$17.5 million and distributions to noncontrolling interests totaling \$17.0 million.

Distributions

Our objectives are to generate sufficient cash flow over time to provide stockholders with distributions and to seek investments with potential for capital appreciation throughout varying economic cycles. For the year ended December 31, 2017, we paid distributions to stockholders totaling \$77.7 million, which were comprised of cash distributions of \$32.4 million and distributions that were reinvested in shares of our common stock by stockholders through our DRIP of \$45.3 million. From inception through December 31, 2017, we declared distributions, excluding distributions paid in shares of our common stock, to stockholders totaling \$302.0 million, which were comprised of cash distributions of \$121.1 million and \$180.9 million of distributions that were reinvested by stockholders in shares of our common stock pursuant to our DRIP.

We believe that FFO, a non-GAAP measure, is the most appropriate metric to evaluate our ability to fund distributions to stockholders. For a discussion of FFO, see [Supplemental Financial Measures](#) below. Over the life of our company, the regular quarterly cash distributions we pay are expected to be principally sourced from our FFO or our Cash flow from operations. However, we have funded a portion of our cash distributions to date using net proceeds from our public offerings, as well as other sources, and there can be no assurance that our FFO or our Cash flow from operations will be sufficient to cover future distributions. FFO and Cash flow from operations are first applied to current period distributions, then to any deficit from prior period cumulative negative FFO and prior period cumulative negative cash flow, respectively, and finally to future period distributions. Our distribution coverage using FFO was approximately 68% and 58% of total distributions declared for the year ended December 31, 2017 and on a cumulative basis through that date, respectively. Our distribution coverage using Cash flow from operations was approximately 100% and 81% of total distributions declared for the year ended December 31, 2017 and on a cumulative basis through that date, respectively. The balance was funded primarily from proceeds of our public offerings as well as other sources. As we have fully invested the proceeds of our offerings, we expect that in the future, if distributions cannot be fully sourced from FFO or Cash flow from operations, they may be sourced from the proceeds of financings, borrowings, the sales of assets or other sources of cash.

Redemptions

We maintain a quarterly redemption program pursuant to which we may, at the discretion of our board of directors, redeem shares of our common stock from stockholders seeking liquidity. During the year ended December 31, 2017, we redeemed 3,217,871 shares of our common stock pursuant to our redemption plan, comprised of 760 redemption requests at an average price per share of \$10.26. As of the date of this Report, we have fulfilled all of the valid redemption requests that we received during the year ended December 31, 2017. We funded all share redemptions during the year ended December 31, 2017 with proceeds from the sale of shares of our common stock pursuant to our DRIP.

Summary of Financing

The table below summarizes our non-recourse debt, net, WPC Credit Facility and Senior Credit Facility (dollars in thousands):

	December 31,	
	2017	2016
Carrying Value		
Fixed rate ^(a)	\$ 1,082,367	\$ 1,084,987
Variable rate:		
WPC Credit Facility — Bridge Loan (Note 3)	60,802	—
WPC Credit Facility — Working Capital Facility (Note 3)	7,835	—
Senior Credit Facility (Note 9) ^(b)	—	22,785
Non-recourse debt ^(a) :		
Amount subject to interest rate cap, if applicable	265,954	304,020
Amount subject to interest rate swap	47,148	67,145
Amount subject to floating interest rate	25,444	—
	<u>407,183</u>	<u>393,950</u>
	<u>\$ 1,489,550</u>	<u>\$ 1,478,937</u>
Percent of Total Debt		
Fixed rate	73%	73%
Variable rate	27%	27%
	<u>100%</u>	<u>100%</u>
Weighted-Average Interest Rate at End of Year		
Fixed rate	4.3%	4.3%
Variable rate ^(c)	4.3%	4.0%

- (a) Aggregate debt balance includes deferred financing costs totaling \$7.3 million and \$8.4 million as of December 31, 2017 and 2016, respectively.
- (b) On March 23, 2017, we repaid the \$22.8 million outstanding balance using proceeds from the WPC Line of Credit (Note 3) and simultaneously terminated the Senior Credit Facility.
- (c) The impact of our derivative instruments is reflected in the weighted-average interest rates.

Most of our mortgage loan agreements contain “lock-box” provisions, which permit the lender to access or sweep a hotel’s excess cash flow under certain limited circumstances, including the failure to maintain minimum debt service coverage ratios. If a provision were triggered, we would generally be permitted to spend an amount equal to our budgeted hotel operating expenses, taxes, insurance and capital expenditure reserves for the relevant hotel. The lender would then retain all excess cash flow after the payment of debt service in an escrow account until certain performance hurdles are met. At December 31, 2016, the minimum debt service coverage ratio for the Holiday Inn Manhattan 6th Avenue Chelsea was not met; therefore, a cash management agreement was enacted that permits the lender to sweep the hotel’s excess cash flow. As of December 31, 2017, this ratio was still not met and the cash management agreement remained in effect. At June 30, 2017, the minimum debt service coverage ratio for the Lake Arrowhead Resort and Spa was not met; therefore we were required to fund \$0.5 million into a lender held reserve account that will be released after a specified debt service coverage ratio is achieved for two consecutive quarters. We funded the required \$0.5 million into the lender held reserve account during the third quarter of 2017, which is included in Restricted cash in our consolidated balance sheet. As of December 31, 2017, this ratio was still not met and the funds remained in the lender held reserve account. At September 30, 2017, the minimum debt service coverage ratio for both the senior mortgage loan and mezzanine loan for the Ritz-Carlton Fort Lauderdale were not met; therefore, we entered into a cash management agreement that permits the lender to sweep the hotel’s excess cash flow. As of December 31, 2017, this ratio was still not met and the cash management agreement remained in effect.

Cash Resources

At December 31, 2017, our cash resources consisted of cash totaling \$48.0 million, of which \$21.2 million was designated as hotel operating cash. We also had the \$25.0 million Working Capital Facility, of which \$17.2 million remained available to be drawn at December 31, 2017. On January 16, 2018, we borrowed \$10.0 million from WPC under the Working Capital Facility and on February 15, 2018, we repaid \$17.0 million (Note 15). Our cash resources may be used to fund future investments and can be used for working capital needs, debt service and other commitments, such as the renovation commitments noted below.

Cash Requirements

During the next 12 months, we expect that our cash requirements will include (i) paying distributions to our stockholders, (ii) fulfilling our renovation commitments (Note 10), (iii) funding hurricane-related repair and remediation costs in excess of insurance proceeds received, (iv) funding lease commitments, (v) making scheduled mortgage loan principal payments, including (a) scheduled balloon payments totaling \$164.0 million on six consolidated mortgage loans, two of which, totaling \$32.0 million, were paid in full upon disposition of the related hotels (Note 15) and (b) our share of balloon payments scheduled for two Unconsolidated Hotel totaling \$57.4 million, one of which, our share totaling \$32.7 million, was refinanced during the first quarter of 2018, and (vi) paydown of the Bridge Loan, as well as other normal recurring operating expenses. We currently intend to refinance the scheduled balloon payments, although there can be no assurance that we will be able to do so on favorable terms, if at all.

We expect to use cash generated from operations, the Working Capital Facility, mortgage financing and cash received from dispositions of properties to fund these cash requirements in addition to amounts held in escrow to fund our renovation commitments.

Capital Expenditures and Reserve Funds

With respect to our hotels that are operated under management or franchise agreements with major international hotel brands and for most of our hotels subject to mortgage loans, we are obligated to maintain furniture, fixtures and equipment reserve accounts for future capital expenditures at these hotels, sufficient to cover the cost of routine improvements and alterations at the hotels. The amount funded into each of these reserve accounts is generally determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents for each of the respective hotels and typically ranges between 3% and 5% of the respective hotel's total gross revenue. At December 31, 2017 and 2016, \$32.9 million and \$29.3 million, respectively, was held in furniture, fixtures and equipment reserve accounts for future capital expenditures.

Off-Balance Sheet Arrangements and Contractual Obligations

The table below summarizes our debt, off-balance sheet arrangements and other contractual obligations (primarily our capital commitments and lease obligations) at December 31, 2017 and the effect that these arrangements and obligations are expected to have on our liquidity and cash flow in the specified future periods (in thousands):

	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Non-recourse debt — Principal ^{(a) (b)}	\$ 1,428,167	\$ 177,852	\$ 371,088	\$ 702,357	\$ 176,870
Interest on borrowings ^(c)	202,826	60,015	96,564	40,729	5,518
WPC Credit Facility (Bridge Loan) — Principal ^(d)	60,802	60,802	—	—	—
WPC Credit Facility (Working Capital Facility) — Principal ^(e)	7,835	7,835	—	—	—
Operating and other lease commitments ^(f)	667,537	4,211	8,647	7,123	647,556
Contractual capital commitments ^(g)	31,953	29,953	2,000	—	—
Asset retirement obligation, net ^(h)	1,471	—	—	—	1,471
	<u>\$ 2,400,591</u>	<u>\$ 340,668</u>	<u>\$ 478,299</u>	<u>\$ 750,209</u>	<u>\$ 831,415</u>

(a) Excludes deferred financing costs totaling \$7.3 million.

- (b) Total Non-recourse debt — Principal due in less than one year includes \$164.0 million of scheduled balloon payments on six consolidated mortgage loans, two of which, totaling \$32.0 million, were paid in full upon disposition of the related hotels (Note 15). We currently intend to refinance these mortgage loans, although there can be no assurance that we will be able to do so on favorable terms, if at all.
- (c) For variable-rate debt, interest on borrowings is calculated using the swapped or capped interest rate, when in effect.
- (d) On February 15, 2018, we repaid \$20.0 million towards the Bridge Loan (Note 15).
- (e) On January 16, 2018, we borrowed \$10.0 million from WPC under the Working Capital Facility and on February 15, 2018, we repaid \$17.0 million towards the Working Capital Facility (Note 15).
- (f) Operating and other lease commitments consist of rent obligations under ground leases and our share of future rents payable pursuant to the Advisory Agreement for the purpose of leasing office space used for the administration of real estate entities. At December 31, 2017, this balance primarily related to our commitments on ground leases for two hotels, which expire in 2087 and 2099 and have rent obligations consistently increasing throughout their respective terms; therefore, the most significant commitments occur near the conclusion of the leases.
- (g) Capital commitments represent our remaining contractual renovation commitments at our Consolidated Hotels, which does not reflect any renovation work to be undertaken as a result of Hurricane Irma (Note 10).
- (h) Represents the estimated future obligation for the removal of asbestos and environmental waste in connection with three of our hotels upon the retirement or sale of the asset.

Equity Method Investments

We owned equity interests in four Unconsolidated Hotels, two with unrelated third parties and two with CWI 2. Our ownership interest and summarized financial information for these investments at December 31, 2017 is presented below. Any cash requirements with respect to our share of these debt obligations are discussed above under Cash Requirements. Summarized financial information provided represents the total amounts attributable to the investments and does not represent our proportionate share (dollars in thousands):

Venture	Ownership Interest at December 31, 2017	Total Assets	Total Third- Party Debt	Third-Party Debt Maturity Date
Ritz-Carlton Philadelphia Venture ^(a)	60%	\$ 102,617	\$ 57,705	1/2018
Hyatt Centric French Quarter Venture	80%	46,453	31,198	8/2018
Marriott Sawgrass Golf Resort & Spa Venture	50%	147,578	78,000	11/2019
Ritz-Carlton Bacara, Santa Barbara Venture	40%	399,731	226,636	9/2021
		<u>\$ 696,379</u>	<u>\$ 393,539</u>	

- (a) On January 9, 2018, the Ritz-Carlton Philadelphia Venture refinanced its third-party debt with a new non-recourse mortgage loan of \$65.0 million, which has a fixed interest rate of 5.1% and a maturity date of February 1, 2023.

Environmental Obligations

Our hotels are subject to various federal, state and local environmental laws. Under these laws, governmental entities have the authority to require the current owner of the property to perform or pay for the cleanup of contamination (including hazardous substances, waste or petroleum products) at, on, under or emanating from the property and to pay for natural resource damages arising from such contamination. Such laws often impose liability without regard to whether the owner or operator or other responsible party knew of, or caused such contamination, and the liability may be joint and several. Because these laws also impose liability on persons who owned the property at the time it became contaminated, it is possible we could incur cleanup costs or other environmental liabilities even after we sell properties. Contamination at, on, under or emanating from our properties also may expose us to liability to private parties for costs of remediation and/or personal injury or property damage. In addition, environmental laws may create liens on contaminated sites in favor of the government for damages and costs it incurs to address such contamination. If contamination is discovered on our properties, environmental laws also may impose restrictions on the manner in which the property may be used or businesses may be operated, and these restrictions may require substantial expenditures. Moreover, environmental contamination can affect the value of a property and, therefore, an owner's ability to borrow funds using the property as collateral or to sell the property on favorable terms or at all. We are not aware of any past or present environmental liability for non-compliance with environmental laws that we believe would have a material adverse effect on our business, financial condition, liquidity or results of operations.

In connection with the purchase of hotels, we have independent environmental consultants conduct a Phase I environmental site assessment prior to purchase. Phase I site assessments are intended to discover and evaluate information regarding the environmental condition of the surveyed property and surrounding properties. None of the existing Phase I site assessments on our hotels revealed any past or present environmental condition that we believe would have a material adverse effect on our business, financial condition, liquidity or results of operations.

Critical Accounting Estimates

Our significant accounting policies are described in [Note 2](#). Many of these accounting policies require judgment and the use of estimates and assumptions when applying these policies in the preparation of our consolidated financial statements. On a quarterly basis, we evaluate these estimates and judgments based on historical experience as well as other factors that we believe to be reasonable under the circumstances. These estimates are subject to change in the future if underlying assumptions or factors change. Certain accounting policies, while significant, may not require the use of estimates. Those accounting policies that require significant estimation and/or judgment are described under Critical Accounting Policies and Estimates in [Note 2](#). The recent accounting change that may potentially impact our business is described under Recent Accounting Requirements in [Note 2](#).

Supplemental Financial Measures

In the real estate industry, analysts and investors employ certain non-GAAP supplemental financial measures in order to facilitate meaningful comparisons between periods and among peer companies. Additionally, in the formulation of our goals and in the evaluation of the effectiveness of our strategies, we use FFO and MFFO, which are non-GAAP measures defined by our management. We believe that these measures are useful to investors to consider because they may assist them to better understand and measure the performance of our business over time and against similar companies. A description of FFO and MFFO, and reconciliations of these non-GAAP measures to the most directly comparable GAAP measures, are provided below.

