WAYZATA, MN, January 18, 2006 – TCF Financial Corporation (“TCF”) (NYSE: TCB) today reported record results for 2005. Diluted earnings per share was a record \$2.00 for 2005, compared with \$1.86 for 2004. Net income for 2005 was a record \$265.1 million, up \$10.1 million from 2004. For 2005, return on average assets (“ROA”) was 2.08 percent and return on average common equity (“ROE”) was 28.03 percent, compared with 2.15 percent and 27.02 percent, respectively, for 2004. Diluted earnings per share was 50 cents for the 2005 fourth quarter, unchanged from the same period of 2004. Net income was \$65.5 million for the fourth quarter of 2005, compared with \$67.4 million for the same period of 2004.

Dividend Increase

TCF’s Board of Directors has announced, for the fifteenth consecutive year, an increase in the regular quarterly dividend to 23 cents per common share, effective for the first quarter of 2006. This represents an 8.2 percent increase over the 2005 quarterly dividend of 21.25 cents per common share. The dividend is payable on February 28, 2006 to common shareholders of record at the close of business on January 27, 2006. TCF’s 10-year compounded dividend growth rate is the 6th highest among the 50 largest banks in the country.

Chief Executive Officer’s Statement

“2005 was a challenging year for TCF. Despite a flat yield curve and the deposit service charge challenges facing the banking industry in 2005, TCF produced record results,” said Lynn A. Nagorske, Chief Executive Officer. “TCF remains focused on its long-term strategies of high quality secured lending, targeted new branch expansion and product and service innovation,” said Nagorske.

Net Interest Income

TCF's net interest income in 2005 was \$517.7 million, up \$25.8 million, or 5.2 percent, from 2004. Net interest margin in 2005 was 4.46 percent, compared with 4.54 percent for 2004. The increase in net interest income in 2005 was primarily driven by increased average Power Assets, up \$1.1 billion, partially offset by higher funding costs. Fixed- and adjustable-rate Power Assets increased \$1.9 billion and variable-rate Power Assets decreased \$842.9 million from 2004 due to changing customer preferences to lower cost fixed-rate loans. The increase in average Power Assets was funded primarily by a \$704 million increase in average Power Liabilities and a \$163.1 million increase in average borrowings. The weighted-average rate on Power Liabilities was 1.15 percent for 2005, up 60 basis points from 2004 and the weighted-average rate on borrowings was 3.96 percent, up 80 basis points from 2004.

TCF's net interest income in the fourth quarter of 2005 was \$129.3 million, up \$2.8 million, or 2.2 percent, from the fourth quarter of 2004 and up \$1.2 million from the third quarter of 2005. Net interest

-more-

margin in the fourth quarter of 2005 was 4.31 percent, compared with 4.56 percent last year and 4.43 percent in the third quarter of 2005. The decrease in the quarter's net interest margin from the fourth quarter of 2004 is primarily due to the average rates on interest-bearing liabilities increasing more than the average yields on interest-earning assets. During the fourth quarter of 2005, TCF purchased \$400.4 million of mortgage-backed securities at a yield of 5.68 percent, which were funded by three- and five-year borrowings at a cost of 4.16 percent. These transactions contributed \$1 million to net interest income during the fourth quarter and resulted in a reduction in the quarter's net interest margin of approximately seven basis points, as compared with the third quarter of 2005.

Non-interest Income

Total non-interest income was \$478.3 million for 2005, down \$11.9 million, or 2.4 percent, from 2004. Increases in card and other revenues were more than offset by lower fees and service charges, leasing and equipment finance revenues, mortgage banking revenues and gains on sales of mortgage-backed securities. Card revenues totaled \$79.8 million for 2005, up \$16.3 million, or 25.7 percent, from 2004 primarily attributable to an increase in customer transaction volumes and related fees.

During 2005, TCF sold \$1 billion of mortgage-backed securities and realized gains of \$10.7 million, compared with sales of \$1.4 billion of mortgage-backed securities and gains of \$22.6 million in 2004. Other revenue was \$24.7 million for 2005, up \$10.6 million from 2004, primarily due to \$13.6 million of gains on sales of branch buildings in conjunction with our mature branch renovation program, the Michigan Bank headquarters building and one rural branch, partially offset by a decrease in gains on sales of education loans.

Total non-interest income in the fourth quarter of 2005 was \$125 million, down \$7.4 million, or 5.6 percent, from the fourth quarter of 2004 primarily due to declines in leasing and equipment finance revenues, reflecting the unusually high revenues last year, and lower gains on sales of mortgage-backed securities, partially offset by increased card revenue. Card revenues totaled \$21.4 million for the fourth quarter of 2005, up 21.6 percent over the same period in 2004.

-more-

Leasing and equipment finance revenues were \$15.4 million for the fourth quarter of 2005, down \$5.6 million from the 2004 fourth quarter primarily due to lower sales-type revenues, partially offset by higher operating lease revenues. Sales-type revenues may fluctuate from quarter to quarter based on customer driven factors not within the control of TCF.

