FBL Financial Group Reports First Quarter 2019 Results

West Des Moines, Iowa, May 2, 2019 -

Financial Highlights

(Dollars in thousands, except per share data)

	Three months ended March 31,	
	2019	2018
Net income attributable to FBL Financial Group	\$ 34,043	\$ 23,565
Adjusted operating income ⁽¹⁾	25,902	26,297
Earnings per common share (assuming dilution):		
Net income	1.37	0.94
Adjusted operating income ⁽¹⁾	1.04	1.05

FBL Financial Group, Inc. (NYSE: FFG) today reported net income attributable to FBL Financial Group for the first quarter of 2019 of \$34.0 million, or \$1.37 per diluted common share, compared to \$23.6 million, or \$0.94 per diluted common share, for the first quarter of 2018. Adjusted operating income⁽¹⁾ totaled \$25.9 million, or \$1.04 per common share, for the first quarter of 2019, compared to \$26.3 million, or \$1.05 per common share, for the first quarter of 2018. First quarter 2019 earnings per share reflects:

- Lower amortization of acquisition costs in the Corporate and Other segment due to the positive impact of equity markets on separate account performance
- The benefit of other investment-related income of \$0.04 per share
- Lower spread income in the Annuity segment
- Unfavorable mortality results in the Life segment
- Net realized gains on investments

Adjusted operating income differs from the GAAP measure, net income attributable to FBL Financial Group, in that it excludes realized gains and losses on investments, and the change in net unrealized gains and losses on derivatives and equity securities. For further information on this non-GAAP financial measure, please refer to Note (1) and the reconciliation provided within this release.

"FBL Financial Group delivered solid first quarter 2019 earnings with net income of \$1.37 per share and adjusted operating income of \$1.04 per share," said James P. Brannen, Chief Executive Officer of FBL Financial Group, Inc. "In the first quarter of 2019 we also returned more than \$48 million to shareholders

with the payment of a special dividend of \$1.50 per share and our increased quarterly dividend of \$0.48 per share. As we move forward in 2019, we remain focused on the fundamentals: serving the needs of the Farm Bureau niche market with products and services to protect livelihoods and futures."

Product Revenues Increase from 2018. Premiums and product charges for the first quarter of 2019 increased to \$80.7 million compared to \$79.6 million in the first quarter of 2018. Interest sensitive product charges increased 4 percent while traditional life insurance premiums were flat during the quarter. Premiums collected⁽²⁾ in the first quarter of 2019 totaled \$160.7 million compared to \$169.7 million in the first quarter of 2018.

Investment Income of \$110 Million in First Quarter. Net investment income in the first quarter of 2019 totaled \$109.6 million, compared to \$101.0 million in the first quarter of 2018. This increase reflects a change in the fair value of derivatives and an increase in average invested assets, partially offset by lower investment yields. The annualized yield earned on average invested assets, with securities at amortized cost, including investments held as securities and indebtedness of related parties, was 4.97 percent for the three months ended March 31, 2019 compared to 5.21 percent for the three months ended March 31, 2018. At March 31, 2019, 97 percent of the fixed maturity securities in FBL Financial Group's investment portfolio were investment grade debt securities.

Benefits and Expenses. Benefits and expenses totaled \$163.5 million in the first quarter of 2019, compared to \$155.7 million in the first quarter of 2018. Death benefits, net of reinsurance and reserves released, totaled \$33.9 million in the first quarter of 2019, compared to \$32.6 million in the first quarter of 2018. By its nature, mortality experience can fluctuate from quarter to quarter.

Net Realized Gains in the First Quarter. In the first quarter of 2019, FBL Financial Group recognized net realized gains on investments of \$9.3 million. This is attributable to realized gains of \$5.8 million, unrealized gains on equity securities of \$4.4 million and other-than-temporary impairments of \$0.9 million.

Stock Repurchases. During the first quarter of 2019, FBL Financial Group repurchased 66,475 shares of its Class A common stock. FBL Financial Group has \$36.3 million remaining under its current stock repurchase program.

Capital and Book Value. As of March 31, 2019, the book value per share of FBL Financial Group common stock totaled \$51.13, compared to \$47.78 at December 31, 2018. Book value per share, excluding accumulated other comprehensive income⁽³⁾, totaled \$43.45 at March 31, 2019, compared to \$44.09 at December 31, 2018. The March 31, 2019 company action level risk based capital ratio of FBL Financial Group's wholly owned subsidiary, Farm Bureau Life Insurance Company, was approximately 517 percent.

Further Financial Information. Further information on FBL Financial Group's financial results, including results by segment, may be found in FBL Financial Group's financial supplement, available on its website, www.fblfinancial.com.

Conference Call. FBL Financial Group will hold a conference call with investors tomorrow, May 3, 2019, at 11:00 a.m. Eastern Time. The call will be webcast and a replay will be available on FBL Financial Group's website.