FFO and MFFO

Due to certain unique operating characteristics of real estate companies, as discussed below, NAREIT has promulgated a non-GAAP measure known as FFO, which we believe to be an appropriate supplemental measure, when used in addition to and in conjunction with results presented in accordance with GAAP, to reflect the operating performance of a REIT. The use of FFO is recommended by the REIT industry as a supplemental non-GAAP measure. FFO is not equivalent to nor a substitute for net income or loss as determined under GAAP.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as revised in February 2004. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from sales of property, impairment charges on real estate, and depreciation and amortization from real estate assets; and after adjustments for unconsolidated partnerships and jointly-owned investments. Adjustments for unconsolidated partnerships and jointly-owned investments are calculated to reflect FFO. NAREIT's definition of FFO does not distinguish between the conventional method of equity accounting and the hypothetical liquidation at book value method of accounting for unconsolidated partnerships and jointly-owned investments.

The historical accounting convention used for real estate assets requires straight-line depreciation of buildings and improvements, which implies that the value of real estate assets diminishes predictably over time, especially if such assets are not adequately maintained or repaired and renovated as required by relevant circumstances in order to maintain the value disclosed. We believe that, since real estate values historically rise and fall with market conditions, including inflation, interest rates, the business cycle, unemployment and consumer spending, presentations of operating results for a REIT using historical accounting for depreciation may be less informative. Historical accounting for real estate involves the use of GAAP. Any other method of accounting for real estate such as the fair value method cannot be construed to be any more accurate or relevant than the comparable methodologies of real estate valuation found in GAAP. Nevertheless, we believe that the use of FFO, which excludes the impact of real estate-related depreciation and amortization, as well as impairment charges of real estate-related assets, provides a more complete understanding of our performance to investors and to management; and when compared year over year, reflects the impact on our operations from trends in occupancy rates, operating costs, general and administrative expenses, and interest costs, which may not be immediately apparent from net income. In particular, we believe it is appropriate to disregard impairment charges, as this is a fair value adjustment that is largely based on market fluctuations and assessments regarding general market conditions, which can change over time. An asset will only be evaluated for impairment if certain impairment indicators exist. For real estate assets held for investment and related intangible assets in which an impairment indicator is identified, we follow a two-step process to determine whether an asset is impaired and to determine the amount of the charge. First, we compare the carrying value of the property's asset group to the estimated future net undiscounted cash flow that we expect the property's asset group will generate, including any estimated proceeds from the eventual sale of the property's asset group. It should be noted, however, the property's asset group's estimated fair value is primarily determined

using market information from outside sources such as broker quotes or recent comparable sales. In cases where the available market information is not deemed appropriate, we perform a future net cash flow analysis discounted for inherent risk associated with each asset to determine an estimated fair value. While impairment charges are excluded from the calculation of FFO described above due to the fact that impairments are based on estimated future undiscounted cash flows, it could be difficult to recover any impairment charges. However, FFO and MFFO, as described below, should not be construed to be more relevant or accurate than the current GAAP methodology in calculating net income or in its applicability in evaluating the operating performance of the company. The method utilized to evaluate the value and performance of real estate under GAAP should be construed as a more relevant measure of operational performance and considered more prominently than the non-GAAP measures FFO and MFFO and the adjustments to GAAP in calculating FFO and MFFO.

Changes in the accounting and reporting promulgations under GAAP (for acquisition fees and expenses from a capitalization/depreciation model to an expensed-as-incurred model) were put into effect in 2009. These changes to GAAP accounting for real estate subsequent to the establishment of NAREIT's definition of FFO have prompted an increase in cash-settled expenses, such as acquisition fees that are typically accounted for as operating expenses. Management believes these fees and expenses do not affect our overall long-term operating performance. Publicly registered, non-listed REITs typically have a significant amount of acquisition activity and are substantially more dynamic during their initial years of investment and operation. While other start-up entities may also experience significant acquisition activity during their initial years, we believe that non-listed REITs are unique in that they have a limited life with targeted exit strategies within a relatively limited time frame after acquisition activity ceases. We intend to begin the process of achieving a liquidity event (i.e., listing of our common stock on a national exchange, a merger or sale of our assets or another similar transaction) not later than six years following the conclusion of our initial public offering, which occurred on September 15, 2013. Thus, we intend to have a limited life. Due to the above factors and other unique features of publicly registered, non-listed REITs, the Investment Program Association, an industry trade group, has standardized a measure known as MFFO, which the Investment Program Association has recommended as a supplemental measure for publicly registered non-listed REITs and which we believe to be another appropriate non-GAAP measure to reflect the operating performance of a non-listed REIT having the characteristics described above. MFFO is not equivalent to our net income or loss as determined under GAAP, and MFFO may not be a useful measure of the impact of long-term operating performance on value if we do not continue to operate with a limited life and targeted exit strategy, as currently intended. We believe that, because MFFO excludes costs that we consider more reflective of investing activities and other non-operating items included in FFO and also excludes acquisition fees and expenses that affect our operations only in periods in which properties are acquired, MFFO can provide, on a going forward basis, an indication of the sustainability (that is, the capacity to continue to be maintained) of our operating performance after the period in which we are acquiring properties and once our portfolio is in place. By providing MFFO, we believe we are presenting useful information that assists investors and analysts to better assess the sustainability of our operating performance now that our offering has been completed and once essentially all of our properties have been acquired. We also believe that MFFO is a recognized measure of sustainable operating performance by the non-listed REIT industry. Further, we believe MFFO is useful in comparing the sustainability of our operating performance, with the sustainability of the operating performance of other real estate companies that are not as involved in acquisition activities. MFFO should only be used to assess the sustainability of a company's operating performance after a company's offering has been completed and properties have been acquired, as it excludes acquisition costs that have a negative effect on a company's operating performance during the periods in which properties are acquired.

We define MFFO consistent with the Investment Program Association's *Guideline 2010-01, Supplemental Performance Measure for Publicly Registered, Non-Listed REITs: Modified Funds from Operations*, or the Practice Guideline, issued by the Investment Program Association in November 2010. This Practice Guideline defines MFFO as FFO further adjusted for the following items included in the determination of GAAP net income, as applicable: acquisition fees and expenses; accretion of discounts and amortization of premiums on debt investments; where applicable, payments of loan principal made by our equity investees accounted for under the hypothetical liquidation model where such payments reduce our equity in earnings of equity method investments in real estate, nonrecurring impairments of real estate-related investments (i.e., infrequent or unusual, not reasonably likely to recur in the ordinary course of business); mark-to-market adjustments included in net income; nonrecurring gains or losses included in net income from the extinguishment or sale of debt, hedges, derivatives or securities holdings, where trading of such holdings is not a fundamental attribute of the business plan, unrealized gains or losses resulting from consolidation from, or deconsolidation to, equity accounting, and after adjustments for Consolidated and Unconsolidated Hotels, with such adjustments calculated to reflect MFFO on the same basis. The accretion of discounts and amortization of premiums on debt investments, unrealized gains and losses on hedges, derivatives or securities holdings, unrealized gains and losses resulting from consolidations, as well as other listed cash flow adjustments are adjustments made to net income in calculating the cash flows provided by operating activities and, in some cases, reflect gains or losses that are unrealized and may not ultimately be realized.

Our MFFO calculation complies with the Investment Program Association's Practice Guideline described above. In calculating MFFO, we exclude acquisition-related expenses, fair value adjustments of derivative financial instruments and the adjustments of such items related to noncontrolling interests. Under GAAP, acquisition fees and expenses are characterized as operating expenses in determining operating net income. These expenses are paid in cash by a company. All paid and accrued acquisition fees and expenses will have negative effects on returns to investors, the potential for future distributions, and cash flows generated by the company, unless earnings from operations or net sales proceeds from the disposition of other properties are generated to cover the purchase price of the property, these fees and expenses and other costs related to such property. Further, under GAAP, certain contemplated non-cash fair value and other non-cash adjustments are considered operating non-cash adjustments to net income in determining cash flow from operating activities. We account for certain of our equity investments using the hypothetical liquidation model which is based on distributable cash as defined in the operating agreement.

Our management uses MFFO and the adjustments used to calculate it in order to evaluate our performance against other non-listed REITs, which have limited lives with short and defined acquisition periods and targeted exit strategies shortly thereafter. As noted above, MFFO may not be a useful measure of the impact of long-term operating performance on value if we do not continue to operate in this manner. We believe that MFFO and the adjustments used to calculate it allow us to present our performance in a manner that takes into account certain characteristics unique to non-listed REITs, such as their limited life, defined acquisition period and targeted exit strategy, and is therefore a useful measure for investors. For example, acquisition costs are generally funded from the proceeds of our offering and other financing sources and not from operations. By excluding expensed acquisition costs, the use of MFFO provides information consistent with management's analysis of the operating performance of the properties. Additionally, fair value adjustments, which are based on the impact of current market fluctuations and underlying assessments of general market conditions, but can also result from operational factors such as occupancy rates, may not be directly related or attributable to our current operating performance. By excluding such changes that may reflect anticipated and unrealized gains or losses, we believe MFFO provides useful supplemental information.

Presentation of this information is intended to provide useful information to investors as they compare the operating performance of different REITs, although it should be noted that not all REITs calculate FFO and MFFO the same way, so comparisons with other REITs may not be meaningful. Furthermore, FFO and MFFO are not necessarily indicative of cash flow available to fund cash needs and should not be considered as an alternative to net income as an indication of our performance, as an alternative to cash flows from operations as an indication of our liquidity, or indicative of funds available to fund our cash needs including our ability to make distributions to our stockholders. FFO and MFFO should be reviewed in conjunction with other GAAP measurements as an indication of our performance.

Neither the SEC, NAREIT nor any other regulatory body has passed judgment on the acceptability of the adjustments that we use to calculate FFO or MFFO. In the future, the SEC, NAREIT or another regulatory body may decide to standardize the allowable adjustments across the non-listed REIT industry and we would have to adjust our calculation and characterization of FFO and MFFO accordingly.

FFO and MFFO were as follows (in thousands):

	Years Ended December 31,		
	2017	2016	2015
Net income (loss) attributable to CWI stockholders	\$ 4,928	\$ (8,753)	\$ (25,725)
Adjustments:			
Depreciation and amortization of real property	82,062	80,950	69,625
Gain on sale of equity investment	(21,625)	—	—
Gain on sale of real estate, net	(5,164)	—	—
Proportionate share of adjustments for partially owned entities — FFO adjustments	(1,620)	(3,202)	(2,419)
Impairment charges	—	4,112	6,143
Total adjustments	53,653	81,860	73,349
FFO (as defined by NAREIT) attributable to CWI stockholders	58,581	73,107	47,624
Hurricane loss ^(a)	7,008	—	—
Straight-line and other rent adjustments	5,417	5,491	5,555
Proportionate share of adjustments for partially owned entities — MFFO adjustments	(2,514)	684	324
Net loss (gain) on extinguishment of debt	225	2,268	(1,840)
Acquisition expenses ^(b)	—	3,727	19,868
Fair market value adjustments	—	(1,877)	(2,086)
Reimbursement of acquisition expenses	—	—	(2,363)
Total adjustments	10,136	10,293	19,458
MFFO attributable to CWI stockholders	\$ 68,717	\$ 83,400	\$ 67,082

(a) We excluded the hurricane loss because of the non-recurring nature of the charge.

(b) In evaluating investments in real estate, management differentiates the costs to acquire the investment from the operations derived from the investment. Such information would be comparable only for non-listed REITs that have completed their acquisition activity and have other similar operating characteristics. By excluding expensed acquisition costs, management believes MFFO provides useful supplemental information that is comparable for each type of real estate investment and is consistent with management's analysis of the investing and operating performance of our properties. Acquisition fees and expenses include payments to our Advisor or third parties. Acquisition fees and expenses under GAAP are considered operating expenses and as expenses included in the determination of net income and income from continuing operations, both of which are performance measures under GAAP. All paid and accrued acquisition fees and expenses will have negative effects on returns to investors, the potential for future distributions and cash flows generated by us, unless earnings from operations or net sales proceeds from the disposition of properties are generated to cover the purchase price of the property, these fees and expenses, and other costs related to the property.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Market Risk

We currently have limited exposure to financial market risks, including changes in interest rates. We currently have no foreign operations and are not exposed to foreign currency fluctuations.

Interest Rate Risk

The values of our real estate and related fixed-rate debt obligations are subject to fluctuations based on changes in interest rates. The value of our real estate is also subject to fluctuations based on local and regional economic conditions, which may affect our ability to refinance property-level mortgage debt when balloon payments are scheduled, if we do not choose to repay the debt when due. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political conditions, and other factors beyond our control. An increase in interest rates would likely cause the fair value of our assets to decrease.

We are exposed to the impact of interest rate changes primarily through our borrowing activities. To limit this exposure, we have historically attempted to obtain non-recourse mortgage financing on a long-term, fixed-rate basis. However, from time to time, we or our joint investment partners have obtained, and may in the future obtain, variable-rate non-recourse mortgage loans, and, as a result, we have entered into, and may continue to enter into, interest rate swap agreements or interest rate cap agreements with lenders. Interest rate swap agreements effectively convert the variable-rate debt service obligations of a loan to a fixed rate, while interest rate cap agreements limit the underlying interest rate from exceeding a specified strike rate. Interest rate swaps are agreements in which one party exchanges a stream of interest payments for a counterparty's stream of cash flows over a specific period and interest rate caps limit the effective borrowing rate of variable-rate debt obligations while allowing participants to share in downward shifts in interest rates. These interest rate swaps and caps are derivative instruments that, where applicable, are designated as cash flow hedges on the forecasted interest payments on the debt obligation. The face amount on which the swaps or caps are based is not exchanged. Our objective in using these derivatives is to limit our exposure to interest rate movements.

At December 31, 2017, we estimated that the total fair value of our interest rate caps and swap, which are included in Other assets and Accounts payable, accrued expenses and other liabilities, respectively, in the consolidated financial statements, was in a net liability position of less than \$0.1 million ([Note 8](#)).

At December 31, 2017, all of our debt bore interest at fixed rates, was swapped to a fixed rate or was subject to an interest rate cap, with the exception of the Bridge Loan and Working Capital Facility, which had outstanding balances of \$60.8 million and \$7.8 million, respectively, as well as one mortgage loan with an outstanding balance of \$25.4 million. The annual interest rates on our fixed-rate debt at December 31, 2017 ranged from 3.6% to 6.5%. The contractual annual interest rates on our variable-rate debt at December 31, 2017 ranged from 2.5% to 8.6%. The weighted-average interest rate of our fixed rate and variable rate debt was 4.3% and 4.3%, respectively, at December 31, 2017. Our debt obligations are more fully described under [Liquidity and Capital Resources](#) in Item 7 above.