Other revenues were \$6.3 million for the fourth quarter of 2005, down \$1.1 million from the same period of 2004. This decrease was primarily due to a decrease in gains on sales of education loans, partially offset by gains on the sale of a rural branch and other branch buildings.

New Branch Expansion

TCF opened 28 new branches during 2005, including 18 traditional branches, seven supermarket branches, and three campus branches. TCF has now opened 153 new branches since January 2000, representing 34 percent of TCF's 453 total branches. During the fourth quarter of 2005, TCF opened 13 new branches consisting of nine traditional branches, three supermarket branches and one campus branch. TCF plans to open 24 new branches in 2006, consisting of 17 traditional branches, five supermarket branches, and two campus branches.

During the fourth quarter of 2005, TCF announced plans to enter the Phoenix, Arizona metropolitan area market. Initially, TCF plans to open several consumer loan production offices during 2006 with construction of retail branches to begin later in 2006 or early 2007. "The Arizona market has a growing population and excellent demographics. We are excited about the expansion opportunity Arizona presents," said Nagorske.

Power Assets[®]

Average Power Assets grew \$1.1 billion, or 14.5 percent, in 2005. “Consumer lending continued to drive Power Asset growth with a \$784.2 million, or 19.6 percent, increase in average consumer loan balances over 2004,” said Nagorske. TCF’s average commercial loan balances increased \$197.8 million, or 8.1 percent; and leasing and equipment finance average balances increased \$137.3 million, or 10.7 percent, from 2004.

Power Liabilities[®]

Average Power Liabilities totaled \$8.5 billion for 2005, an increase of \$704 million, or 9.1 percent, from 2004. The increase is primarily driven by increases in Premier Checking of \$443 million, Premier Savings of \$341.6 million and certificates of deposit of \$246.5 million, partially offset by declines in other interest-bearing checking, other savings and money market deposits. TCF increased checking accounts by 68,021, or 4.4 percent, in 2005 to 1,603,173 accounts.

increased expenses associated with new branch expansion. Deposit account losses decreased \$1.9 million, or 8.5 percent, from 2004, primarily due to lower uncollectable overdraft losses, partially offset by increased fraud losses. Operating lease depreciation increased \$5.5 million from 2004, primarily driven by a \$25.1 million increase in average operating lease balances in TCF's leasing and equipment finance subsidiaries. Other expenses totaled \$126.7 million for 2005, up \$9 million from 2004, primarily driven by a \$3.1 million increase in card processing and issuance expenses related to the increase in card transactions and revenues, and a \$2.4 million increase in net real estate expense as a result of net recoveries on sales of foreclosed properties in 2004.

Non-interest expense totaled \$158.5 million for the 2005 fourth quarter, up \$4.2 million, or 2.7 percent, from \$154.3 million for the 2004 fourth quarter. Compensation and employee benefits decreased \$3.6 million, or 4.2 percent, from the fourth quarter of 2004, primarily due to lower performance-related commissions and incentives expense. Occupancy and equipment expenses increased \$2.8 million, or 11 percent, from the fourth quarter of 2004, due to increased expenses associated with new branch expansion. Deposit account losses increased \$1 million, or 18.4 percent, from the fourth quarter of 2004, primarily due to higher fraud losses. Other expenses increased \$3 million, or 10.1 percent, from the fourth quarter of 2004, primarily driven by an increase in net real estate expense due to net recoveries on sales of foreclosed properties in 2004, and a \$671 thousand increase in card processing and issuance expenses related to the increase in card transactions and revenues.

Credit Quality

At December 31, 2005, TCF's allowance for loan and lease losses totaled \$60.4 million, or .59 percent of loans and leases, compared with \$79.9 million, or .85 percent, at December 31, 2004. The provision for credit losses for 2005 was \$5 million, down from \$10.9 million for 2004, due to improved credit quality and a relatively large commercial loan recovery. Net loan and lease charge-offs in 2005 were \$24.5 million, or .25 percent of average loans and leases, up from \$9.5 million, or .11 percent in 2004. Net loan and lease charge-offs excluding the leveraged lease charge-off in the third quarter of 2005 were \$5.7 million, or .06 percent of average loans and leases for 2005. Net loan and lease charge-offs in the fourth quarter of 2005 were \$2.3 million, or .09 percent of average loans and leases, down from \$3.2 million, or .14 percent in the same period of 2004. This decrease is primarily due to lower leasing and equipment finance net charge-offs due to improved credit quality, partially offset by slightly higher consumer

loan net charge-offs.

At December 31, 2005, TCF's over-30-day delinquency rate was .43 percent, up from .37 percent at December 31, 2004. Non-accrual loans and leases were \$29.6 million, or .29 percent of net loans and leases, at December 31, 2005, compared with \$46.9 million, or .50 percent, at December 31, 2004. Total non-performing assets were \$47.4 million, or .35 percent of total assets, at December 31, 2005, down from \$64.1 million, or .52 percent, at December 31, 2004. The decrease in non-accrual loans and leases and non-performing assets was primarily due to the 2005 charge-off of the leveraged lease, partially offset by increases in consumer home equity loans in non-accrual status, mainly the result of changes in bankruptcy laws that occurred in October 2005.

