HANMI FINANCIAL CORPORATION

(Exact Name of Registrant as Specified in its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

95-4788120
(I.R.S. Employer
Identification No.)

3660 Wilshire Boulevard, Penthouse Suite A
Los Angeles, California

(Address of Principal Executive Offices)

90010
(Zip Code)

(213) 382-2200
(Registrant's Telephone Number, Including Area Code)

Not Applicable
(Former Name, Former Address and Former Fiscal Year, If Changed Since Last Report)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer

Smaller Reporting Company

Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of May 7, 2019, there were 30,928,043 outstanding shares of the Registrant's Common Stock.

Securities Registered Pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, \$0.001 par value	HAFC	Nasdaq Global Select Market

Hanmi Financial Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)
Three Months Ended March 31, 2019 and 2018

Note 1 — Organization and Basis of Presentation

Hanmi Financial Corporation (“Hanmi Financial,” the “Company,” “we,” “us” or “our”) is a bank holding company whose subsidiary is Hanmi Bank (the “Bank”). Our primary operations are related to traditional banking activities, including the acceptance of deposits and the lending and investing of money through the operation of the Bank.

On January 24, 2019, the Company's Board of Directors adopted a new stock repurchase program under which the Company may repurchase up to 5% of its outstanding shares, or approximately 1.5 million shares, of its common stock. The repurchase program permits shares to be repurchased in open market or private transactions, through block trades, and pursuant to any trading plan that may be adopted in accordance with Rule 10b5-1 of the Securities and Exchange Commission. Repurchases will be made at management's discretion at prices management considers to be attractive and in the best interests of both the Company and its stockholders, subject to the availability of stock, general market conditions, the trading price of the stock, alternative uses for capital, and the Company's financial performance. The repurchase program may be suspended, terminated or modified at any time for any reason, including market conditions, the cost of repurchasing shares, the availability of alternative investment opportunities, liquidity, and other factors deemed appropriate. The repurchase program does not obligate the Company to purchase any particular number of shares. The Company did not repurchase common stock during the three months ended March 31, 2019.

In management's opinion, the accompanying unaudited consolidated financial statements of Hanmi Financial and its subsidiaries reflect all adjustments of a normal and recurring nature that are necessary for a fair presentation of the results for the interim period ended March 31, 2019, but are not necessarily indicative of the results that will be reported for the entire year or any other interim period. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) have been condensed or omitted. The aforementioned unaudited consolidated financial statements are prepared in conformity with GAAP and in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The interim information should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 31, 2018 (the “2018 Annual Report on Form 10-K”).

The preparation of interim unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Material estimates subject to change include, among other items, the determination of allowance for loan and lease losses and allowance for off-balance sheet items, other-than-temporary impairment, securities valuations, the fair value of other assets and liabilities acquired in a business combination and income taxes. Actual results could differ from those estimates.

Descriptions of our significant accounting policies are included in Note 1 - Summary of Significant Accounting Policies in the Notes to consolidated financial statements in our 2018 Annual Report on Form 10-K.

Effective January 1, 2018, the Company adopted Accounting Standards Update (“ASU”) 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities (Topic 825)* and ASU 2018-02, *Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income (Topic 220)*. Summaries of ASU 2016-01 and 2018-02 and the impact of their adoption are included in Notes 2 and 5 to the unaudited consolidated financial statements, respectively. In addition to other provisions, ASU 2016-01 requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. Beginning with the quarter ended March 31, 2018, the Company measured the fair value of certain financial instruments, included in Note 10 to the unaudited consolidated financial statements, using an exit price notion.

The Company also adopted ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, as of January 1, 2018, as required. ASU 2014-09 replaces existing revenue recognition guidance for contracts to provide goods or services to customers and amends existing guidance related to recognition of gains and losses on the sale of certain nonfinancial assets such as real estate. See Note 13 to the accompanying unaudited consolidated financial statements for the impact of the adoption of this new standard on the Company's consolidated financial statements.