The following table presents principal cash outflows for our Consolidated Hotels based upon expected maturity dates of our long-term debt obligations outstanding at December 31, 2017 and excludes deferred financing costs (in thousands):

	2018	2019	2020	2021	2022	Thereafter	Total	Fair Value
Fixed-rate debt	\$ 42,742	\$ 106,636	\$ 58,623	\$ 458,253	\$ 244,104	\$ 176,870	\$ 1,087,228	\$ 1,078,615
Variable-rate debt ^(a)	\$ 135,110	\$ 42,090	\$ 163,739	\$ —	\$ —	\$ —	\$ 340,939	\$ 340,415

(a) Excludes \$60.8 million and \$7.8 million outstanding under the Bridge Loan and Working Capital Facility, respectively, from WPC ([Note 3](#)). Unless the Advisory Agreement expires or is terminated, the Bridge Loan and Working Capital Facility are scheduled to mature on June 30, 2018 and December 31, 2018, respectively.

The estimated fair value of our fixed-rate debt and our variable-rate debt that currently bears interest at fixed rates or has effectively been converted to a fixed rate through the use of interest rate swaps, or that has been subject to an interest rate cap, is affected by changes in interest rates. A decrease or increase in interest rates of 1% would change the estimated fair value of this debt at December 31, 2017 by an aggregate increase of \$40.8 million or an aggregate decrease of \$41.1 million, respectively. Annual interest expense on our variable-rate debt that is subject to an interest rate cap at December 31, 2017 would increase or decrease by \$2.7 million for each respective 1% change in annual interest rates.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Carey Watermark Investors Incorporated:

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Carey Watermark Investors Incorporated and its subsidiaries as of December 31, 2017 and 2016, and the related consolidated statements of operations, comprehensive income (loss), equity, and cash flows for each of the three years in the period ended December 31, 2017, including the related notes and financial statement schedules listed in the accompanying index (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these consolidated financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers LLP
New York, NY
March 26, 2018

We have served as the Company's auditor since 2008.

CAREY WATERMARK INVESTORS INCORPORATED
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Organization and Offering

Organization

Carey Watermark Investors Incorporated, or CWI, together with its consolidated subsidiaries, is a publicly owned, non-listed real estate investment trust, or REIT, that invests in, manages and seeks to enhance the value of, interests in lodging and lodging-related properties in the United States. We conduct substantially all of our investment activities and own all of our assets through CWI OP, LP, or the Operating Partnership. We are a general partner and a limited partner of, and own a 99.985% capital interest in, the Operating Partnership. Carey Watermark Holdings, LLC, or Carey Watermark Holdings, which is owned indirectly by both W. P. Carey Inc., or WPC, and Watermark Capital Partners, LLC, or Watermark Capital Partners, holds a special general partner interest in the Operating Partnership.

We are managed by Carey Lodging Advisors, LLC, or our Advisor, an indirect subsidiary of WPC. Our Advisor manages our overall portfolio, including providing oversight and strategic guidance to the independent hotel operators that manage our hotels. CWA, LLC, a subsidiary of Watermark Capital Partners, or the Subadvisor, provides services to our Advisor, primarily relating to acquiring, managing, financing and disposing of our hotels and overseeing the independent operators that manage the day-to-day operations of our hotels. In addition, the Subadvisor provides us with the services of Mr. Michael G. Medzigian, our Chief Executive Officer, subject to the approval of our independent directors.

We held ownership interests in 31 hotels at December 31, 2017, including 27 hotels that we consolidate, or our Consolidated Hotels, and four hotels that we record as equity investments, or our Unconsolidated Hotels, at December 31, 2017.

Public Offerings

We raised \$575.8 million through our initial public offering, which ran from September 15, 2010 through September 15, 2013, and \$577.4 million through our follow-on offering, which ran from December 20, 2013 through December 31, 2014. In addition, from inception through December 31, 2017, \$169.8 million of distributions were reinvested in our common stock as a result of our distribution reinvestment plan, or DRIP. We have fully invested the proceeds from both our initial public offering and follow-on offering.

Note 2. Summary of Significant Accounting Policies

Critical Accounting Policies and Estimates

Accounting for Acquisitions

In accordance with the guidance for business combinations, we determine whether a transaction or other event is a business combination, which requires that the assets acquired and liabilities assumed constitute a business. Each business combination is then accounted for by applying the acquisition method. We capitalize acquisition-related costs and fees associated with asset acquisitions. We immediately expense acquisition-related costs and fees associated with business combinations. We record our investments in hotel properties based on the fair value of the identifiable assets acquired, identifiable intangible assets or liabilities acquired, liabilities assumed and any noncontrolling interest in the acquired entity, and if applicable, recognizing and measuring any goodwill or gain from a bargain purchase at the acquisition date. We allocate the purchase price among the assets acquired and liabilities assumed based on their respective fair values. In making estimates of fair value for purposes of allocating the purchase price, we utilize a variety of information obtained in connection with the acquisition of a hotel property, including valuations performed by independent third parties and information obtained about each hotel property resulting from pre-acquisition due diligence.

Impairments

We periodically assess whether there are any indicators that the value of our long-lived real estate and related intangible assets may be impaired or that their carrying value may not be recoverable. These impairment indicators include, but are not limited to, when a hotel property experiences a current or projected loss from operations, when it becomes more likely than not that a hotel property will be sold before the end of its useful life, or when there are adverse changes in the demand for lodging due to declining national or local economic conditions. We may incur impairment charges on long-lived assets, including real estate, related intangible assets, assets held for sale and equity investments. Our policies and estimates for evaluating whether these assets are impaired are presented below.

Real Estate — For real estate assets held for investment and related intangible assets in which an impairment indicator is identified, we follow a two-step process to determine whether an asset is impaired and to determine the amount of the charge. First, we compare the carrying value of the property's asset group to the estimated future net undiscounted cash flow that we expect the property's asset group will generate, including any estimated proceeds from the eventual sale of the property's asset group. The undiscounted cash flow analysis requires us to make our best estimate of, among other things, net operating income, residual values and holding periods.

Our investment objective is to hold properties on a long-term basis. Depending on the assumptions made and estimates used, the future cash flow projected in the evaluation of long-lived assets and associated intangible assets can vary within a range of outcomes. We consider the likelihood of possible outcomes in determining our estimate of future cash flows and, if warranted, we apply a probability-weighted method to the different possible scenarios. If the future net undiscounted cash flow of the property's asset group is less than the carrying value, the carrying value of the property's asset group is considered not recoverable. We then measure the loss as the excess of the carrying value of the property's asset group over its estimated fair value. The estimated fair value of the property's asset group is primarily determined using market information from outside sources such as broker quotes or recent comparable sales.

Assets Held for Sale — When we classify an asset as held for sale, we compare the asset's fair value less estimated cost to sell to its carrying value, and if the fair value to sell is less, we reduce the carrying value to the fair value less estimated cost to sell. We base the fair value on the contract and the estimated cost to sell on information provided by brokers and legal counsel. We will continue to review the property for subsequent changes in fair value and may recognize an additional impairment charge, if warranted.

Equity Investments in Real Estate — We evaluate our equity investments in real estate on a periodic basis to determine if there are any indicators that the value of our equity investment may be impaired and whether or not that impairment is other-than-temporary. To the extent an impairment has occurred and is determined to be other-than-temporary, we measure the charge as the excess of the carrying value of our investment over its estimated fair value.

Other Accounting Policies

Basis of Consolidation — Our consolidated financial statements reflect all of our accounts, including those of our controlled subsidiaries. The portions of equity in consolidated subsidiaries that are not attributable, directly or indirectly, to us are presented as noncontrolling interests. All significant intercompany accounts and transactions have been eliminated.

When we obtain an economic interest in an entity, we evaluate the entity to determine if it should be deemed a variable interest entity, or VIE, and, if so, whether we are the primary beneficiary and are therefore required to consolidate the entity. We apply accounting guidance for consolidation of VIEs to certain entities in which the equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. Certain decision-making rights within a loan or joint-venture agreement can cause us to consider an entity a VIE. Limited partnerships and other similar entities which operate as a partnership will be considered a VIE unless the limited partners hold substantive kick-out rights or participation rights. Significant judgment is required to determine whether a VIE should be consolidated. We review the contractual arrangements provided for in the partnership agreement or other related contracts to determine whether the entity is considered a VIE, and to establish whether we have any variable interests in the VIE. We then compare our variable interests, if any, to those of the other variable interest holders to determine which party is the primary beneficiary of the VIE based on whether the entity (i) has the power to direct the activities that most significantly impact the economic performance of the VIE and (ii) has the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE. The liabilities of these VIEs are non-recourse to us and can only be satisfied from each VIE's respective assets.

At both December 31, 2017 and 2016, we considered five entities to be VIEs, four of which we consolidated as we are considered the primary beneficiary. The following table presents a summary of selected financial data of consolidated VIEs included in the consolidated balance sheets (in thousands):

	December 31,	
	2017	2016
Net investments in hotels	\$ 501,287	\$ 518,335
Intangible assets, net	38,649	39,451
Total assets	579,807	587,608
Non-recourse debt, net	\$ 341,563	\$ 341,082
Total liabilities	373,548	372,991

Out-of-Period Adjustment — During the third quarter of 2016, we identified and recorded an out-of-period adjustment related to a difference between the tax basis and financial reporting basis of certain villa/condo rental management agreements that were entered into upon the acquisition of two hotels during the second quarter of 2015, which resulted in a deferred tax liability. We concluded that this adjustment was not material to our consolidated financial statements for the year ended December 31, 2016 or prior periods presented. The adjustment is reflected as an increase of \$4.9 million to Net investments in hotels and a corresponding increase to Accounts payable, accrued expenses and other liabilities in the consolidated balance sheet as of December 31, 2016.

Share Repurchases — Share repurchases are recorded as a reduction of common stock par value and additional paid-in capital under our redemption plan, pursuant to which we may elect to redeem shares at the request of our stockholders, subject to certain exceptions, conditions, and limitations. The maximum amount of shares purchasable by us in any period depends on a number of factors and is at the discretion of our board of directors.

Real Estate — We carry land, buildings and personal property at cost less accumulated depreciation. We capitalize improvements and we expense replacements, maintenance and repairs that do not improve or extend the life of the respective assets as incurred. Renovations and/or replacements at the hotel properties that improve or extend the life of the assets are capitalized and depreciated over their useful lives, and repairs and maintenance are expensed as incurred. We capitalize interest and certain other costs, such as incremental labor costs relating to hotels undergoing major renovations and redevelopments.

Assets Held for Sale — We classify real estate assets as held for sale when we have entered into a contract to sell the property, all material due diligence requirements have been satisfied, or we believe it is probable that the disposition will occur within one year. Assets held for sale are recorded at the lower of carrying value or estimated fair value, less estimated costs to sell.

In the unlikely event that we decide not to sell a property previously classified as held for sale, we reclassify the property as held and used. We measure and record a property that is reclassified as held and used at the lower of (i) its carrying amount before the property was classified as held for sale, adjusted for any depreciation expense that would have been recognized had the property been continuously classified as held and used or (ii) the estimated fair value at the date of the subsequent decision not to sell.

We recognize gains and losses on the sale of properties when, among other criteria, we no longer have continuing involvement, the parties are bound by the terms of the contract, all consideration has been exchanged, and all conditions precedent to closing have been performed. At the time the sale is consummated, a gain or loss is recognized as the difference between the sale price, less any selling costs, and the carrying value of the property.

Cash — Our cash is held in the custody of several financial institutions, and these balances, at times, exceed federally-insurable limits. We seek to mitigate this risk by depositing funds only with major financial institutions.

Restricted Cash — Restricted cash consists primarily of amounts escrowed pursuant to the terms of our mortgage debt to fund planned renovations and improvements, property taxes, insurance, and normal replacement of furniture, fixtures and equipment at our hotels.

Other Assets and Liabilities — At both December 31, 2017 and 2016, Other assets consists primarily of prepaid expenses, deposits, hotel inventories, deferred tax asset and derivative assets in the consolidated financial statements. At both December 31, 2017 and 2016, Other liabilities consists primarily of hotel advance deposits, straight-line rent, sales use and occupancy taxes payable, intangible liabilities, unamortized key money, deferred tax liabilities, asset retirement obligations, accrued income taxes and derivative liabilities. At December 31, 2017, Other liabilities also includes business interruption insurance advances that have been received, but for which the claim has not been settled.

Deferred Financing Costs — Deferred financing costs represent costs to obtain mortgage financing. We amortize these charges to interest expense over the term of the related mortgage using a method which approximates the effective interest method. Deferred financing costs are presented in the consolidated balance sheet as a direct deduction from the carrying amount of that debt liability.

Segments — We operate in one business segment, hospitality, with domestic investments.

Hotel Revenue Recognition — We recognize revenue from operations of our hotels as the related services are provided. Our hotel revenues are comprised of hotel operating revenues (such as room, food and beverage) and revenue from other operating departments (such as internet, spa services, parking and gift shops). These revenues are recorded net of any sales or occupancy taxes collected from our guests as earned. All rebates or discounts are recorded as a reduction in revenue and there are no material contingent obligations with respect to rebates or discounts offered by us. All revenues are recorded on an accrual basis, as earned. Appropriate allowances are made for doubtful accounts and are recorded as a bad debt expense.

We do not have any time-share arrangements and do not sponsor any frequent guest programs for which we would have any contingent liability. We participate in frequent guest programs sponsored by our hotel brands and we expense the charges associated with those programs (typically consisting of a percentage of the total guest charges incurred by a participating guest) as incurred. When a guest redeems accumulated frequent guest points at one of our hotels, the hotel bills the brand sponsor for the services provided in redemption of such points and records revenue in the amount of the charges billed to the brand sponsor. We have no loss contingencies or ongoing obligation associated with frequent guest programs beyond what is paid to the brand sponsor following a guest's stay.

Asset Retirement Obligations — Asset retirement obligations relate to the legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and/or normal operation of a long-lived asset. The fair value of a liability for an asset retirement obligation is recorded in the period in which it is incurred and the cost of such liability is recorded as an increase in the carrying amount of the related long-lived asset by the same amount. The liability is accreted each period and the capitalized cost is depreciated over the estimated remaining life of the related long-lived asset. Revisions to estimated retirement obligations result in adjustments to the related capitalized asset and corresponding liability.