Mortgage Banking

At December 31, 2005, TCF's mortgage servicing portfolio totaled \$3.4 billion and the mortgage servicing rights asset totaled \$37.3 million, or 1.11 percent of the related servicing portfolio, down from \$4.5 billion and \$46.4 million, respectively, at December 31, 2004. During the fourth quarter of 2005, TCF recorded a \$2 million impairment recovery driven by slowing prepayments and slower assumed prepayments in the mortgage servicing rights portfolio, as compared with a \$2.5 million impairment charge for the same 2004 period. The following table summarizes the components of mortgage banking revenues.

Income Taxes

TCF's income tax expense was \$115.3 million for 2005, or 30.3 percent of pre-tax income, compared with \$129.5 million, or 33.7 percent, for 2004. The lower annual effective tax rate for 2005, compared with 2004, was primarily due to the closing of previous years' tax returns, clarification of existing state tax legislation and developments in income tax audits. TCF's income tax expense was \$26.7 million for the fourth quarter of 2005, or 28.9 percent of pre-tax income, compared with \$33.1 million, or 33 percent, for the comparable 2004 period. The lower effective tax rate for the fourth quarter of 2005, compared with the same 2004 period, is primarily due to the same items noted above.

Capital

TCF repurchased 3,450,000 shares of its common stock during 2005 at an average cost of \$27.10 per share. TCF has 6.7 million shares remaining in its stock repurchase programs authorized by its Board of Directors.

Website Information

A live webcast of TCF's conference call to discuss 2005 and fourth quarter earnings will be hosted at TCF's website, www.TCFExpress.com, on January 18, 2006 at 10:00 a.m., CT. Additionally, the webcast is available for replay at TCF's website after the conference call. The website also includes free access to company news releases, TCF's annual report, quarterly reports, investor presentations and SEC filings.

TCF is a Wayzata, Minnesota-based national financial holding company with \$13.4 billion in assets. TCF has 453 banking offices in Minnesota, Illinois, Michigan, Wisconsin, Colorado and Indiana. Other TCF affiliates provide leasing and equipment finance, securities brokerage, and investments and insurance sales.

Forward-looking Information

This earnings release and other reports issued by the Company, including reports filed with the SEC, may contain "forward-looking" statements that deal with future results, plans or performance. In addition, TCF's management may make such statements orally to the media, or to securities analysts, investors or others. Forward-looking statements deal with matters that do not relate strictly to historical facts. TCF's future results may differ materially from historical performance and forward-looking statements about TCF's expected financial results or other plans are subject to a number of risks and uncertainties. These include but are not limited to possible legislative changes and adverse economic, business and competitive developments such as shrinking interest margins; deposit outflows; ability to increase the number of checking accounts and the possibility that deposit account losses (fraudulent checks, etc.) may increase; reduced demand for financial services and loan and lease products; adverse developments affecting TCF's supermarket banking relationships or any of the supermarket chains in which TCF maintains supermarket branches; changes in accounting standards or interpretations of existing standards, or monetary, fiscal or tax policies of the federal or state governments; adverse findings in tax audits; changes in credit and other risks posed by TCF's loan, lease and investment portfolios, including declines in commercial or residential real estate values; imposition of vicarious liability on TCF as lessor in its leasing operations; denial of insurance coverage for claims made by TCF; technological, computer-related or operational difficulties; adverse changes in securities markets; the risk that TCF could be unable to effectively manage the volatility of its mortgage servicing portfolio, which could adversely affect earnings; and results of litigation, including reductions in card revenues resulting from litigation brought by various merchants or merchant organizations against VISA, or other significant uncertainties. Investors should consult TCF's Annual Report to Shareholders and reports on Forms 10-K, 10-Q and 8-K for additional important information about the Company.

- (1) For the year ended December 31, 2005, leasing and equipment finance net charge-offs excluding the leveraged lease were \$2.6 million, or .18% of average loans and leases.
- (2) In the second quarter of 2005, TCF refined its allowance for loan and lease losses allocation methodology resulting in the allocation of the entire allowance for loan and lease losses to the individual loan and lease portfolios. This change allocates the previous unallocated portion of the allowance for loan and lease losses.
- (3) For the year ended December 31, 2005, total net charge-offs excluding the leveraged lease were \$5.7 million, or .06% of average loans and leases.
- (4) Excludes non-accrual loans and leases.
- (5) Consists of loans and leases primarily classified for regulatory purposes as substandard and reflect the distinct possibility, but not probability, that they will become non-performing or that TCF will not be able to collect all amounts due according to the contractual terms of the loan or lease agreement. Potential problem loans and leases may also be included in over 30-day delinquent loans and leases.