Certain statements in this release concerning FBL Financial Group's prospects for the future are forward-looking statements intended to qualify for the "safe harbor" from liability established by the Private Securities Litigation Reform Act. These statements generally can be identified by their context, including terms such as "believes," "anticipates," "expects," or similar words. These statements involve certain risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statement. These risks and uncertainties are detailed in FBL Financial Group's reports filed with the Securities and Exchange Commission and include, but are not limited to, changes in interest rates, difficult conditions in financial markets and the economy, lack of liquidity and access to capital, investment valuations, competitive factors, a decrease in ratings, changes in laws and regulations, differences between actual claims experience and underwriting assumptions, relationships with Farm Bureau organizations, the ability to attract and retain sales agents and adverse results from litigation. These forward-looking statements are based on assumptions which FBL Financial Group believes to be reasonable; however, no assurance can be given that the assumptions will prove to be correct. FBL Financial Group undertakes no obligation to update any forward-looking statements.

FBL Financial Group is a holding company whose purpose is to protect livelihoods and futures. Operating under the consumer brand name Farm Bureau Financial Services, it offers a broad range of life insurance and annuity products distributed by multiline exclusive Farm Bureau agents. In addition, FBL Financial Group manages all aspects of two Farm Bureau affiliated property-casualty insurance companies for a management fee. Headquartered in West Des Moines, Iowa, FBL Financial Group is traded on the New York Stock Exchange under the symbol FFG. For more information, please visit www.fblfinancial.com and www.fbfs.com.

Net investment income	109,640	101,022
Net realized capital gains (losses)	10,157	(1,747)
Net other-than-temporary impairment losses recognized in earnings	(869)	(1,040)
Other income	3,970	4,600
Total revenues	203,556	182,430
Benefits and expenses:		
Interest sensitive product benefits	70,596	61,345
Traditional life insurance benefits	46,675	45,456
Policyholder dividends	2,534	2,551
Underwriting, acquisition and insurance expenses	36,189	39,577
Interest expense	1,212	1,213
Other expenses	6,250	5,593
Total benefits and expenses	163,456	155,735
	40,100	26,695
Income taxes	(6,276)	(3,813)
Equity income, net of related income taxes	220	660
Net income	34,044	23,542
Net loss (income) attributable to noncontrolling interest	(1)	23
Net income attributable to FBL Financial Group, Inc.	\$ 34,043	\$ 23,565
Earnings per common share - assuming dilution	\$ 1.37	\$ 0.94
Weighted average common shares	24,765,277	25,003,691
Effect of dilutive securities	11,176	15,818
Weighted average common shares - diluted	24,776,453	25,019,509

(1) Reconciliation of Net Income Attributable to FBL Financial Group to Adjusted Operating Income - Unaudited

FBL Financial Group consistently utilizes adjusted operating income, a financial measure common in the life insurance industry that is not prepared in accordance with U.S. generally accepted accounting principles (GAAP), as a primary economic measure to evaluate its financial performance. Adjusted operating income consists of net income attributable to FBL Financial Group adjusted to exclude realized gains and losses on investments, and the change in fair value of derivatives and equity securities, which can fluctuate greatly from period to period. These fluctuations make it difficult to analyze core operating trends. In addition, for derivatives not designated as hedges, there is a mismatch between the valuation of the asset and liability when deriving net income (loss). Specifically, call options relating to indexed business are one-year assets while the embedded derivatives in the indexed contracts represent the rights of the contract holder to receive index credits over the entire period the indexed products are expected to be in force. This non-GAAP measure is used for goal setting, determining short-term incentive compensation and evaluating performance on a basis comparable to that used by many in the investment community. FBL Financial Group believes the presentation and evaluation of adjusted operating income provides information that may enhance an investor's understanding of FBL Financial Group's underlying results and profitability. A reconciliation is provided in the following table:

	Three months ended	
	March 31,	
	2019	2018
	(Dollars in thousands, except per share data)	
Net income attributable to FBL Financial Group	\$ 34,043	\$ 23,565
Adjustments:		
Net realized gains/losses on investments ^(a)	(7,230)	2,223
Change in net unrealized gains/losses on derivatives ^(a)	(911)	509
Adjusted operating income	<u>\$ 25,902</u>	<u>\$ 26,297</u>
Adjusted operating income per common share - assuming dilution	<u>\$ 1.04</u>	<u>\$ 1.05</u>

^(a) Net of adjustments, as applicable, to amortization of unearned revenue reserves, deferred acquisition costs, value of insurance in force acquired, interest sensitive policy reserves and income taxes attributable to these items.

(2) Premiums Collected - Net statutory premiums collected is a non-GAAP measure and includes premiums collected from annuities and universal life-type products. It is a useful metric for investors as it is a measure of sales production. For GAAP reporting, these premiums received are not reported as revenues.

(3) Reconciliation of Book Value Per Share Excluding Accumulated Other Comprehensive Income - Unaudited

	March 31, 2019	December 31, 2018
Book value per share	\$ 51.13	\$ 47.78
Less: Per share impact of accumulated other comprehensive income	7.68	3.69
Book value per share, excluding accumulated other comprehensive income	<u>\$ 43.45</u>	<u>\$ 44.09</u>

Book value per share excluding accumulated other comprehensive income is a non-GAAP financial measure. Accumulated other comprehensive income totaled \$189.2 million at March 31, 2019 and \$91.3 million at December 31, 2018. Since accumulated other comprehensive income fluctuates from quarter to quarter due to unrealized changes in the fair value of investments caused principally by changes in market interest rates, FBL Financial Group believes this non-GAAP financial measure provides useful supplemental information.