In order to determine the fair value of the asset retirement obligations, we make certain estimates and assumptions including, among other things, projected cash flows, the borrowing interest rate and an assessment of market conditions that could significantly impact the estimated fair value. These estimates and assumptions are subjective.

Capitalized Costs — We capitalize interest and certain other costs, such as property taxes, land leases, property insurance and incremental labor costs relating to hotels undergoing major renovations and redevelopments. We begin capitalizing interest as we incur disbursements, and capitalize other costs when activities necessary to prepare the asset ready for its intended use are underway. We cease capitalizing these costs when construction is substantially complete.

Depreciation and Amortization — We compute depreciation for hotels and related building improvements using the straight-line method over the estimated useful lives of the properties (limited to 40 years for buildings and ranging from four years up to the remaining life of the building at the time of addition for building improvements), site improvements (generally four to 15 years) and furniture, fixtures and equipment (generally one to 12 years).

We compute amortization of intangible assets and liabilities using the straight-line method over the estimated useful life of the asset or liability. See [Note 6](#) for the range of lives by asset or liability.

Derivative Instruments — We measure derivative instruments at fair value and record them as assets or liabilities, depending on our rights or obligations under the applicable derivative contract. Derivatives that are not designated as hedges must be adjusted to fair value through earnings. For a derivative designated and qualified as a cash flow hedge, the effective portion of the change in fair value of the derivative is recognized in Other comprehensive loss until the hedged item is recognized in earnings.

The ineffective portion of a derivative's change in fair value is immediately recognized in earnings. In accordance with fair value measurement guidance, counterparty credit risk is measured on a net portfolio position basis.

Income Taxes — We elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code. In order to maintain our qualification as a REIT, we are required, among other things, to distribute at least 90% of our REIT net taxable income to our stockholders and meet certain tests regarding the nature of our income and assets. As a REIT, we are not subject to federal income taxes on our income and gains that we distribute to our stockholders as long as we satisfy certain requirements, principally relating to the nature of our income and the level of our distributions, as well as other factors. We believe that we have operated, and we intend to continue to operate, in a manner that allows us to continue to qualify as a REIT.

We conduct business in various states and municipalities within the United States, and, as a result, we or one or more of our subsidiaries file income tax returns in the U.S. federal jurisdiction and various state jurisdictions. As a result, we are subject to certain state and local taxes and a provision for such taxes is included in the consolidated financial statements.

We elect to treat certain of our corporate subsidiaries as taxable REIT subsidiaries, or TRSs. In general, a TRS may perform additional services for our investments and generally may engage in any real estate or non-real estate-related business (except for the operation or management of health care facilities or lodging facilities or providing to any person, under a franchise, license or otherwise, rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal, state and local income taxes.

Significant judgment is required in determining our tax provision and in evaluating our tax positions. We establish tax reserves based on a benefit recognition model, which could result in a greater amount of benefit (and a lower amount of reserve) being initially recognized in certain circumstances. Provided that the tax position is deemed more likely than not of being sustained, we recognize the largest amount of tax benefit that is greater than 50% likely of being ultimately realized upon settlement. We derecognize the tax position when it is no longer more likely than not of being sustained.

Our earnings and profits, which determine the taxability of distributions to stockholders, differ from net income reported for financial reporting purposes due primarily to differences in depreciation and timing differences of certain income and expense recognitions, for federal income tax purposes. Deferred income taxes relate primarily to our TRSs and are accounted for using the asset and liability method. Under this method, deferred income taxes are recognized for temporary differences between the financial reporting bases of assets and liabilities of our TRSs and their respective tax bases and for their operating loss and tax credit carry forwards based on enacted tax rates expected to be in effect when such amounts are realized or settled. However, deferred tax assets are recognized only to the extent that it is more likely than not that they will be realized based on consideration of available evidence, including tax planning strategies and other factors ([Note 13](#)).

We recognize deferred income taxes in certain of our subsidiaries taxable in the United States. Deferred income taxes are generally the result of temporary differences (items that are treated differently for tax purposes than for U.S. generally accepted accounting principles, or GAAP, purposes as described in [Note 13](#)). In addition, deferred tax assets arise from unutilized tax net operating losses, generated in prior years. Deferred income taxes are computed under the asset and liability method. The asset and liability method requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between tax bases and financial bases of assets and liabilities. We provide a valuation allowance against our deferred income tax assets when we believe that it is more likely than not that all or some portion of the deferred income tax asset may not be realized. Whenever a change in circumstances causes a change in the estimated realizability of the related deferred income tax asset, the resulting increase or decrease in the valuation allowance is included in deferred income tax expense (benefit).

Share-Based Payments — We have granted restricted stock units, or RSUs, to our independent directors and certain employees of the Subadvisor. RSUs issued to our independent directors vest immediately; RSUs issued to employees of the Subadvisor generally vest over three years, subject to continued employment. The expense recognized for share-based payment transactions for awards made to directors is based on the grant date fair value estimated in accordance with current accounting guidance for share-based payments. Share-based payment transactions for awards made to employees of the Subadvisor are based on the fair value of the services received. We recognize these compensation costs only for those shares expected to vest on a straight-line basis over the requisite service period of the award. We include share based payment transactions within Corporate general and administrative expense.

Income or Loss Attributable to Noncontrolling Interests — Earnings attributable to noncontrolling interests are recognized in accordance with each respective investment agreement and, where applicable, based upon the allocation of the investment's net assets at book value as if the investment was hypothetically liquidated at the end of each reporting period.

Income (Loss) Per Share — We have a simple equity capital structure with only common stock outstanding. As a result, income (loss) per share, as presented, represents both basic and dilutive per-share amounts for all periods presented in the consolidated financial statements.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in our consolidated financial statements and the accompanying notes. Actual results could differ from those estimates.

Recent Accounting Requirements

The following Accounting Standards Updates, or ASUs, promulgated by the Financial Accounting Standards Board, or FASB, are applicable to us:

Pronouncement Adopted as of December 31, 2017

In October 2016, the FASB issued *ASU 2016-17, Consolidation (Topic 810): Interests Held through Related Parties That Are under Common Control*. ASU 2016-17 changes how a reporting entity that is a decision maker should consider indirect interests in a VIE held through an entity under common control. If a decision maker must evaluate whether it is the primary beneficiary of a VIE, it will only need to consider its proportionate indirect interest in the VIE held through a common control party. ASU 2016-17 amends ASU 2015-02, which we adopted on January 1, 2016, and which currently directs the decision maker to treat the common control party's interest in the VIE as if the decision maker held the interest itself. ASU 2016-17 is effective for public business entities in fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. We adopted ASU 2016-17 as of January 1, 2017 on a prospective basis. The adoption of this standard did not have a material impact on our consolidated financial statements.

Pronouncements to be Adopted after December 31, 2017

In May 2014, the FASB issued *ASU 2014-09, Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 supersedes or replaces nearly all GAAP revenue recognition guidance. The new guidance establishes a new control-based revenue recognition model that changes the basis for deciding when revenue is recognized over time or at a point in time and expands the disclosures about revenue. The new guidance also applies to sales of real estate and the new principles-based approach is largely based on the transfer of control of the real estate to the buyer. We adopted this guidance for our interim and annual periods beginning January 1, 2018 using the modified retrospective method. We performed a comprehensive evaluation of the impact of the new standard across our revenue streams, and determined that the timing of revenue recognition and its classification in our consolidated financial statements will remain substantially unchanged, however, additional disclosures will be required as a result of implementation.

In February 2016, the FASB issued *ASU 2016-02, Leases (Topic 842)*. ASU 2016-02 outlines a new model for accounting by lessees, whereby their rights and obligations under substantially all leases, existing and new, would be capitalized and recorded on the balance sheet. For lessors, however, the accounting remains largely unchanged from the current model, with the distinction between operating and financing leases retained, but updated to align with certain changes to the lessee model and the new revenue recognition standard. Additionally, the new standard requires extensive quantitative and qualitative disclosures. The new standard must be adopted using a modified retrospective transition of the new guidance and provides for certain practical expedients. Transition will require application of the new model at the beginning of the earliest comparative period presented. We will adopt this guidance for our interim and annual periods beginning January 1, 2019. We have not yet completed our analysis on this new standard, but we believe the application of the new standard will result in the recording of a right-of-use asset and a lease liability on the consolidated balance sheet for each of our ground leases at fair value upon adoption.

In August 2016, the FASB issued *ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 intends to reduce diversity in practice for certain cash flow classifications, including, but not limited to (i) debt prepayment or debt extinguishment costs, (ii) contingent consideration payments made after a business combination, (iii) proceeds from the settlement of insurance claims, (iv) distributions received from equity method investees and (v) separately identifiable cash flows and application of the predominance principle. ASU 2016-15 will be effective for

public business entities in fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, with early application of the guidance permitted. We adopted this guidance for our interim and annual periods beginning January 1, 2018. The adoption of ASU 2016-15 is not expected to have a material quantitative impact on our consolidated financial statements.

In November 2016, the FASB issued *ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash*. ASU 2016-18 intends to reduce diversity in practice for the classification and presentation of changes in restricted cash on the statement of cash flows. ASU 2016-18 requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. ASU 2016-18 will be effective for public business entities in fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted. We adopted this guidance for our interim and annual periods beginning January 1, 2018. The adoption of ASU 2016-18 is expected to have a material quantitative impact on our consolidated financial statements, however the qualitative impact is expected to be minimal.

In January 2017, the FASB issued *ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business*. ASU 2017-01 clarifies the definition of a business with the objective of adding guidance to assist companies and other reporting organizations with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The changes to the definition of a business will likely result in more acquisitions being accounted for as asset acquisitions across all industries. The guidance is effective for annual reporting periods beginning after December 15, 2017, and the interim periods within those annual periods. We adopted this guidance for our interim and annual periods beginning January 1, 2018. We expect that certain future hotel acquisitions may be considered asset acquisitions rather than business combinations, which would affect the capitalization of acquisition costs (such costs are expensed for business combinations and capitalized for asset acquisitions).

In February 2017, the FASB issued *ASU 2017-05, Other Income — Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20)*. ASU 2017-05 clarifies that a financial asset is within the scope of Subtopic 610-20 if it meets the definition of an in substance nonfinancial asset. The amendments define the term “in substance nonfinancial asset,” in part, as a financial asset promised to a counterparty in a contract if substantially all of the fair value of the assets (recognized and unrecognized) that are promised to the counterparty in the contract is concentrated in nonfinancial assets. If substantially all of the fair value of the assets that are promised to the counterparty in a contract is concentrated in nonfinancial assets, then all of the financial assets promised to the counterparty are in substance nonfinancial assets within the scope of Subtopic 610-20. This amendment also clarifies that nonfinancial assets within the scope of Subtopic 610-20 may include nonfinancial assets transferred within a legal entity to a counterparty. For example, a parent company may transfer control of nonfinancial assets by transferring ownership interests in a consolidated subsidiary. ASU 2017-05 is effective for periods beginning after December 15, 2017, with early application permitted for fiscal years beginning after December 15, 2016. We adopted this guidance for our interim and annual periods beginning January 1, 2018. The adoption of ASU 2016-18 is not expected to have a material impact on our consolidated financial statements.

In August 2017, the FASB issued *ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*. ASU 2017-12 will make more financial and nonfinancial hedging strategies eligible for hedge accounting. It also amends the presentation and disclosure requirements and changes how companies assess hedge effectiveness. It is intended to more closely align hedge accounting with companies’ risk management strategies, simplify the application of hedge accounting, and increase transparency as to the scope and results of hedging programs. ASU 2017-12 will be effective in fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. We are in the process of evaluating the impact of adopting ASU 2017-12 on our consolidated financial statements, and expect to adopt the standard for the fiscal year beginning January 1, 2019.

Note 3. Agreements and Transactions with Related Parties

Agreements with our Advisor and Affiliates

We have an advisory agreement with our Advisor, which we refer to herein as the Advisory Agreement, to perform certain services for us under a fee arrangement, including managing our overall business, our investments, and certain administrative duties. The Advisory Agreement has a term of one year and may be renewed for successive one-year periods. Our Advisor also has a subadvisory agreement with the Subadvisor, which we refer to herein as the Subadvisory Agreement, whereby our Advisor pays 20% of its fees earned under the Advisory Agreement to the Subadvisor in return for certain personnel services.

The following tables present a summary of fees we paid; expenses we reimbursed and distributions we made to our Advisor, the Subadvisor and other affiliates, as described below, in accordance with the terms of those agreements (in thousands):

	Years Ended December 31,		
	2017	2016	2015
Amounts Included in the Consolidated Statements of Operations			
Asset management fees	\$ 14,499	\$ 14,120	\$ 11,757

Due to CWI 2	217	—
Due to joint venture partners and other	158	115
	\$ 3,611	\$ 2,628

Asset Management Fees, Dispositions Fees and Loan Refinancing Fees

We pay our Advisor an annual asset management fee equal to 0.5% of the aggregate Average Market Value of our Investments, both as defined in the Advisory Agreement with our Advisor. Our Advisor is also entitled to receive disposition fees of up to 1.5% of the contract sales price of a property, as well as a loan refinancing fee of up to 1.0% of the principal amount of a refinanced loan, if certain conditions described in the Advisory Agreement are met. If our Advisor elects to receive all or a portion of its fees in shares, the number of shares issued is determined by dividing the dollar amount of fees by our most recently published estimated net asset value per share, or NAV. At our Advisor's election, we paid our asset management fees in shares of our common stock for the year ended December 31, 2017 and in cash for the years ended December 31, 2016 and 2015. For the years ended December 31, 2017 and 2015, and \$13.2 million and \$1.0 million, respectively, in asset management fees were settled in shares of our common stock. The fees settled in shares during the year ended December 31, 2015 related to fees incurred during the fourth quarter of 2014. No such fees were settled in shares during the year ended December 31, 2016. At December 31, 2017, our Advisor owned 2,920,268 shares (2.1%) of our outstanding common stock. Asset management fees are included in Asset management fees to affiliate and other expenses in the consolidated financial statements.

Available Cash Distributions

Carey Watermark Holdings' special general partner interest entitles it to receive distributions of 10% of Available Cash, as defined in the agreement of limited partnership of the Operating Partnership, or Available Cash Distributions, generated by the Operating Partnership, subject to certain limitations. In addition, in the event of the dissolution of the Operating Partnership, Carey Watermark Holdings will be entitled to receive distributions of up to 15% of net proceeds, provided certain return thresholds are met for the initial investors in the Operating Partnership. Available Cash Distributions are included in (Income) Loss attributable to noncontrolling interests in the consolidated financial statements.