Effective January 1, 2019, the Company adopted ASU 2016-02, *Leases (Topic 842)*, which requires lessees to recognize a right of use asset and a lease liability on their balance sheet for all leases, including operating leases, with a term of greater than 12 months. In July 2018, the FASB issued ASU 2018-11, which adds a transition option permitting entities to apply the provisions of the new standard at its adoption date instead of the earliest comparative period presented in the consolidated financial statements. Under this transition option, comparative reporting would not be required, and the provisions of the standard would be applied prospectively to leases in effect at the date of adoption. The Company elected to use the optional transition method provided by ASU 2018-11. The Company also elected the package of practical expedients permitted under the transition guidance within the new standard, which allowed the Company to carry forward its ASC 840 assessment regarding definition of a lease, lease classification, and initial direct costs. The following practical expedients were applied implementing this standard.

- We did not reassess whether any expired or existing contracts are, or contain, leases. Additionally, we did not reassess for lease classifications of expired or existing leases, or initial direct costs for any existing leases.
- We applied incremental borrowing rates as of adoption date of January 1, 2019.
- We elected to not separate non-lease components from lease components and, instead, to account for each separate lease component and the non-lease components associated with it as a single lease component recognized on the balance sheet. This election has been made for all classes of leases.
- We elected the short-term lease exception, which allows us to account for leases with a lease term of twelve months or less to be accounted for similar to existing operating leases. The cost of these leases is disclosed, but is not recognized in the right-of-use asset and lease liability balances. Consistent with ASC 842 requirements, leases that are one month or less are not included in the disclosures.
- We have elected to account for the leases under the portfolio approach applying them prospectively for this accounting change. The portfolio approach allows us to present multiple similar leased assets in a pool and prospectively allows us to commence the calculation of the portfolio of leases using the remaining commitments from adoption date forward.

See Note 14 to the unaudited consolidated financial statements for the impact of the adoption of this new standard on the Company's consolidated financial statements.

Note 2 — Securities

The following is a summary of securities available for sale as of the dates indicated:

	Amortized Cost	Gross Unrealized Gain	Gross Unrealized Loss	Estimated Fair Value
	<i>(in thousands)</i>			
March 31, 2019				
U.S. Treasury securities	\$ 54,584	\$ 148	\$ 4	\$ 54,728
U.S. government agency and sponsored agency obligations:				
Mortgage-backed securities	356,973	566	2,938	354,601
Collateralized mortgage obligations	153,286	298	1,557	152,027
Debt securities	17,472	74	53	17,493

All individual securities that have been in a continuous unrealized loss position for 12 months or longer as of March 31, 2019 and December 31, 2018 had investment grade ratings upon purchase. The issuers of these securities have not established any cause for default on these securities and the various rating agencies have reaffirmed these securities' long-term investment grade status as of March 31, 2019 and December 31, 2018. These securities have fluctuated in value since their purchase dates as market interest rates have fluctuated.

The Company does not intend to sell these securities and it is more likely than not that we will not be required to sell the investments before the recovery of their amortized cost basis. In addition, the unrealized losses on municipal securities are not considered other-than-temporarily impaired, as the bonds are rated investment grade and there are no credit quality concerns with the issuers. Interest payments have been made as scheduled, and management believes this will continue in the future and the bonds will be repaid in full as scheduled. Therefore, in management's opinion, all securities that have been in a continuous unrealized loss position for the past 12 months or longer as of March 31, 2019 and December 31, 2018 were not other-than-temporarily impaired, and therefore, no impairment charges as of March 31, 2019 and December 31, 2018 were warranted.

Realized gains and losses on sales of securities and proceeds from sales of securities were as follows for the periods indicated:

	Three Months Ended March 31,	
	2019	2018
	<i>(in thousands)</i>	
Gross realized gains on sales of securities	\$ 725	\$ —
Gross realized losses on sales of securities	—	(957)
Net realized gains (losses) on sales of securities	\$ 725	\$ (957)
Proceeds from sales of securities	\$ 69,187	\$ 21,958

During the three months ended March 31, 2019, there was a \$725,000 net gain in earnings resulting from the sale of securities. Net unrealized loss of \$206,000 related to these securities had previously been recorded in accumulated other comprehensive income as of the beginning of the period in 2019.

