Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§ 230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§ 240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

ITEM 7.01. REGULATION FD DISCLOSURE.

Attached hereto as Exhibit 99.1 and incorporated by reference herein is a press release of Argo Group International Holdings, Ltd. (“Argo Group”) dated May 1, 2017, announcing that beginning with the publication of Argo Group’s first-quarter earnings report on Wednesday, May 3, the company will revise the presentation of its financial results to reflect its new operating segments. See Exhibit 99.1 for, among other things, more details about the new segment structure and certain recast segment financial results and information.

Note: The information in this report and Exhibit 99.1 attached hereto are furnished pursuant to Item 7.01 and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that section. This report will not be deemed an admission as to the materiality of any information in the report that is required to be disclosed solely by Regulation FD.

Argo Group Announces Financial Reporting Change

HAMILTON, Bermuda (May 1, 2017) – Argo Group International Holdings, Ltd. (NASDAQ: AGII), an international underwriter of specialty insurance and reinsurance products, announced today it will make a change to its reporting of financial results aligned with two reportable segments – U.S. Operations and International Operations – rather than the previously reported four segments, representing a simplification of its former operational framework.

“This is an important step better reflecting the way we are managing our businesses and thinking about our operating platforms,” said Argo Group CEO Mark E. Watson III. “We achieved important enhancements last year with the addition of Jose A. Hernandez to lead our international business and the acquisition of Ariel Re, which closed earlier this year. These recent additions combined with the consolidation of our U.S. Operations under the leadership of Kevin J. Rehnberg, allows us to make this change. With these additions and operational changes, we are better positioned as a global underwriter of specialty insurance and reinsurance products.”

The reporting changes are effective with first quarter 2017 earnings. The U.S. Operations will include the Excess & Surplus Lines and Commercial Specialty businesses. International Operations will include Syndicate 1200, International Specialty and the newly acquired Ariel Re business.

To allow investors to view the new reporting segments structure prior to Argo Group’s upcoming earnings report, scheduled for release after the close of markets on Wednesday, May 3, 2017, certain historical information is attached and presented including segment information based on the new framework. The attached historical information includes (1) the recasting of previously issued segment-related financial information to reflect the new framework and (2) certain other historical financial information that is unchanged from previously reported financial information and included herein only for purposes of context. The attached financial information does not represent a restatement of previously issued financial statements and does not affect our consolidated financial statements for any of the previously reported periods.

ABOUT ARGO GROUP INTERNATIONAL HOLDINGS, LTD.

Argo Group International Holdings, Ltd. (NASDAQ: AGII) is an international underwriter of specialty insurance and reinsurance products in the property and casualty market. Argo Group offers a full line of products and services designed to meet the unique coverage and claims handling needs of businesses in two primary segments: U.S. Operations and International Operations. Argo Group's insurance subsidiaries are A. M. Best-rated 'A' (Excellent) (third highest rating out of 16 rating classifications) with a stable outlook, and Argo's U.S. insurance subsidiaries are Standard and Poor's-rated 'A-' (Strong) with a stable outlook. More information on Argo Group and its subsidiaries is available at www.argolimited.com.

FORWARD-LOOKING STATEMENTS

This press release contains certain statements that are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are qualified by the inherent risks and uncertainties surrounding future expectations generally and also may differ materially from actual future experience involving any one or more of such statements. For a more detailed discussion of such risks and uncertainties, see Argo Group's filings with the SEC. The inclusion of a forward-looking statement herein should not be regarded as a representation by Argo Group that Argo Group's objectives will be achieved. Argo Group undertakes no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise.

NON-GAAP FINANCIAL MEASURES

In presenting the Company's results, management has included and discussed in this press release certain non-generally accepted accounting principles ("non-GAAP") financial measures within the meaning of Regulation G as promulgated by the U.S. Securities and Exchange Commission. Management believes that these non-GAAP measures, which may be defined differently by other companies, better explain the Company's results of operations in a manner that allows for a more complete understanding of the underlying trends in the Company's business. However, these measures should not be viewed as a substitute for those determined in accordance with generally accepted accounting principles ("U.S. GAAP"). "Underwriting income" is an internal performance measure used in the management of the Company's operations and represents net amount earned from underwriting activities (net premiums earned less underwriting expenses and claims incurred). Although this measure of profit (loss) does not replace net income (loss) computed in accordance with U.S. GAAP as a measure of profitability, management uses this measure of profit (loss) to focus our reporting segments on generating underwriting income. The Company presents Underwriting income as a measure that is commonly recognized as a standard of performance by investors, analysts, rating agencies and other users of its financial information. "Adjusted operating income" is an internal performance measure used in the management of the Company's operations and represents after-tax (at an assumed effective tax rate of 20%) operational results excluding, as applicable, net realized investment gains or losses, net foreign exchange gain or loss, and other similar non-recurring items. The Company excludes net realized investment gains or losses, net foreign exchange gain or loss, and other similar non-recurring items from the calculation of adjusted operating income because these amounts are influenced by and fluctuate in part, by market conditions that are outside of managements' control. In addition to presenting net income determined in accordance with U.S. GAAP, the Company believes that showing adjusted operating income enables investors, analysts, rating agencies and other users of the Company's financial information to more easily analyze our results of operations and underlying business performance. Adjusted operating income should not be viewed as a substitute for U.S. GAAP

net income. “Annualized return on average shareholders’ equity” (“ROAE”) is calculated using average shareholders’ equity. In calculating ROAE, the net income available to shareholders for the period is multiplied by the number of periods in a calendar year to arrive at annualized net income available to shareholders. The Company presents ROAE as a measure that is commonly recognized as a standard of performance by investors, analysts, rating agencies and other users of its financial information. “Annualized adjusted operating return on average shareholders’ equity” is calculated using adjusted operating income (as defined above and annualized in the manner described for net income (loss) available to shareholders under ROAE above) and average shareholders’ equity. The assumed tax rate is 20%. Reconciliations of these financial measures to their most directly comparable U.S. GAAP measures are included in the attached tables. (financial tables follow)

Notes:

The presentation of Argo’s financial reporting segments was modified to better reflect its new operating framework and management structure. Under this model, Argo’s Chief Executive Officer, Mark E. Watson, evaluates performance and allocates resources based on the review of the U.S. Operations and International Operations.

The U.S. Operations includes the former Excess & Surplus and Commercial Specialty reportable segments.

The International Operations includes the former Syndicate 1200, International Specialty reportable segments, and the recently acquired Ariel Re business.

It is the business unit that produces the risk and not the location of the underlying exposure that is the primary characteristic in distinguishing U.S. Operations from International Operations. For example, a U.S. property exposure underwritten through our Syndicate platform would be included in our International Operations.

Argo’s reportable segments will include four primary insurance and reinsurance services and offerings:

- **Property** – includes both property insurance and reinsurance solutions. Insurance products cover commercial properties primarily in North America with some residential and international covers. Reinsurance covers underlying exposures that are located throughout the world, including the United States. These offerings include coverages for man-made and natural disasters.
- **Liability** – includes a broad range of primary and excess casualty for risks on both an admitted and non-admitted basis in the United States. Internationally, Argo writes worldwide casualty risks primarily exposed in the UK, Canada, and Australia.
- **Professional** – includes various professional lines products including errors and omissions, management liability (including Directors and Officers) and cyber coverages.
- **Specialty** – includes niche insurance coverages including marine & energy, accident & health, and surety product offerings.

Corporate and Run-Off include all other activity of Argo. Consistent with prior reporting, amounts for both Corporate and Run-Off are included in the consolidated financial results.