Personnel and Overhead Reimbursements/Reimbursable Costs

Under the terms of the Advisory Agreement, our Advisor generally allocates expenses of dedicated and shared resources, including the cost of personnel, rent and related office expenses, between us and our affiliate, Carey Watermark Investors 2 Incorporated, or CWI 2, based on total pro rata hotel revenues on a quarterly basis. CWI 2 is a publicly owned, non-listed REIT that is also advised by our Advisor and invests in lodging and lodging-related properties. Pursuant to the Subadvisory Agreement, after we reimburse our Advisor, it will subsequently reimburse the Subadvisor for personnel costs and other charges, including the services of our Chief Executive Officer, subject to the approval of our board of directors. We have also granted restricted stock units to employees of the Subadvisor pursuant to our 2010 Equity Incentive Plan. These reimbursements are included in Corporate general and administrative expenses and Due to related parties and affiliates in the consolidated financial statements.

Acquisition Fees to our Advisor

We pay our Advisor acquisition fees of 2.5% of the total investment cost of the properties acquired, as defined in the Advisory Agreement, described above, including on our proportionate share of equity method investments and loans originated by us. The total fees paid may not exceed 6% of the aggregate contract purchase price of all investments and loans, as measured over a period specified by the Advisory Agreement.

Other Amounts Due to our Advisor

This balance primarily represented asset management fees payable to our Advisor.

*Other Transactions with Affiliates**WPC Line of Credit*

During the first quarter of 2017, our board of directors and the board of directors of WPC approved unsecured loans from WPC to us of up to \$25.0 million, at an interest rate equal to the rate at which WPC was able to borrow funds under its senior unsecured credit facility, which we refer to as the WPC Line of Credit, for the purpose of replacing our Senior Credit Facility ([Note 9](#)). On March 23, 2017, we borrowed \$22.8 million from WPC at the London Interbank Offered Rate, or LIBOR, plus 1.0% and a maturity date of March 22, 2018 and simultaneously repaid and terminated our Senior Credit Facility. As further discussed below, the WPC Line of Credit was replaced by the Working Capital Facility (defined below).

WPC Credit Facility

During the third quarter of 2017, our board of directors and the board of directors of WPC approved secured loans from WPC to us of up to \$100.0 million for acquisition funding purposes and \$25.0 million for working capital purposes. On September 26, 2017, we entered into a secured credit facility, or the WPC Credit Facility, with our Operating Partnership as borrower and WPC as lender. The WPC Credit Facility consists of (i) a bridge term loan of \$75.0 million, or the Bridge Loan, for the purpose of acquiring an interest in the Ritz-Carlton Bacara, Santa Barbara Venture ([Note 5](#)) and (ii) a \$25.0 million revolving working capital facility, or the Working Capital Facility, to be used for our working capital needs. The Working Capital Facility replaced the WPC Line of Credit, which had an outstanding principal balance of \$22.8 million on that date and a maturity date of March 22, 2018. Unless the Advisory Agreement expires or is terminated, the Bridge Loan and Working Capital Facility are scheduled to mature on June 30, 2018 and December 31, 2018, respectively. We can request a three month extension of the Bridge Loan, which WPC may grant in its sole discretion. Both loans bear interest at LIBOR plus 1.0%; provided however, that upon the occurrence of certain events of default (as defined in the loan agreement), all outstanding amounts will be subject to a 2% annual interest rate increase. We serve as guarantor of the WPC Credit Facility and have pledged our unencumbered equity interests in certain properties as collateral, as further described in the pledge and security agreement entered into between the borrower and lender. On September 27, 2017, the Operating Partnership drew down \$75.0 million from the Bridge Loan to acquire our interest in the Ritz-Carlton Bacara, Santa Barbara. During the fourth quarter of 2017, we repaid a total of \$14.2 million towards the Bridge Loan and \$15.0 million towards the Working Capital Facility.

The WPC Credit Facility includes various customary affirmative and negative covenants. We were in compliance with all applicable covenants at December 31, 2017.

At December 31, 2017, the outstanding balances under the Bridge Loan and Working Capital Facility were \$60.8 million and \$7.8 million, respectively, with \$17.2 million available to be drawn on the Working Capital Facility. On January 16, 2018, we borrowed \$10.0 million from WPC under the Working Capital Facility ([Note 15](#)) and on February 15, 2018, we repaid \$20.0 million towards the Bridge Loan and \$17.0 million towards the Working Capital Facility ([Note 15](#)).

Jointly-Owned Investments

At December 31, 2017, we owned interests in three jointly-owned investments with CWI 2: the Ritz-Carlton Key Biscayne, a Consolidated Hotel, and the Marriott Sawgrass Golf Resort & Spa and the Ritz-Carlton Bacara, Santa Barbara, both Unconsolidated Hotels. A third-party also owns an interest in the Ritz-Carlton Key Biscayne.

Note 4. Net Investments in Hotels

Net investments in hotels are summarized as follows (in thousands):

	December 31,	
	2017	2016
Buildings	\$ 1,554,798	\$ 1,670,895
Land	359,383	380,970
Furniture, fixtures and equipment	123,595	122,155
Building and site improvements	122,273	89,667
Construction in progress	12,691	26,855
Hotels, at cost	2,172,740	2,290,542
Less: Accumulated depreciation	(227,616)	(176,423)
Net investments in hotels	<u>\$ 1,945,124</u>	<u>\$ 2,114,119</u>

During the years ended December 31, 2017 and 2016, we retired fully depreciated furniture, fixtures and equipment aggregating \$11.8 million and \$12.2 million, respectively.

Weather-Related Disruption

Hurricane Irma made landfall in September 2017, impacting five of our Consolidated Hotels; Hawks Cay Resort, Marriott Boca Raton at Boca Center, Ritz-Carlton Key Biscayne, Ritz-Carlton Fort Lauderdale and Staybridge Suites Savannah Historic District. All five hotels sustained damage and all except for Marriott Boca Raton at Boca Center, which was sold during the first quarter of 2018 (Note 15), were forced to close for a period of time. Additionally, in October 2017, as a result of evacuations caused by wildfires in the Northern California region, the Fairmont Sonoma Inn & Spa was closed for six days, resulting in lost revenue. During the year ended December 31, 2017, we recognized a loss of \$7.0 million in our consolidated financial statements as a result of hurricane-related damage and disruptions, which is presented below, representing, in the aggregate, the property damage insurance deductible on certain hotels and our best estimate of uninsured losses for the remaining hotels that have not yet reached their property damage insurance deductible as of December 31, 2017.

(in thousands)

	Year Ended December 31, 2017
Write-off of Fixed assets	\$ 25,346
Write-off of Inventory	445
Remediation work performed	14,286
Property damage insurance advances received	(18,302)
Property damage insurance receivables	(14,767)
	<u>\$ 7,008</u>

As of December 31, 2017, we have received business interruption insurance proceeds of \$9.0 million and have recorded a corresponding payable within Accounts payable, accrued expenses and other liabilities in our consolidated financial statements as of December 31, 2017 as the claims have not yet been settled.

We are still assessing the impact of the hurricane on our hotels, and the final net book value write-offs could vary significantly from our estimate and additional remediation work may be performed. Any changes to property damage estimates will be recorded in the periods in which they are determined, and any additional remediation work will be recorded in the periods in which it is performed.

Property Dispositions and Assets and Liabilities Held for Sale

On February 1, 2017, we sold our 100% ownership interests in each of the Hampton Inn Frisco Legacy Park, the Hampton Inn Birmingham Colonnade and the Hilton Garden Inn Baton Rouge Airport to an unaffiliated third party for a contractual sales price of \$33.0 million and net proceeds of approximately \$7.4 million. The seller assumed the outstanding non-recourse debt on the three properties totaling \$26.5 million. We recognized a loss on sale of \$0.4 million during the first quarter of 2017. These three properties comprised the held for sale balance at December 31, 2016.

On May 11, 2017, we sold our 100% ownership interest in the Hampton Inn Boston Braintree to an unaffiliated third party for a contractual sales price of \$19.0 million and net proceeds of approximately \$6.6 million. During the second quarter of 2017, we recognized a gain on sale of \$5.5 million, which is net of a \$0.6 million participation management fee that was incurred as a result of the disposition and paid to StepStone Hospitality, the hotel management company, pursuant to the management agreement.

At December 31, 2017, we had three properties classified as held for sale. These properties were disposed of subsequent to December 31, 2017 ([Note 15](#)).

Below is a summary of our assets and liabilities held for sale (in thousands):

	December 31,	
	2017	2016
Net investments in hotels	\$ 104,062	\$ 32,300
Restricted cash	3,293	2,089
Accounts receivable	681	169
Other assets	377	465
Intangible assets, net	4	—
Assets held for sale	<u>\$ 108,417</u>	<u>\$ 35,023</u>
Non-recourse debt, net attributable to Assets held for sale	\$ 71,887	\$ 26,560
Accounts payable, accrued expenses and other liabilities	2,889	789
Due to related parties and affiliates	—	8
Other liabilities held for sale	<u>\$ 2,889</u>	<u>\$ 797</u>

Construction in Progress

At December 31, 2017 and 2016, construction in progress, recorded at cost, was \$12.7 million and \$26.9 million, respectively, and related primarily to renovations at the Marriott Raleigh City Center, the Equinox, a Luxury Collection Golf Resort & Spa, the Sheraton Austin Hotel at the Capitol and the Ritz-Carlton Fort Lauderdale at December 31, 2017, and renovations at the Ritz-Carlton Key Biscayne and the Westin Pasadena at December 31, 2016 ([Note 10](#)). We capitalize interest expense and certain other costs, such as property taxes, property insurance, utilities expense and hotel incremental labor costs, related to hotels undergoing major renovations. During the years ended December 31, 2017 and 2016, we capitalized \$1.3 million and \$2.1 million, respectively, of such costs. At December 31, 2017, 2016 and 2015, accrued capital expenditures were \$6.0 million, \$2.3 million and \$12.6 million, respectively, representing non-cash investing activity.

Asset Retirement Obligation

We have recorded an asset retirement obligation for the removal of asbestos and environmental waste in connection with three of our Consolidated Hotels. We estimated the fair value of the asset retirement obligation based on the estimated economic life of the hotel and the estimated removal costs. The liability was discounted using the weighted-average interest rate on the associated fixed-rate mortgage loan at the time the liability was incurred. At December 31, 2017 and 2016, our asset retirement obligation was \$1.5 million and \$1.4 million, respectively, and is included in Accounts payable, accrued expenses and other liabilities in the consolidated financial statements.

2016 Acquisition

On February 17, 2016, we acquired a 100% interest in the Equinox, a Luxury Collection Golf Resort & Spa, or the Equinox, which includes real estate and other hotel assets, net of assumed liabilities, totaling \$74.2 million. This acquisition was considered to be a business combination. In connection with this acquisition, we expensed acquisition costs of \$4.0 million (of which \$3.7 million was expensed during the year ended December 31, 2016 and \$0.3 million was expensed during the year ended December 31, 2015), including acquisition fees of \$2.2 million paid to our Advisor. We obtained a non-recourse mortgage loan on the property of \$46.5 million upon acquisition ([Note 9](#)). Subsequently, on August 26, 2016, we acquired a single-family residence adjacent to the hotel for a purchase price of \$0.8 million, which we renovated to create additional

available rooms and event space at the resort. This acquisition was considered to be an asset acquisition. In connection with this acquisition, we capitalized acquisition costs of \$0.2 million, including acquisition fees paid to our Advisor of less than \$0.1 million.

The following tables present a summary of assets acquired and liabilities assumed in this business combination at the date of acquisition, and revenues and earnings thereon since the date of acquisition through December 31, 2016 (in thousands):

Acquisition Date	Equinox ^(a)	
	February 17, 2016	
Cash consideration	\$	74,224
Assets acquired at fair value:		
Land	\$	14,800
Building and site improvements		59,219
Furniture, fixtures and equipment		1,100
Accounts receivable		534
Other assets		854
Liabilities assumed at fair value:		
Accounts payable, accrued expenses and other liabilities		(2,283)
Net assets acquired at fair value	\$	74,224
		From Acquisition Date through December 31, 2016
Revenues	\$	18,621
Net income	\$	2,670

(a) Excludes the asset adjacent to this hotel that was acquired on August 26, 2016, which was not considered a business combination.

Pro Forma Financial Information

The following unaudited consolidated pro forma financial information presents our financial results as if our acquisitions, which are accounted for as business combinations, that we completed during the year ended December 31, 2015, and the new financings related to these acquisitions, had occurred on January 1, 2014. The pro forma financial information is not necessarily indicative of what the actual results would have been had the acquisitions actually occurred on January 1, 2014, nor does it purport to represent the results of operations for future periods. Our acquisition of the Equinox hotel completed during the year ended December 31, 2016 was not deemed significant for pro forma purposes and therefore, the pro forma results for this acquisition are not included in the following pro forma financial information.

(Dollars in thousands, except per share amounts)

	Year Ended December 31, 2015	
Pro forma total revenues	\$	634,923
Pro forma net loss	\$	(3,337)
Pro forma income attributable to noncontrolling interests		(1,570)
Pro forma loss attributable to CWI stockholders	\$	(4,907)
Pro forma loss per share:		
Basic and diluted pro forma net loss attributable to CWI stockholders	\$	(0.04)
Basic and diluted pro forma weighted-average shares outstanding		131,296,033

The pro forma weighted-average shares outstanding were determined as if the number of shares issued in our public offerings in order to raise the funds used for our Consolidated Hotel acquisitions that we completed during the years ended December 31, 2015 were issued on January 1, 2014. All acquisition costs for our acquisitions completed during the year ended December 31, 2015 are presented as if they were incurred on January 1, 2014.

Note 5. Equity Investments in Real Estate

At December 31, 2017, we owned equity interests in four Unconsolidated Hotels, two with unrelated third parties and two with CWI 2. We do not control the ventures that own these hotels, but we exercise significant influence over them. We account for these investments under the equity method of accounting (i.e., at cost, increased or decreased by our share of earnings or losses, less distributions, plus contributions and other adjustments required by equity method accounting, such as basis differences from acquisition costs paid to our Advisor that we incur and other-than-temporary impairment charges, if any).

Under the conventional approach of accounting for equity method investments, an investor applies its percentage ownership interest to the venture's net income to determine the investor's share of the earnings or losses of the venture. This approach is inappropriate if the venture's capital structure gives different rights and priorities to its investors. We have priority returns on several of our equity method investments. Therefore, we follow the hypothetical liquidation at book value, or HLBV, method in determining our share of these ventures' earnings or losses for the reporting period as this method better reflects our claim on the ventures' book value at the end of each reporting period. Earnings for our equity method investments are recognized in accordance with each respective investment agreement and, where applicable, based upon the allocation of the investment's net assets at book value as if the investment were hypothetically liquidated at the end of each reporting period.