In January 2016, the Financial Accounting Standards Board (“FASB”) issued ASU 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities (Topic 825)*. This new guidance, among other provisions, amends accounting related to the classification and measurement of investments in equity securities. We adopted this guidance, as required, in the first quarter of 2018. ASU 2016-01 requires the amounts reported in accumulated other comprehensive income for equity securities that exist as of the date of adoption previously classified as available-for-sale be reclassified to retained earnings. The Company reduced the balance of securities by \$529,000 as of January 1, 2018, representing the loss related to all of our mutual fund equity securities, which resulted in a net reduction of retained earnings of \$382,000 and an increase of \$147,000 in net deferred tax assets based on the transition requirements of this standard.

During the three months ended March 31, 2018, we sold all of our mutual fund equity securities with gross realized losses of \$957,000. The Company recorded a \$428,000 net loss in earnings resulting from the sale of these securities. The remaining loss of \$529,000 related to these sold securities was recorded as a transition adjustment upon adoption of ASU 2016-01 as of the beginning of the period as described in the preceding paragraph.

Securities available for sale with market values of \$30.0 million and \$29.9 million as of March 31, 2019 and December 31, 2018, respectively, were pledged to secure public deposits and for other purposes as required or permitted by law.

Note 3 — Loans and Leases

Loans and Leases Receivable

Loans and leases receivable consisted of the following as of the dates indicated:

	March 31, 2019	December 31, 2018
	<i>(in thousands)</i>	
Real estate loans:		
Commercial property		
Retail	\$ 898,632	\$ 906,260
Hospitality	812,592	830,679
Other ⁽¹⁾	1,436,593	1,449,270
Total commercial property loans	<u>3,147,817</u>	<u>3,186,209</u>
Construction	82,709	71,583
Residential property	483,830	500,563
Total real estate loans	<u>3,714,356</u>	<u>3,758,355</u>
Commercial and industrial loans:		
Commercial term	186,471	206,691
Commercial lines of credit	196,213	194,032
International loans	39,818	29,180
Total commercial and industrial loans	<u>422,502</u>	<u>429,903</u>
Leases receivable	425,530	398,858
Consumer loans ⁽²⁾	13,232	13,424
Loans and leases receivable	4,575,620	4,600,540
Allowance for loan and lease losses	(32,896)	(31,974)
Loans and leases receivable, net	\$ 4,542,724	\$ 4,568,566

⁽¹⁾ Includes, among other types, mixed-use, apartment, office, industrial, gas stations, faith-based facilities and warehouse; all other property types represent less than one percent of total loans and leases receivable.

⁽²⁾ Consumer loans include home equity lines of credit of \$9.9 million and \$10.3 million as of March 31, 2019 and December 31, 2018, respectively.

Accrued interest on loans and leases receivable was \$11.5 million and \$10.9 million at March 31, 2019 and December 31, 2018, respectively. At March 31, 2019 and December 31, 2018, loans and leases receivable of \$1.1 billion were pledged to secure advances from the FHLB.

Loans Held for Sale

The following is the activity for SBA loans held for sale for the three months ended March 31, 2019 and 2018:

	SBA Loans Held for Sale		
	Real Estate	Commercial and Industrial	Total
	<i>(in thousands)</i>		
March 31, 2019			
Balance at beginning of period	\$ 5,194	\$ 4,196	\$ 9,390
Originations	9,064	4,159	13,223
Sales	(7,756)	(7,703)	(15,459)
Principal payoffs and amortization	(2)	(12)	(14)
Balance at end of period	\$ 6,500	\$ 640	\$ 7,140
March 31, 2018			
Balance at beginning of period	\$ 3,746	\$ 2,648	\$ 6,394
Originations	10,433	8,372	18,805
Sales	(12,028)	(7,159)	(19,187)
Principal payoffs and amortization	—	(4)	(4)
Balance at end of period	\$ 2,151	\$ 3,857	\$ 6,008