NOTE 1: In addition to net income as determined using U.S. Generally Accepted Accounting Principles (GAAP), we have consistently used adjusted operating income (a measure of earnings not recognized under GAAP), a financial measure common in the life insurance industry, as a primary economic measure to evaluate our financial performance. Adjusted operating income for the periods presented consists of net income adjusted to exclude the initial impact of changes in federal statutory income tax rates and tax laws, realized gains and losses on investments and the change in net unrealized gains and losses on derivatives and equity securities.

We use adjusted operating income, in addition to net income, to measure our performance since realized gains and losses on investments and the change in net unrealized gains and losses on derivatives and equities can fluctuate greatly from quarter to quarter. These fluctuations make it difficult to analyze core operating trends. A view of our adjusted operating performance without the impact of these items enhances the analysis of our results. We use adjusted operating income for goal setting, determining short-term incentive compensation and evaluating performance on a basis comparable to that used by many in the investment community.

We analyze our segment results based on pre-tax adjusted operating income, which excludes the impact of certain items that are included in pre-tax net income. Pre-tax adjusted operating income is a basis allowed for segment reporting under U.S. generally accounting principles (GAAP). See Note 9 to our consolidated financial statements in Form 10-Q for further information regarding how we define our segments and pre-tax adjusted operating income.

NOTE 2: Certain financial information presented herein may not add due to rounding.

- (1) During the third quarter of 2018, we adjusted the provisional estimate of the impact of the Tax Act on our deferred tax assets and liabilities as of December 31, 2017. See Note 5 to our consolidated financial statements in Form 10-Q for the quarter ended September 30, 2018 for additional information.
- (2) Amounts are net of offsets related to changes in amortization of unearned revenue reserves, deferred sales inducements and deferred acquisition costs, as well as changes in interest sensitive product reserves and income taxes attributable to these items.
- (3) Adjusted operating income is a non-GAAP measure of earnings, see Note 1 on page 1 for additional information.
- (4) The items excluded from adjusted operating income impact the amortization of deferred acquisition costs, value of business acquired and unearned revenue reserve. Certain interest sensitive reserves as well as income taxes are also impacted.

FBL Financial Group, Inc.

Segment Information

We analyze operations by reviewing financial information regarding our primary products that are aggregated into the Annuity and Life Insurance product segments. In addition, our Corporate and Other segment includes various support operations, corporate capital and other product lines that are not currently underwritten by the Company.

The Annuity segment primarily consists of fixed rate and indexed annuities and supplementary contracts (some of which involve life contingencies). Fixed rate and indexed annuities provide for tax-deferred savings and supplementary contracts provide for the systematic repayment of funds that accumulate interest. Fixed rate annuities consist primarily of flexible premium deferred annuities, but also include single premium deferred and immediate contracts. With fixed rate annuities, we bear the underlying investment risk and credit interest to the contracts at rates we determine, subject to interest rate guarantees. With indexed annuity products, we bear the underlying investment risk and credit interest in an amount equal to a percentage of the gain in a specified market index, subject to minimum guarantees.

The Life Insurance segment consists of whole life, term life and universal life policies, including indexed universal life. These policies provide benefits upon the death of the insured and may also allow the customer to build cash value on a tax-deferred basis.

The Corporate and Other segment consists of the following corporate items and products/services that do not meet the quantitative threshold for separate segment reporting:

- investments and related investment income not specifically allocated to our product segments;
- interest expense;
- closed blocks of variable annuity, variable universal life insurance and accident and health insurance products;
- advisory services for the management of investments and other companies;
- marketing and distribution services for the sale of mutual funds and insurance products not issued by us; and
- leasing services, primarily with affiliates.

We analyze our segment results based on pre-tax adjusted operating income. Accordingly, income taxes are not allocated to the segments. In addition, adjusted operating results are reported net of transactions between the segments.

- (1) During the fourth quarter of 2018 we offered a voluntary early retirement program resulting in a decrease in net investment income from increased investment expenses (\$0.4 million) and an increase in other underwriting expenses (\$3.6 million).
- (2) During the fourth quarter of 2018 we incurred additional charges due to updating the estimate of the impact of an immaterial error related to policy benefits on a closed block of interest sensitive whole life business. The correction, along with accrued interest, resulted in increases to interest credited (\$2.0 million), interest sensitive death benefits (\$3.3 million) and traditional life future policy benefits (\$0.2 million).
- (3) Reserves on riders in interest sensitive life insurance products are included in Other insurance reserves.
- (4) Point-in-time spread at the balance sheet date used by management for decision making with universal life (excluding products with a secondary guarantee) differs from the spread earned during the reporting period disclosed in the Form 10Q or 10K.