Ritz-Carlton Bacara, Santa Barbara Venture Acquisition

On September 28, 2017, we formed a tenancy-in-common venture with CWI 2 to acquire the Bacara Resort & Spa for \$380.0 million. We own a 40% interest in the venture and CWI 2 owns a 60% interest. Upon acquisition, the hotel was rebranded as the Ritz-Carlton Bacara, Santa Barbara and the manager was changed to Marriott International. The venture meets the definition of joint control as all decisions with respect to the ownership, management and operation of the hotel must be made on a unanimous basis between the two parties; therefore, we have accounted for our interest in this investment under the equity method of accounting. The venture obtained debt comprised of a \$175.0 million senior mortgage loan with a floating annual interest rate of LIBOR plus 2.8% and a \$55.0 million mezzanine loan with a floating annual interest rate of LIBOR plus 5.8%, both subject to interest rate caps. Both loans have maturity dates of September 28, 2021, with one-year extension options. Our initial investment in this venture, which represents our share of the purchase price and capitalized costs, including fees paid to our Advisor, was \$66.3 million at acquisition. We capitalized our share of acquisition costs totaling \$4.7 million, including acquisition fees of \$4.1 million paid to our Advisor. Our Advisor has elected to receive 50% of its acquisition fees in shares of our common stock and 50% in cash, which was approved by our board of directors. For the year ended December 31, 2017, \$2.1 million in acquisitions fees were settled in shares of our common stock.

Westin Atlanta Venture Disposition

On October 19, 2017, the Westin Atlanta Venture sold the Westin Atlanta Perimeter North to an unaffiliated third-party for a contractual sales price of \$85.5 million. We owned a 57% interest in the venture and received net proceeds of approximately \$25.9 million from the sale. We recognized a gain on sale of \$21.6 million, which is included in Equity in earnings of equity method investments in real estate, in the consolidated statement of operations.

Hurricane-Related Disruption

The Marriott Sawgrass Golf Resort & Spa was impacted by Hurricane Irma when it made landfall in September 2017. The hotel sustained damage and was forced to close for a period of time.

As of December 31, 2017, the estimated net book value of the property damage written-off by the Marriott Sawgrass Golf Resort & Spa Venture was \$4.9 million. In addition, there was \$1.5 million of remediation work that had been performed as of December 31, 2017. The venture recorded a corresponding accrued receivable of \$3.7 million for estimated insurance proceeds related to the net book value of the property damage written-off and the remediation work performed. The net impact to the Marriott Sawgrass Golf Resort & Spa Venture was \$2.7 million, representing in the aggregate, the property damage insurance deductible on two areas of the resort and our best estimate of uninsured losses for one area of the resort that has not yet reached its property damage insurance deductible.

We are still assessing the impact of the hurricane on the venture, and the final net book value write-offs could vary significantly from our estimate and additional remediation work may be performed. Any changes to the estimates for property damage will be recorded by the venture in the periods in which they are determined, and any additional remediation work will be recorded by the venture in the periods in which it is performed.

The following table sets forth our ownership interests in our equity investments in real estate and their respective carrying values. The carrying values of these ventures are affected by the timing and nature of distributions (dollars in thousands):

Unconsolidated Hotels	State	Number of Rooms	% Owned	Acquisition Date	Hotel Type	Carrying Value at December 31,	
						2017	2016
Ritz-Carlton Bacara, Santa Barbara Venture ^{(a) (b)}	CA	358	40%	9/28/2017	Resort	\$ 65,126	\$ —
Ritz-Carlton Philadelphia Venture ^(c)	PA	301	60%	5/15/2015	Full-service	38,469	38,261
Marriott Sawgrass Golf Resort & Spa Venture ^{(d) (e)}	FL	514	50%	4/1/2015	Resort	27,162	31,208
Hyatt Centric French Quarter Venture ^(f)	LA	254	80%	9/6/2011	Full-service	587	664
Westin Atlanta Venture ^{(g) (h)}	GA	372	57%	10/3/2012	Full-service	—	5,795
		<u>1,799</u>				<u>\$ 131,344</u>	<u>\$ 75,928</u>

(a) This investment represents a tenancy-in-common interest; the remaining 60% interest is owned by CWI 2.

(b) No cash distributions were received from this investment during the year ended December 31, 2017.

(c) We received cash distributions of \$2.5 million from this investment during the year ended December 31, 2017.

(d) This investment is considered a VIE (Note 2). We do not consolidate this entity because we are not the primary beneficiary and the nature of our involvement in the activities of the entity allows us to exercise significant influence but does not give us power over decisions that significantly affect the economic performance of the entity.

(e) We received cash distributions of \$3.3 million from this investment during the year ended December 31, 2017.

(f) We received cash distributions of \$1.0 million from this investment during the year ended December 31, 2017.

(g) We received cash distributions of \$2.2 million from this investment during the year ended December 31, 2017.

(h) On October 19, 2017, the venture sold the Westin Atlanta Perimeter North to an unaffiliated third-party.

The following table sets forth our share of equity in earnings from our Unconsolidated Hotels, which are based on the hypothetical liquidation at book value model, as well as certain amortization adjustments related to basis differentials from acquisitions of investments (in thousands):

Venture	Years Ended December 31,		
	2017	2016	2015
Westin Atlanta Venture ^(a)	\$ 22,302	\$ 860	\$ (372)
Ritz-Carlton Bacara, Santa Barbara Venture	(2,824)	—	—
Ritz-Carlton Philadelphia Venture	2,710	3,042	1,960
Hyatt Centric French Quarter Venture	776	701	660
Marriott Sawgrass Golf Resort & Spa Venture	(761)	629	170
Total equity in earnings of equity method investments in real estate	<u>\$ 22,203</u>	<u>\$ 5,232</u>	<u>\$ 2,418</u>

(a) Included in our share of equity in earnings for the year ended December 31, 2017 is the gain on sale of \$21.6 million.

No other-than-temporary impairment charges related to our investments in these ventures were recognized during the years ended December 31, 2017, 2016 or 2015.

At December 31, 2017 and 2016, the unamortized basis differences on our equity investments were \$7.2 million and \$3.3 million, respectively. Net amortization of the basis differences reduced the carrying values of our equity investments by \$0.2 million for each of the years ended December 31, 2017, 2016 and 2015.

Notes to Consolidated Financial Statements

The following tables present combined summarized financial information of our equity method investment entities. Amounts provided are the total amounts attributable to the ventures since our respective dates of acquisition and do not represent our proportionate share (in thousands):

(a) We purchased our 40% interest in this venture on September 28, 2017.

(b) Includes the Hyatt Centric French Quarter Venture and the Marriott Sawgrass Golf Resort & Spa Venture.

- (c) Includes the Hyatt Centric French Quarter Venture, the Westin Atlanta Venture and the Marriott Sawgrass Golf Resort & Spa Venture.
- (d) We purchased our 60% interest in this venture on May 15, 2015.
- (e) Other income and (expenses) for the year ended December 31, 2017 includes a gain on sale of investment of \$21.6 million, related to the Westin Atlanta Venture.
- (f) For the equity investments noted in footnotes (b) and (c), our respective ownership interest in each investment was applied to the results of each individual venture.

Note 6. Intangible Assets and Liabilities

Intangible assets and liabilities, included in Intangible assets, net and Accounts payable, accrued expenses and other liabilities, respectively, in the consolidated financial statements, are summarized as follows (dollars in thousands):

	Amortization Period (Years)	December 31, 2017			December 31, 2016		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Finite-Lived Intangible Assets							
Villa/condo rental programs	45 – 55	\$ 72,400	\$ (5,015)	\$ 67,385	\$ 72,400	\$ (3,510)	\$ 68,890
Below-market hotel ground leases and parking garage lease	10 – 93	11,655	(726)	10,929	11,655	(531)	11,124
In-place leases	8 – 21	135	(63)	72	235	(132)	103
Total intangible assets, net		<u>\$ 84,190</u>	<u>\$ (5,804)</u>	<u>\$ 78,386</u>	<u>\$ 84,290</u>	<u>\$ (4,173)</u>	<u>\$ 80,117</u>
Finite-Lived Intangible Liability							
Above-market hotel ground lease	85	<u>\$ (2,100)</u>	<u>\$ 89</u>	<u>\$ (2,011)</u>	<u>\$ (2,100)</u>	<u>\$ 64</u>	<u>\$ (2,036)</u>

Net amortization of intangibles was \$1.7 million, \$1.7 million and \$1.4 million for the years ended December 31, 2017, 2016 and 2015, respectively. Amortization of the villa/condo rental programs and in-place lease intangibles are included in Depreciation and amortization, and amortization of below-market hotel ground lease, below-market hotel parking garage lease and above-market hotel ground lease intangibles are included in Property taxes, insurance, rent and other in the consolidated financial statements.

Note 7. Fair Value Measurements

The fair value of an asset is defined as the exit price, which is the amount that would either be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guidance establishes a three-tier fair value hierarchy based on the inputs used in measuring fair value. These tiers are: Level 1, for which quoted market prices for identical instruments are available in active markets, such as money market funds, equity securities and U.S. Treasury securities; Level 2, for which there are inputs other than quoted prices included within Level 1 that are observable for the instrument, such as certain derivative instruments including interest rate caps and swaps; and Level 3, for securities that do not fall into Level 1 or Level 2 and for which little or no market data exists, therefore requiring us to develop our own assumptions.

Items Measured at Fair Value on a Recurring Basis

Derivative Assets and Liabilities — Our derivative assets and liabilities are comprised of interest rate swaps and caps that were measured at fair value using readily observable market inputs, such as quotations on interest rates. These derivative instruments were classified as Level 2 as these instruments are custom, over-the-counter contracts with various bank counterparties that are not traded in an active market ([Note 8](#)).

We did not have any transfers into or out of Level 1, Level 2 and Level 3 measurements during the years ended December 31, 2017 or 2016. Gains and losses (realized and unrealized) included in earnings are reported in Other income and (expenses) in the consolidated financial statements.

Our non-recourse debt, net, which we have classified as Level 3, had a carrying value of \$1.4 billion and \$1.5 billion, and an estimated fair value of \$1.4 billion and \$1.5 billion, at December 31, 2017 and 2016, respectively. We determined the estimated fair value using a discounted cash flow model with rates that take into account the interest rate risk. We also considered the value of the underlying collateral, taking into account the quality of the collateral and the then-current interest rate.

We estimated that our other financial assets and liabilities had fair values that approximated their carrying values at both December 31, 2017 and 2016.

Items Measured at Fair Value on a Non-Recurring Basis (Including Impairment Charges)

We periodically assess whether there are any indicators that the value of our real estate investments may be impaired or that their carrying value may not be recoverable.

For real estate assets held for investment and related intangible assets in which an impairment indicator is identified, we follow a two-step process to determine whether an asset is impaired and to determine the amount of the charge. First, we compare the carrying value of the property's asset group to the estimated future undiscounted net cash flows that we expect the property's asset group will generate, including any estimated proceeds from the eventual sale of the property's asset group. If this amount is less than the carrying value, the property's asset group is considered not recoverable. We then measure the impairment charge as the excess of the carrying value of the property's asset group over the estimated fair value of the property's asset group, which is primarily determined using market information from outside sources, such as broker quotes, recent comparable sales or third-party appraisals. If relevant market information is not available or is not deemed appropriate, we perform a future net cash flow analysis, discounted for the inherent risk associated with each investment.

We classify real estate assets as held for sale when we have entered into a contract to sell the property, all material due diligence requirements have been satisfied or we believe it is probable that the disposition will occur within one year. When we classify an asset as held for sale, we compare the asset's fair value less estimated cost to sell to its carrying value, and if the fair value less estimated cost to sell is less than the property's carrying value, we reduce the carrying value to the fair value less estimated cost to sell. We base the fair value on the contract and the estimated cost to sell on information provided by brokers and legal counsel. We will continue to review the property for subsequent changes in the fair value and may recognize an additional impairment charge, if warranted.

We determined that the significant inputs used to value these investments fall within Level 3 for fair value reporting. As a result of our assessments, we calculated an impairment charge based on market conditions and assumptions that existed at the time. The valuation of real estate is subject to significant judgment and actual results may differ materially if market conditions or the underlying assumptions change.

2016 — During the year ended December 31, 2016, we recognized impairment charges totaling \$4.1 million on three properties with an aggregate fair value measurement of \$33.0 million in order to reduce the carrying value of the properties to their estimated fair values. We did not recognize any impairment charges during the year ended December 31, 2017.

2015 — During the year ended December 31, 2015, we recognized an impairment charge of \$6.1 million on a property with a fair value measurement of \$8.0 million in order to reduce the carrying value of the property to its estimated fair value.

Note 8. Risk Management and Use of Derivative Financial Instruments***Risk Management***

In the normal course of our ongoing business operations, we encounter economic risk. There are two main components of economic risk that impact us: interest rate risk and market risk. We are primarily subject to interest rate risk on our interest-bearing assets and liabilities. Market risk includes changes in the value of our properties and related loans.

Derivative Financial Instruments

When we use derivative instruments, it is generally to reduce our exposure to fluctuations in interest rates. We have not entered into, and do not plan to enter into, financial instruments for trading or speculative purposes. In addition to entering into derivative instruments on our own behalf, we may also be a party to derivative instruments that are embedded in other contracts, which are considered to be derivative instruments. The primary risks related to our use of derivative instruments include a counterparty to a hedging arrangement defaulting on its obligation and a downgrade in the credit quality of a counterparty to such an extent that our ability to sell or assign our side of the hedging transaction is impaired. While we seek to mitigate these risks by entering into hedging arrangements with large financial institutions that we deem to be creditworthy, it is possible that our hedging transactions, which are intended to limit losses, could adversely affect our earnings. Furthermore, if we terminate a hedging arrangement, we may be obligated to pay certain costs, such as transaction or breakage fees. We have established policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities.

We measure derivative instruments at fair value and record them as assets or liabilities, depending on our rights or obligations under the applicable derivative contract. Derivatives that are not designated as hedges must be adjusted to fair value through earnings. For a derivative designated, and that qualified, as a cash flow hedge, the effective portion of the change in fair value of the derivative is recognized in Other comprehensive loss until the hedged item is recognized in earnings. The ineffective portion of the change in fair value of any derivative is immediately recognized in earnings.