Allowance for Loan and Lease Losses

Activity in the allowance for loan and lease losses was as follows for the periods indicated:

	As of and for the Three Months Ended March 31,	
	2019	2018
	<i>(in thousands)</i>	
Balance at beginning of period	\$ 31,974	\$ 31,043
Loans and leases charged off	(1,107)	(1,632)
Recoveries on loans and leases previously charged off	912	1,717
Net (charge-offs) recoveries	(195)	85
Loan and lease loss provision	1,117	649
Balance at end of period	\$ 32,896	\$ 31,777

Management believes the allowance for loan and lease losses is appropriate to provide for probable losses inherent in the loan and lease portfolio. However, the allowance is an estimate that is inherently uncertain and depends on the outcome of future events. Management's estimates are based on: previous loss experience; size, growth and composition of the loan and lease portfolio; the value of collateral; and current economic conditions. Our lending is concentrated generally in real estate loans, commercial loans and leases and SBA loans to small and middle market businesses primarily in California, Texas, Illinois and New York.

The following table details the information on the allowance for loan and lease losses by portfolio segment as of and for the three months ended March 31, 2019 and 2018:

	Real Estate	Commercial and Industrial	Leases Receivable	Consumer	Unallocated	Total

Loan Quality Indicators

As part of the on-going monitoring of the quality of our loan and lease portfolio, we utilize an internal loan and lease grading system to identify credit risk and assign an appropriate grade (from 0 to 8) for each loan or lease in our loan and lease portfolio. A third-party loan review is required on an annual basis. Additional adjustments are made when determined

to be necessary. The loan and lease grade definitions are as follows:

Pass and Pass-Watch: Pass and Pass-Watch loans and leases, grades (0-4), are in compliance with the Bank's credit policy and regulatory requirements, and do not exhibit any potential or defined weaknesses as defined under "Special Mention," "Substandard" or "Doubtful." This category is the strongest level of the Bank's loan and lease grading system. It consists of all performing loans and leases with no identified credit weaknesses. It includes cash and stock/security secured loans or other investment grade loans.

Special Mention: A Special Mention loan or lease, grade (5), has potential weaknesses that deserve management's close attention. If not corrected, these potential weaknesses may result in deterioration of the repayment of the debt and result in a Substandard classification. Loans and leases that have significant actual, not potential, weaknesses are considered more severely classified.

Substandard: A Substandard loan or lease, grade (6), has a well-defined weakness that jeopardizes the liquidation of the debt. A loan or lease graded Substandard is not protected by the sound worth and paying capacity of the borrower, or of the value and type of collateral pledged. With a Substandard loan or lease, there is a distinct possibility that the Bank will sustain some loss if the weaknesses or deficiencies are not corrected.

Doubtful: A Doubtful loan or lease, grade (7), is one that has critical weaknesses that would make the collection or liquidation of the full amount due improbable. However, there may be pending events which may work to strengthen the loan or lease, and therefore the amount or timing of a possible loss cannot be determined at the current time.

Loss: A loan or lease classified as Loss, grade (8), is considered uncollectable and of such little value that their continuance as active bank assets is not warranted. This classification does not mean that the loan or lease has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this asset even though partial recovery may be possible in the future. Loans and leases classified as Loss will be charged off in a timely manner.

Under regulatory guidance, loans and leases graded special mention or worse are considered criticized loans and leases, and loans and leases graded substandard or worse are considered classified loans and leases.

As of March 31, 2019 and December 31, 2018, pass/pass-watch, special mention and classified loans and leases, disaggregated by loan class, were as follows:

	<u>Pass/Pass-Watch</u>	<u>Special Mention</u>	<u>Classified</u>	<u>Total</u>

There were no loans and leases that were 90 days or more past due and accruing interest as of March 31, 2019. As of December 31, 2018, \$4,000 of loans and leases were 90 days or more past due and accruing interest.

