The Board of Directors of TCF Financial Corporation and
The Plan Sponsor and Plan Administrator of the
TCF Employees Stock Purchase Plan:

We have audited the accompanying statements of net assets available for plan benefits of the TCF Employees Stock Purchase Plan (the "Plan") as of December 31, 2006 and 2005, and the related statements of changes in net assets available for plan benefits for each of the years in the three-year period ended December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for plan benefits for each of the years in the three-year period ended December 31, 2006 in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. Supplemental Schedules 1 and 2 are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

TCF Employees Stock Purchase Plan

Notes to Financial Statements

(1) Accounting Policies

The financial statements of the TCF Employees Stock Purchase Plan (the "Plan") have been prepared on the accrual basis of accounting. Assets of the Plan are stated at fair value as determined by quoted market prices. Purchases and sales of investments are recorded on a trade-date basis. The cost of Plan investments sold is determined by the average cost method. Benefits are recorded when paid.

Basis of Presentation

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

(2) Employees Stock Purchase Plan

The Plan is intended to meet the requirements of a stock bonus plan under section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code"), an employee stock ownership plan under Section 4975(e) of the Code, and a qualified cash or deferred arrangement under Section 401(k) of the Code. The Plan is a tax-qualified contributory plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan sponsor is TCF Financial Corporation ("TCF Financial"). US Bank National Association ("US Bank or Trustee") is the trustee of the Plan appointed to serve under the trust agreement.

All full-time and part-time employees are eligible to participate in the Plan. Participants may elect to invest, in increments of 1%, up to 50% of their covered pay on a tax deferred basis and an additional 6% on an after tax basis in the Plan, with certain limitations. Contributions of employees defined by the Code as "highly compensated" are limited based on an annual determination by TCF Financial. The aggregate contributions are subject to the Internal Revenue Service ("IRS") maximum annual limits of \$15,000, \$14,000 and \$13,000 during 2006, 2005 and 2004, respectively. Effective April 1, 2006, the Plan was amended to allow participants age 50 or older to make "catch up" pre-tax contributions in excess of the IRS limits stated above. The maximum catch-up contribution is \$5,000 for 2006. Also, effective April 1, 2006, after tax contributions are no longer permitted.

TCF Employees Stock Purchase Plan

Notes to Financial Statements (Continued)

Participating employers match the contributions of employees who have worked 1,000 hours and completed one year of service at the rate of 50 cents per dollar contributed. Effective April 1, 2006, the Plan was amended to increase the employer match to 75 cents per dollar contributed for employees with five to nine years of service and to \$1 per dollar contributed for employees with ten or more years of service. Employer matching contributions are made on the first 6% of eligible compensation contributed. Also effective April 1, 2006, the 1,000 hours of work requirement was eliminated. Employer contributions are generally made in cash and can also be made in the form of TCF Financial Corporation common stock.

All employee and employer contributions are invested in TCF Financial Corporation common stock or participant directed investments shortly after the date contributed.

The participating employers, at their discretion, may make additional contributions to the Plan, subject to an overall limit. These additional contributions, if any, are allocated to participants' matching accounts in proportion to their respective percentage rate of matched contributions, subject to certain limitations. To date, no such contributions have been made.

Effective April 2, 2001, participants age 50 or older may elect to invest any portion or all of their Plan account in the TCF Financial Corporation Stock Fund (invested primarily in TCF Financial Corporation common stock) or in any or all of the offered mutual fund investments. Effective December 6, 2004, all participants may elect to invest their employee account balance in TCF Financial Corporation common stock or in any or all of the offered mutual fund investments. Participants may also elect to diversify their employer matching

account balance if they are fully vested (after 5 years of service) or are eligible to diversify under a provision applying to those age 50 or older. Effective January 1, 2007, participants may elect to diversify their employer matching account balance after completing three years of service. Eligible participants may select from the following investment options: Vanguard Institutional Index Fund, Vanguard Mid-Cap Index Fund, Vanguard Small-Cap Index Fund, Vanguard Intermediate-Term Bond Index Fund, Vanguard Prime Money Market Fund or the TCF Financial Corporation Stock Fund.

Participant deposits to the Plan are fully vested at all times. Participants' interests in the employer matching account generally vest at the rate of 20% per year (with full vesting after five years of service). The Plan permits financial hardship withdrawals consistent with the safe harbor provisions of regulations issued pursuant to the Tax Reform Act of 1986.

Dividends paid on the TCF Financial Corporation Stock Fund are reinvested in such fund or, at the election of the participant, may be paid in cash to the participant. Dividends paid on the mutual funds are reinvested in the mutual funds.

TCF Employees Stock Purchase Plan

Notes to Financial Statements (Continued)

Amounts which have been forfeited in accordance with the provisions of the Plan are available to use for payment of various Plan obligations according to the following hierarchy: reinstatement of participant accounts upon rehire, Plan administration expenses and reduction of employer contributions as defined. Other Plan obligations are paid directly by TCF Financial. Administrative expenses paid by TCF Financial during 2006, 2005 and 2004 totaled \$853,922, \$748,252, and \$687,324, respectively. Any remaining forfeiture amounts are retained by the Plan to be used for payment of Plan obligations in future periods.

The Advisory Committee for the TCF Employees Stock Purchase Plan has shared voting power with participants of all allocated shares of TCF common stock in the Plan.

With the concurrence of TCF Financial, US Bank is authorized to borrow funds for purchases of TCF Financial Corporation common stock. To date, no such loans have occurred.

TCF Financial has reserved the right to amend the Plan at any time and each participating employer may cease to participate in the Plan and stop offering the Plan at any time to its employees. In the event of termination of the Plan, participating employees become 100% vested in their employer matching account balances.

(4) Income Tax Status

TCF Financial has received a favorable tax determination letter from the IRS indicating that the Plan qualified under Sections 401(a) and 4975(e)(7) of the Code and met the requirements for a qualified cash or deferred arrangement under Section 401(k) of the Code, and the trust established thereunder is thereby exempt from federal income taxes under Section 501(a) of the Code. As such, the Plan's assets are exempt from federal income tax, and participant tax-deferred deposits and amounts contributed by participating employers are not taxed to the employee until a distribution from the Plan is received. Continued compliance with applicable provisions of the Code is required to maintain this tax-exempt status.

The most recent determination letter dated May 7, 2003 provided a favorable determination regarding the restatement of the Plan document in its entirety on April 30, 2001. The Plan administrator believes the Plan continues to qualify under provisions of Section 401(a) of the Code and that the related trust is exempt from federal income taxes.

(5) Investments Not Directed by Participants

Non-participant directed assets at December 31, 2006 and 2005 are the employer matching account balances of participants that are not 100% vested and are not eligible to diversify under the age 50 or older diversification provision. The following schedules disclose information about non-participant directed assets:

(8) Party-in-Interest Transactions

The Plan engages in transactions involving the acquisition or disposition of TCF Financial Corporation common stock and units of the First American Prime Obligations Class Y Fund of the Trustee. TCF Financial and the Trustee are parties-in-interest. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the Code.

During 2006 and 2005, TCF Financial did not purchase any shares of TCF Financial Corporation common stock from the Plan.

(9) Stock Split

During the third quarter of 2004, TCF Financial Corporation announced and completed a two-for-one stock split of its common stock in the form of a 100% stock dividend. All prior period share disclosures have been restated to reflect the split.