The following table sets forth certain information regarding our derivative instruments on our Consolidated Hotels (in thousands):

Derivatives Designated as Hedging Instruments	Balance Sheet Location	Asset Derivatives Fair Value at December 31,		Liability Derivatives Fair Value at December 31,	
		2017	2016	2017	2016
Interest rate caps	Other assets	\$ 1	\$ 51	\$ —	\$ —
Interest rate swaps	Other assets	—	48	—	—
Interest rate swaps	Accounts payable, accrued expenses and other liabilities	—	—	(2)	(2)
		<u>\$ 1</u>	<u>\$ 99</u>	<u>\$ (2)</u>	<u>\$ (2)</u>

All derivative transactions with an individual counterparty are governed by a master International Swap and Derivatives Association agreement, which can be considered as a master netting arrangement; however, we report all our derivative instruments on a gross basis in our consolidated financial statements. At both December 31, 2017 and 2016, no cash collateral had been posted nor received for any of our derivative positions.

We recognized unrealized losses of \$0.1 million, \$1.1 million and \$2.6 million in Other comprehensive income (loss) on derivatives in connection with our interest rate swaps and caps during the years ended December 31, 2017, 2016 and 2015, respectively.

We reclassified \$0.6 million, \$1.0 million and \$1.6 million from Other comprehensive income (loss) on derivatives into Interest expense during the years ended December 31, 2017, 2016 and 2015, respectively.

Amounts reported in Other comprehensive income (loss) related to interest rate swaps and caps will be reclassified to Interest expense as interest expense is incurred on our variable-rate debt. At December 31, 2017, we estimated that an additional \$0.5 million, inclusive of amounts attributable to noncontrolling interests of less than \$0.1 million, will be reclassified as Interest expense during the next 12 months related to our interest rate swaps and caps.

Interest Rate Swaps and Caps

We are exposed to the impact of interest rate changes primarily through our borrowing activities. To limit this exposure, we attempt to obtain mortgage financing on a long-term, fixed-rate basis. However, from time to time, we or our investment partners may obtain variable-rate non-recourse mortgage loans and, as a result, may enter into interest rate swap or cap agreements with counterparties. Interest rate swaps, which effectively convert the variable-rate debt service obligations of a loan to a fixed rate, are agreements in which one party exchanges a stream of interest payments for a counterparty's stream of cash flow over a specific period. The face amount on which the swaps are based is not exchanged. An interest rate cap limits the effective borrowing rate of variable-rate debt obligations while allowing participants to share in downward shifts in interest rates. Our objective in using these derivatives is to limit our exposure to interest rate movements.

The interest rate swap and caps that we had outstanding on our Consolidated Hotels at December 31, 2017 were designated as cash flow hedges and are summarized as follows (dollars in thousands):

Interest Rate Derivatives	Number of Instruments	Notional Amount	Fair Value at December 31, 2017
Interest rate caps	7	\$ 279,548	\$ 1
Interest rate swap	1	47,180	(2)
		\$	(1)

Credit Risk-Related Contingent Features

We measure our credit exposure on a counterparty basis as the net positive aggregate estimated fair value of our derivatives, net of any collateral received. No collateral was received as of December 31, 2017. At December 31, 2017, both our total credit exposure and the maximum exposure to any single counterparty were less than \$0.1 million.

Some of the agreements we have with our derivative counterparties contain cross-default provisions that could trigger a declaration of default on our derivative obligations if we default, or are capable of being declared in default, on certain of our indebtedness. At December 31, 2017, we had not been declared in default on any of our derivative obligations. The estimated fair value of our derivatives in a net liability position was less than \$0.1 million at both December 31, 2017 and 2016, which included accrued interest and any nonperformance risk adjustments. If we had breached any of these provisions at either December 31, 2017 or 2016, we could have been required to settle our obligations under these agreements at their aggregate termination value of less than \$0.1 million.

Note 9. Debt*Non-Recourse Debt*

Our non-recourse debt consists of mortgage notes payable, which are collateralized by the assignment of hotel properties. The following table presents the non-recourse debt, net on our Consolidated Hotel investments (dollars in thousands):

	Interest Rate Range	Current Maturity Date Range ^(a)	Carrying Amount at December 31,	
			2017	2016
Fixed rate	3.6% – 6.5%	3/2018 – 4/2024	\$ 1,082,367	\$ 1,084,987
Variable rate ^(b)	3.6% – 8.6%	4/2018 – 12/2020	338,546	371,165
			\$ 1,420,913	\$ 1,456,152

(a) Many of our mortgage loans have extension options, which are subject to certain conditions. The maturity dates in the table do not reflect the extension options.

(b) The interest rate range presented for these mortgage loans reflect the rates in effect at December 31, 2017 through the use of an interest rate cap or swap, when applicable.

Most of our mortgage loan agreements contain “lock-box” provisions, which permit the lender to access or sweep a hotel’s excess cash flow and would be triggered under limited circumstances, including the failure to maintain minimum debt service coverage ratios. If a provision were triggered, we would generally be permitted to spend an amount equal to our budgeted hotel operating expenses, taxes, insurance and capital expenditure reserves for the relevant hotel. The lender would then hold all excess cash flow after the payment of debt service in an escrow account until certain performance hurdles are met. At December 31, 2016, the minimum debt service coverage ratio for the Holiday Inn Manhattan 6th Avenue Chelsea was not met; therefore, a cash management agreement was enacted that permits the lender to sweep the hotel’s excess cash flow. As of December 31, 2017, this ratio was still not met and the cash management agreement remained in effect. At June 30, 2017, the minimum debt service coverage ratio for the Lake Arrowhead Resort and Spa was not met; therefore we were required to fund \$0.5 million into a lender held reserve account that will be released after a specified debt service coverage ratio is achieved for two consecutive quarters. We funded the required \$0.5 million into the lender held reserve account during the third quarter of 2017, which is included in Restricted cash in our consolidated balance sheet. As of December 31, 2017, this ratio was still not met and the funds remained in the lender held reserve account. At September 30, 2017, the minimum debt service coverage ratio for both the senior mortgage loan and mezzanine loan for the Ritz-Carlton Fort Lauderdale were not met; therefore, we entered into a cash management agreement that permits the lender to sweep the hotel’s excess cash flow. As of December 31, 2017, this ratio was still not met and the cash management agreement remained in effect.

Covenants

Pursuant to our mortgage loan agreements, our consolidated subsidiaries are subject to various operational and financial covenants, including minimum debt service coverage ratios. Except as discussed above, at December 31, 2017, we were in compliance with the applicable covenants for each of our mortgage loans.

WPC Credit Facility

At December 31, 2017, we had outstanding balances under the Bridge Loan and Working Capital Facility of \$60.8 million and \$7.8 million, respectively, with \$17.2 million available to be drawn on the Working Capital Facility. On January 16, 2018, we borrowed \$10.0 million from WPC under the Working Capital Facility and on February 15, 2018, we repaid \$20.0 million towards the Bridge Loan and \$17.0 million towards the Working Capital Facility ([Note 15](#)). These loans are described in [Note 3](#).

Senior Credit Facility

At December 31, 2016, we had a senior credit facility that provided for a \$25.0 million senior unsecured revolving credit facility, or our Senior Credit Facility. The Senior Credit Facility bore interest at LIBOR plus 2.75%, was scheduled to mature on December 4, 2017 and had an outstanding balance of \$22.8 million at December 31, 2016. On March 23, 2017, we repaid the \$22.8 million outstanding balance using proceeds from the WPC Line of Credit ([Note 3](#)) and simultaneously terminated the Senior Credit Facility. We recognized a loss on extinguishment of debt of \$0.1 million during the first quarter of 2017 on this termination, related primarily to the write-off of unamortized deferred financing costs.

Mortgage Financing Activity During 2017

During the year ended December 31, 2017, we refinanced three non-recourse mortgage loans totaling \$95.6 million with new non-recourse mortgage loans totaling \$109.5 million, which have a weighted-average interest rate of 5.0% and a term to maturity of 4.5 years. We recognized a net loss on extinguishment of debt of less than \$0.1 million on these refinancings.

Mortgage Financing Activity During 2016

In connection with our 2016 Acquisition ([Note 4](#)), we obtained \$46.5 million in non-recourse mortgage financing, with a fixed interest rate of 4.5% and a maturity date of March 1, 2021. We recorded \$0.4 million of deferred financing costs related to this loan.

During the year ended December 31, 2016, we refinanced four non-recourse mortgage loans totaling \$309.0 million with new non-recourse mortgage loans totaling \$379.0 million, which have a weighted-average interest rate of 3.9% and term of 4.8 years. We recognized an aggregate net loss on extinguishment of debt totaling \$2.2 million on these refinancings.

Scheduled Debt Principal Payments

Scheduled debt principal payments during each of the next five calendar years following December 31, 2017 and thereafter are as follows (in thousands):

Years Ending December 31,	Total
2018 ^{(a) (b)}	\$ 246,489
2019	148,726
2020	222,362
2021	458,253
2022	244,104
Thereafter through 2024	176,870
	1,496,804
Unamortized deferred financing costs	(7,254)
Total	\$ 1,489,550

(a) Balance includes \$164.0 million of scheduled balloon payments on six consolidated mortgage loans, two of which, totaling \$32.0 million, were paid in full upon disposition of the related hotels (Note 15). We currently intend to refinance these mortgage loans, although there can be no assurance that we will be able to do so on favorable terms, if at all.

(b) Includes \$60.8 million and \$7.8 million of loan proceeds from the Bridge Loan and Working Capital Facility from WPC (Note 3).

Note 10. Commitments and Contingencies

At December 31, 2017, we were not involved in any material litigation. Various claims and lawsuits arising in the normal course of business are pending against us, but we do not expect the results of such proceedings to have a material adverse effect on our consolidated financial position or results of operations.

Hotel Management Agreements

As of December 31, 2017, our Consolidated Hotel properties are operated pursuant to long-term management agreements with 12 different management companies, with initial terms ranging from five to 30 years. For hotels operated with separate franchise agreements, each management company receives a base management fee, generally ranging from 1.0% to 3.5% of hotel revenues. Four of our management agreements contain the right and license to operate the hotels under specified brands; no separate franchise agreements exist and no separate franchise fee is required for these hotels. The management agreements that include the benefit of a franchise agreement incur a base management fee equal to 3.0% of hotel revenues. The management companies are generally also eligible to receive an incentive management fee, which is typically calculated as a percentage of operating profit, either (i) in excess of projections with a cap or (ii) after the owner has received a priority return on its investment in the hotel. For the years ended December 31, 2017, 2016 and 2015, we incurred management fee expense, including amortization of deferred management fees, of \$17.1 million, \$18.2 million and \$13.7 million, respectively.

Franchise Agreements

As of December 31, 2017, we have 12 franchise agreements with Marriott owned brands, five with Hilton owned brands, two with InterContinental Hotels owned brands and one with a Hyatt owned brand related to our Consolidated Hotels. The franchise agreements have initial terms ranging from 15 to 25 years. This number excludes four hotels that receive the benefits of a franchise agreement pursuant to management agreements, as discussed above. Also, three of our Consolidated Hotels are independent and not subject to franchise agreements. Our franchise agreements grant us the right to the use of the brand name, systems and marks with respect to specified hotels and establish various management, operational, record-keeping, accounting, reporting and marketing standards and procedures that the licensed hotel must comply with. In addition, the franchisor establishes requirements for the quality and condition of the hotel and its furniture, fixtures and equipment, and we are obligated to expend such funds as may be required to maintain the hotel in compliance with those requirements. Typically, our franchise agreements provide for a license fee, or royalty, of 3.0% to 7.0% of room revenues and, if applicable, 2.0% to 3.0% of food and beverage revenue. In addition, we generally pay 1.0% to 4.0% of room revenues as marketing and reservation system contributions for the system-wide benefit of brand hotels. Franchise fees are included in sales and marketing expense in our

consolidated financial statements. For the years ended December 31, 2017, 2016 and 2015, we incurred franchise fee expense, including amortization of deferred franchise fees, of \$18.8 million, \$20.5 million and \$18.2 million, respectively.

Renovation Commitments

Certain of our hotel franchise and loan agreements require us to make planned renovations to our Consolidated Hotels (Note 4). We do not currently expect, and are not obligated, to fund any planned renovations on our Unconsolidated Hotels beyond our original investment. The table below does not reflect any renovation work to be undertaken as a result of Hurricane Irma, as discussed in Note 4.

At December 31, 2017, six hotels were either undergoing renovation or in the planning stage of renovations, and we currently expect that two will be completed during the first half of 2018, three will be completed during the second half of 2018 and one will be completed during the first half of 2019. The following table summarizes our capital commitments related to our Consolidated Hotels (in thousands):

	December 31,	
	2017	2016
Capital commitments	\$ 66,322	\$ 84,325
Less: amounts paid	(34,369)	(43,179)
Unpaid commitments	31,953	41,146
Less: amounts in restricted cash designated for renovations	(23,194)	(13,136)
Unfunded commitments ^(a)	\$ 8,759	\$ 28,010

(a) Of our unfunded commitments at December 31, 2017 and 2016, approximately \$0.5 million and \$5.3 million, respectively, of unrestricted cash on our balance sheet was designated for renovations.

Capital Expenditures and Reserve Funds

With respect to our hotels that are operated under management or franchise agreements with major international hotel brands and for most of our hotels subject to mortgage loans, we are obligated to maintain furniture, fixtures and equipment reserve accounts for future capital expenditures at these hotels, sufficient to cover the cost of routine improvements and alterations at the hotels. The amount funded into each of these reserve accounts is generally determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents for each of the respective hotels and typically ranges between 3% and 5% of the respective hotel's total gross revenue. As of December 31, 2017 and 2016, \$32.9 million and \$29.3 million, respectively, was held in furniture, fixtures and equipment reserve accounts for future capital expenditures, and is included in Restricted cash in the consolidated financial statements.

Ground Lease Commitments

Three of our hotels are subject to ground leases. Scheduled future minimum ground lease payments during each of the next five calendar years following December 31, 2017 and thereafter are as follows (in thousands):

Years Ending December 31,	Total
2018	\$ 3,254
2019	3,328
2020	3,404
2021	3,482
2022	3,562
Thereafter through 2106	647,556
Total	\$ 664,586

For the years ended December 31, 2017, 2016 and 2015, we recorded rent expense of \$3.9 million, \$3.8 million and \$3.7 million, respectively, inclusive of percentage rents of \$0.8 million, \$0.7 million and \$0.7 million, respectively, related to these ground leases, which are included in Property taxes, insurance, rent and other in the consolidated financial statements. Additionally, we recorded straight-line rent adjustment expense related to these ground leases of \$5.2 million, \$5.3 million and \$5.4 million for the years ended December 31, 2017, 2016 and 2015, respectively.