Impaired Loans and Leases

Loans and leases are considered impaired when the Bank will be unable to collect all interest and principal payments per the contractual terms of the loan and lease agreement, unless the loan is well-collateralized and in the process of collection; they are classified as Troubled Debt Restructurings (“TDRs”) because, due to the financial difficulties of the borrowers, we have granted concessions to the borrowers we would not otherwise consider; when current information or events make it unlikely to collect in full according to the contractual terms of the loan or lease agreements; there is a deterioration in the borrower’s financial condition that raises uncertainty as to timely collection of either principal or interest; or full payment of both interest and principal is in doubt according to the original contractual terms.

We evaluate loan and lease impairment in accordance with GAAP. Impaired loans and leases are measured based on the present value of expected future cash flows discounted at the receivable's effective interest rate or, as a practical expedient, at the receivable's observable market price or the fair value of the collateral if the loan or lease is collateral dependent, less estimated costs to sell. If the estimated value of the impaired loan or lease is less than the recorded investment in the loan or lease, the deficiency is either charged off against the allowance for loan and lease losses or we establish a specific allocation in the allowance for loan and lease losses. Additionally, loans and leases that are considered impaired are specifically excluded from the quarterly migration analysis when determining the amount of the allowance for loan and lease losses required for the period.

The allowance for collateral-dependent loans is determined by calculating the difference between the outstanding loan balance and the value of the collateral as determined by recent appraisals. The allowance for collateral-dependent loans varies from loan to loan based on the collateral coverage of the loan at the time of designation as nonperforming. We continue to monitor the collateral coverage, using recent appraisals, on these loans on a quarterly basis and adjust the allowance accordingly.

The following tables provide information on impaired loans and leases, disaggregated by loan class, as of the dates indicated:

The following is a summary of interest foregone on impaired loans and leases for the periods indicated:

	Three Months Ended March 31,	
	2019	2018
	<i>(in thousands)</i>	
Interest income that would have been recognized had impaired loans and leases performed in accordance with their original terms	\$ 888	\$ 654
Less: Interest income recognized on impaired loans and leases	(682)	(367)
Interest foregone on impaired loans and leases	\$ 206	\$ 287

There were no commitments to lend additional funds to borrowers whose loans are included above.

Nonaccrual Loans and Leases and Nonperforming Assets

Loans and leases are placed on nonaccrual status when, in the opinion of management, the full timely collection of principal or interest is in doubt. Generally, the accrual of interest is discontinued when principal or interest payments become more than 90 days past due, unless management believes the receivable is adequately collateralized and in the process of collection. However, in certain instances, we may place a particular loan or lease receivable on nonaccrual status earlier, depending upon the individual circumstances surrounding the delinquency. When a receivable is placed on nonaccrual status, previously accrued but unpaid interest is reversed against current income. Subsequent collections of cash are applied as

principal reductions when received, except when the ultimate collectability of principal is probable, in which case interest payments are credited to income. Nonaccrual loans and leases may be restored to accrual status when principal and interest payments become current and full repayment is expected.

The following table details nonaccrual loans and leases, disaggregated by loan class, as of the dates indicated:

	<u>March 31, 2019</u>	<u>December 31, 2018</u>
	<i>(in thousands)</i>	
Real estate loans:

As of March 31, 2019 and December 31, 2018, total TDRs were \$10.0 million and \$10.3 million, respectively. A debt restructuring is considered a TDR if we grant a concession, that we would not have otherwise considered, to the borrower for economic or legal reasons related to the borrower's financial difficulties. Loans are considered to be TDRs if they were restructured through payment structure modifications such as reducing the amount of principal and interest due monthly and/or allowing for interest only monthly payments for three months or more. All TDRs are impaired and are individually evaluated for specific impairment using one of these three criteria: (1) the present value of expected future cash flows discounted at the loan's effective interest rate; (2) the loan's observable market price; or (3) the fair value of the collateral if the loan is collateral dependent. At March 31, 2019 and December 31, 2018, \$397,000 and \$313,000, respectively, of allowance relating to these loans were included in the allowance for loan and lease losses.