Note 11. Equity

Transfers from Noncontrolling Interests

On February 12, 2016, we acquired the remaining 25% interest in the Fairmont Sonoma Mission Inn & Spa Venture from an unaffiliated third party for \$20.6 million, bringing our ownership interest to 100%. In connection with this transaction, we also paid a fee to our Advisor of \$0.5 million. Our acquisition of the additional interest in the venture is accounted for as an equity transaction and we recorded an adjustment of approximately \$16.0 million to Additional paid-in capital in our consolidated statement of equity for the year ended December 31, 2016 related to the difference between the carrying value and the purchase price. No gain or loss was recognized in the consolidated statement of operations, and the components of accumulated other comprehensive loss are proportionately reallocated to us from the noncontrolling interest as presented in the consolidated statement of equity.

Reclassifications Out of Accumulated Other Comprehensive Loss

The following tables present a reconciliation of changes in Accumulated other comprehensive loss by component for the periods presented (in thousands):

Gains and Losses on Derivative Instruments	Years Ended December 31,		
	2017	2016	2015
Beginning balance	\$ (1,128)	\$ (885)	\$ (517)
Other comprehensive loss before reclassifications	(140)	(1,084)	(2,570)
Amounts reclassified from accumulated other comprehensive loss to:			
Interest expense	599	970	1,600
Equity in earnings of equity method investments in real estate	232	422	525
Total	831	1,392	2,125
Net current period other comprehensive income (loss)	691	308	(445)
Net current period other comprehensive loss attributable to noncontrolling interests	(18)	372	77
Reclassification to additional-paid in capital relating to purchase of remaining 25% membership interest in Fairmont Sonoma Mission Inn & Spa venture	—	(923)	—
Ending balance	\$ (455)	\$ (1,128)	\$ (885)

Distributions

Distributions paid to stockholders consist of ordinary income, capital gains, return of capital or a combination thereof for income tax purposes. The following table presents annualized cash distributions paid per share reported for tax purposes and serves as a designation of capital gain distributions, if applicable, pursuant to Internal Revenue Code Section 857(b)(3)(C) and Treasury Regulation § 1.857-6(e):

	Years Ended December 31,		
	2017	2016	2015
Ordinary income	\$ 0.1875	\$ 0.2234	\$ 0.1550
Capital gain	0.1079	—	—
Return of capital	0.2746	0.3466	0.4000
Total distributions paid	\$ 0.5700	\$ 0.5700	\$ 0.5550

During the fourth quarter of 2017, our board of directors declared a quarterly distribution of \$0.1425 per share, which was paid on January 16, 2018 to stockholders of record on December 29, 2017, in the amount of \$19.6 million.

Note 12. Share-Based Payments

We maintain the 2010 Equity Incentive Plan, which authorizes the issuance of stock-based awards to our officers, employees of the Subadvisor who perform services on our behalf, and any independent directors. The 2010 Equity Incentive Plan provides for the grant of RSUs and dividend equivalent rights. We also maintain the Directors Incentive Plan — 2010 Incentive Plan, which authorizes the issuance of shares of our common stock to our independent directors. The Directors Incentive Plan — 2010 Incentive Plan provides for the grant of RSUs and dividend equivalent rights. A maximum of 4,000,000 shares may be granted, in the aggregate, under these two plans, of which 3,714,240 shares remain available for future grants at December 31, 2017.

A summary of the RSU activity for the years ended December 31, 2017, 2016 and 2015 follows:

	The Subadvisor		Independent Directors	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Nonvested at January 1, 2015	71,311	\$ 10.00	—	\$ —
Granted	29,370	10.30	17,476	10.30
Vested ^(a)	(26,376)	10.00	(17,476)	10.30
Forfeited	—	—	—	—
Nonvested at January 1, 2016	74,305	10.12	—	—
Granted	41,744	10.66	16,886	10.66
Vested ^(a)	(35,557)	10.08	(16,886)	10.66
Forfeited	(8,663)	10.39	—	—
Nonvested at January 1, 2017 ^(b)	71,829	10.42	—	—
Granted	49,075	10.80	16,667	10.80
Vested ^(a)	(35,495)	10.31	(16,667)	10.80
Forfeited	(24,480)	10.69	—	—
Nonvested at December 31, 2017 ^(b)	60,929	\$ 10.68	—	\$ —

(a) RSUs issued to employees of the Subadvisor generally vest over three years, subject to continued employment, and RSUs issued to independent directors vested immediately. The total fair value of shares vested was \$0.4 million for each of the years ended December 31, 2017, 2016 and 2015.

(b) We currently expect to recognize compensation expense totaling approximately \$0.4 million over the vesting period. The awards to employees of the Subadvisor had a weighted-average remaining contractual term of 1.7 years at December 31, 2017.

For the years ended December 31, 2017, 2016 and 2015, we recognized share based payment expense of \$0.5 million, \$0.6 million and \$0.5 million, respectively, associated with our awards. We have not recognized any income tax benefit in earnings for our share-based payment arrangements since the inception of our plans.

Note 13. Income Taxes

As a REIT, we are permitted to own lodging properties but are prohibited from operating these properties. In order to comply with applicable REIT qualification rules, we enter into leases for each of our lodging properties with TRS lessees. The TRS lessees in turn contract with independent hotel management companies that manage day-to-day operations of our hotels under the oversight of the Subadvisor.

The components of our income tax provision for the periods presented are as follows (in thousands):

	Years Ended December 31,		
	2017	2016	2015
Federal			
Current	\$ 2,004	\$ 2,383	\$ 5,363
Deferred	(2,010)	451	(384)
	(6)	2,834	4,979
State and Local			
Current	382	801	1,835
Deferred	(400)	26	(47)
	(18)	827	1,788
Total (Benefit) Provision	<u>\$ (24)</u>	<u>\$ 3,661</u>	<u>\$ 6,767</u>

Deferred income taxes at December 31, 2017 and 2016 consist of the following (in thousands):

	At December 31,	
	2017	2016
Deferred Tax Assets		
Net operating loss carryforwards	\$ 4,918	\$ 5,725
Interest expense limitation	1,203	275
Accrued vacation payable and deferred rent	1,148	1,740
Deferred revenue — key money	304	537
Gift card liability	243	361
Other	1,145	661
Total deferred income taxes	8,961	9,299
Valuation allowance	(4,359)	(4,909)
Total deferred tax assets	4,602	4,390
Deferred Tax Liabilities		
Villa rental management agreement	(5,387)	(7,240)
Other	(193)	(257)
Total deferred tax liabilities	(5,580)	(7,497)
Net Deferred Tax Liability	<u>\$ (978)</u>	<u>\$ (3,107)</u>

A reconciliation of the provision for income taxes with the amount computed by applying the statutory federal income tax rate to income before provision for income taxes for the periods presented is as follows (in thousands):

	Years Ended December 31,		
	2017	2016	2015
Pre-tax (loss) income from taxable subsidiaries	\$ (4,443)	\$ 4,764	\$ 16,033
Federal provision at statutory tax rate	\$ (1,555)	\$ 1,668	\$ 5,612
Revaluation of deferred taxes due to Tax Cuts and Jobs Act ^(a)	1,506	—	—
Disposition of hotels	739	—	—
Valuation allowance	(550)	2,526	1,108
State and local taxes, net of federal benefit	(385)	534	1,023
Non-deductible expenses	124	102	123
Loss (income) not subject to federal tax	11	(1,239)	(1,244)
Other	86	70	145
Total (benefit) provision	<u>\$ (24)</u>	<u>\$ 3,661</u>	<u>\$ 6,767</u>

- (a) The Tax Cuts and Jobs Act, which was signed into law on December 22, 2017, lowered the U.S. corporate income tax rate from 35% to 21%. This amount reflects the net impact of the Tax Cuts and Jobs Act on our domestic TRSs.

The utilization of net operating losses may be subject to certain limitations under the tax laws of the relevant jurisdiction. If not utilized, our federal and state and local net operating losses will begin to expire in 2028. As of December 31, 2017 and 2016, we recorded a valuation allowance of \$4.4 million and \$4.9 million, respectively, related to these net operating loss carryforwards and other deferred tax assets.

The net deferred tax liability in the table above is comprised of deferred tax asset balances, net of certain deferred tax liabilities and valuation allowances, of \$1.9 million and \$2.1 million at December 31, 2017 and 2016, respectively, which are included in Other assets, net in the consolidated balance sheets, and other deferred tax liability balances of \$2.9 million and \$5.2 million at December 31, 2017 and 2016, respectively, which are included in Accounts payable, accrued expenses and other liabilities in the consolidated balance sheets.

Our taxable subsidiaries recognize tax positions in the financial statements only when it is more likely than not that the position will be sustained on examination by the relevant taxing authority based on the technical merits of the position. A position that meets this standard is measured at the largest amount of benefit that will more likely than not be realized on settlement. A liability is established for differences between positions taken in a tax return and amounts recognized in the financial statements.

The following table presents a reconciliation of the beginning and ending amount of unrecognized tax benefits (in thousands):

	Years Ended December 31,	
	2017	2016
Beginning balance	\$ 4	\$ 684
Addition (deduction) based on tax positions related to prior years	5	(680)
Ending balance	<u>\$ 9</u>	<u>\$ 4</u>

At December 31, 2017, we had unrecognized tax benefits as presented in the table above that, if recognized, would have a favorable impact on our effective income tax rate in future periods. We recognize interest and penalties related to uncertain tax positions in income tax expense. At December 31, 2017, we had accrued interest related to uncertain tax positions of less than \$0.1 million.

Our tax returns are subject to audit by taxing authorities. The statute of limitations varies by jurisdiction and ranges from three to four years. Such audits can often take years to complete and settle. The tax years 2014 through 2016 remain open to examination by the major taxing jurisdictions to which we are subject.

Basic and diluted distributions declared per share	\$ 0.1425	\$ 0.1425	\$ 0.1425	\$ 0.1425

(a) Results include a hurricane loss of \$7.6 million for the three months ended September 30, 2017 and impairment charges of \$3.7 million and \$0.4 million for the three months ended June 30, 2016 and September 30, 2016, respectively.

Note 15. Subsequent Events

On January 16, 2018, we borrowed \$10.0 million from WPC under the Working Capital Facility and on February 15, 2018, we repaid \$20.0 million towards the Bridge Loan and \$17.0 million towards the Working Capital Facility ([Note 3](#)).

On January 25, 2018, we sold our 100% ownership interest in the Marriott Boca Raton at Boca Center to an unaffiliated third-party for a contractual sales price of \$76.0 million and net proceeds of approximately \$35.4 million ([Note 4](#)).

On February 5, 2018, we sold our 100% ownership interests in the Hampton Inn Memphis Beale Street and Hampton Inn Atlanta Downtown to an unaffiliated third-party for a contractual sales price of \$63.0 million and net proceeds of approximately \$31.8 million ([Note 4](#)).

- (a) Consists of the cost of improvements subsequent to acquisition, including construction costs primarily for renovations pursuant to our contractual obligations.

- (b) The net decrease in net investments was primarily due to the write-off of assets damaged by Hurricane Irma for the Hawks Cay Resort, the Ritz-Carlton Key Biscayne and the Ritz-Carlton Fort Lauderdale totaling \$17.3 million, \$6.2 million and \$0.7 million, respectively ([Note 4](#)), partially offset by increases in net investment for the Ritz-Carlton Key Biscayne and the Ritz-Carlton Fort Lauderdale totaling \$3.4 million and \$1.3 million, respectively, due to out-of-period adjustments related to deferred tax liabilities ([Note 2](#)).
- (c) A reconciliation of hotels and accumulated depreciation follows:

CAREY WATERMARK INVESTORS INCORPORATED

Ending balance	<u>\$ 165,509</u>	<u>\$ 123,101</u>	<u>\$ 76,078</u>

(a) Includes \$4.1 million of impairment charges recognized during the year ended December 31, 2016 related to properties included in Assets held for sale as of December 31, 2016 [\(Note 7\)](#).

At December 31, 2017, the aggregate cost of real estate that we and our consolidated subsidiaries own for federal income tax purposes was approximately \$2.2 billion.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.*Disclosure Controls and Procedures*

Our disclosure controls and procedures include internal controls and other procedures designed to provide reasonable assurance that information required to be disclosed in this and other reports filed under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized and reported within the required time periods specified in the SEC's rules and forms; and that such information is accumulated and communicated to management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosures. It should be noted that no system of controls can provide complete assurance of achieving a company's objectives and that future events may impact the effectiveness of a system of controls.

Our chief executive officer and chief financial officer, after conducting an evaluation, together with members of our management, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2017, have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective as of December 31, 2017 at a reasonable level of assurance.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

We assessed the effectiveness of our internal control over financial reporting at December 31, 2017. In making this assessment, we used criteria set forth in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment, we concluded that, at December 31, 2017, our internal control over financial reporting was effective based on those criteria.

This Annual Report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm pursuant to SEC rules that permit us to provide only management's report in this Annual Report.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Item 9B. Other Information.

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

This information will be contained in our definitive proxy statement for the 2018 Annual Meeting of Stockholders, to be filed within 120 days following the end of our fiscal year, and is incorporated herein by reference.

Item 11. Executive Compensation.

This information will be contained in our definitive proxy statement for the 2018 Annual Meeting of Stockholders, to be filed within 120 days following the end of our fiscal year, and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

This information will be contained in our definitive proxy statement for the 2018 Annual Meeting of Stockholders, to be filed within 120 days following the end of our fiscal year, and is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

This information will be contained in our definitive proxy statement for the 2018 Annual Meeting of Stockholders, to be filed within 120 days following the end of our fiscal year, and is incorporated herein by reference.

Item 14. Principal Accounting Fees and Services.

This information will be contained in our definitive proxy statement for the 2018 Annual Meeting of Stockholders, to be filed within 120 days following the end of our fiscal year, and is incorporated herein by reference.

PART IV

Section 4: EX-31.1 (EXHIBIT 31.1)

Exhibit 31.1

Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Michael G. Medzigian, certify that:

1. I have reviewed this Annual Report on Form 10-K of Carey Watermark Investors Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an Annual Report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 6: EX-32 (EXHIBIT 32)

Exhibit 32

Certifications Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Annual Report of Carey Watermark Investors Incorporated on Form 10-K for the period ended December 31, 2017 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), each of the undersigned officers of Carey Watermark Investors Incorporated, does hereby certify, to the best of such officer's knowledge and belief, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of Carey Watermark Investors Incorporated.