For the restructured loans on accrual status, we determined that, based on the financial capabilities of the borrowers at the time of the loan restructuring and the borrowers' past performance in the payment of debt service under the previous loan terms, performance and collection under the revised terms are probable.

Note 4 — Servicing Assets and Liabilities

The changes in servicing assets and liabilities for the three months ended March 31, 2019 and 2018 were as follows:

	2019	2018
	<i>(in thousands)</i>	
Servicing assets:		
Balance at beginning of period	\$ 8,520	\$ 10,218
Addition related to sale of SBA loans	315	435
Amortization	(857)	(786)
Balance at end of period	\$ 7,978	\$ 9,867
Servicing liabilities:		
Balance at beginning of period	\$ 1,517	\$ 2,217
Amortization	(97)	(195)
Balance at end of period	\$ 1,420	\$ 2,022

At March 31, 2019 and December 31, 2018, we serviced loans sold to unaffiliated parties in the amounts of \$438.4 million and \$448.6 million, respectively. These represented loans that have been sold for which the Bank continues to provide servicing. These loans are maintained off-balance sheet and are not included in the loans receivable balance. All of the loans serviced were SBA loans.

The Company recorded servicing fee income of \$1.1 million for each of the three month periods ended March 31, 2019 and 2018. Servicing fee income, net of the amortization of servicing assets and liabilities, is included in other operating income in the consolidated statements of income. Net amortization expense was \$760,000 and \$591,000 for the three months ended March 31, 2019 and 2018, respectively.

Note 5 — Income Taxes

The Company's income tax expense was \$6.3 million and \$5.7 million representing an effective income tax rate of 30.0 percent and 27.8 percent for the three months ended March 31, 2019 and 2018, respectively.

Management concluded that as of March 31, 2019 and December 31, 2018, a valuation allowance of \$4.9 million was appropriate against certain state net operating losses and certain tax credits. For all other deferred tax assets, management believes it was more likely than not that these deferred tax assets will be realized principally through future taxable income and reversal of existing taxable temporary differences. A net deferred tax asset of \$25.6 million and \$27.4 million and a net current tax asset of \$2.3 million and \$8.3 million as of March 31, 2019 and December 31, 2018, respectively, are included in prepaid expenses and other assets in the accompanying Consolidated Balance Sheets.

In February 2018, the FASB issued ASU 2018-02, *Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income (Topic 220)*. This ASU eliminates the stranded tax effects in other comprehensive income resulting

from the Tax Cuts and Jobs Act (the “Tax Act”). Because the amendments only relate to the reclassification of the income tax effects of the Tax Act, the underlying guidance that requires that the effect of a change in tax laws or rates be included in income from continuing operations was not affected. ASU 2018-02 allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Act. The Company adopted this standard as of January 1, 2018, and recorded the impact as an adjustment which increased retained earnings by \$399,000 as of the date of adoption.

The Tax Act was enacted into U.S. tax law on December 22, 2017. The Tax Act makes numerous changes to the U.S. tax code, including (although not limited to) reducing the U.S. federal corporate tax rate to 21 percent, eliminating the corporate alternative minimum tax (AMT), limiting deductible interest expense, increasing limitations on certain executive compensation, and enhancing bonus depreciation to provide for full expensing of qualified property. On that same date, the SEC staff also issued SAB 118, which provided guidance regarding financial statement accounting of the tax effects of the Tax Act. SAB 118 provides for the completion of the accounting related effects of the Tax Act in accordance with a measurement period of one year from the Tax Act enactment date. The Company completed its accounting required under ASC 740 in 2018.

The Company is subject to examination by various federal and state tax authorities for certain years ended December 31, 2014 through 2018. Management does not anticipate any material changes in our consolidated financial statements which may arise as a result of these audits or examinations. As of March 31, 2019, the examination by the California Franchise Tax Board for the 2008 and 2009 tax years has closed. The Company recorded a provision expense of \$400,000 during the first quarter of 2019 in connection with both the release of an uncertain tax position and the settlement remitted, net of federal benefit. The Company paid \$900,000 in connection with the settlement.

Note 6 — Borrowings and Subordinated Debentures

Borrowings

The Bank had no advances from the FHLB as of March 31, 2019 and advances of \$55.0 million from the FHLB as of December 31, 2018. The FHLB advances were all overnight borrowings at December 31, 2018. For the three months ended March 31, 2019 and 2018, interest expense on FHLB advances was \$71,000 and \$679,000, respectively, and the weighted-average interest rate was 2.71 percent and 1.54 percent, respectively.

The Bank maintains a secured credit facility with the FHLB, allowing the Bank to borrow on an overnight and term basis. The Bank had \$1.1 billion of loans pledged as collateral with the FHLB, which provides \$893.7 million in borrowing capacity, of which \$753.7 million remained available at March 31, 2019.

The Bank also has securities with market values of \$30.0 million pledged with the Federal Reserve Bank (“FRB”), which provides \$29.5 million in available borrowing capacity through the Fed Discount Window. There were no outstanding borrowings with the FRB as of March 31, 2019 and December 31, 2018.

Subordinated Debentures

The Company issued Fixed-to-Floating Subordinated Notes (the “Notes”) of \$100 million on March 21, 2017, with a final maturity on March 30, 2027. The Notes have an initial fixed interest rate of 5.45% per annum, payable semi-monthly on March 30 and September 30 of each year. From and including March 30, 2022 and thereafter, the Notes bear interest at a floating rate equal to the then current three-month LIBOR, as calculated on each applicable date of determination, plus 3.315% payable quarterly. If the then current three-month LIBOR is less than zero, three-month LIBOR will be deemed to be zero. Debt issuance cost was \$2.3 million, which is being amortized through the Notes' maturity date. At March 31, 2019 and December 31, 2018, the balance of Notes included in the Company's consolidated balance sheet, net of debt issuance cost, was \$98.2 million and \$98.1 million, respectively. The amortization of debt issuance cost was \$47,000 and \$45,000 for the three months ended March 31, 2019 and 2018, respectively.

The Company assumed Junior Subordinated Deferrable Interest Debentures (“Subordinated Debentures”) as a result of the acquisition of Central Bancorp Inc. (“CBI”) in 2014 with an unpaid principal balance of \$26.8 million and an estimated fair value of \$18.5 million. The \$8.3 million discount is being amortized to interest expense through the debentures' maturity date of March 15, 2036. CBI formed a trust in 2005 and issued \$26.0 million of Trust Preferred Securities (“TPS”) at 6.26 percent fixed rate for the first five years and a variable rate at the three-month LIBOR plus 140 basis points thereafter and invested the proceeds in the Subordinated Debentures. The Company may redeem the Subordinated Debentures at an earlier date if certain conditions are met. The TPS will be subject to mandatory redemption if the Subordinated Debentures are repaid by the Company. Interest is payable quarterly, and the Company has the option to defer interest payments on the Subordinated Debentures from time to time for a period not to exceed five consecutive years. At March 31, 2019 and December 31, 2018, the

balance of Subordinated Debentures included in the Company's consolidated balance sheets, net of discount of \$7.0 million and \$7.1 million, was \$19.8 million and \$19.7 million, respectively. The amortization of discount was \$92,000 and \$86,000 for the three months ended March 31, 2019, and 2018, respectively.

Note 7 — Earnings Per Share

Earnings per share (“EPS”) is calculated on both a basic and a diluted basis. Basic EPS excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted from the issuance of common stock that then shared in earnings, excluding common shares in treasury. For diluted EPS, weighted-average number of common shares included the impact of unvested restricted stock under the treasury method.

Unvested restricted stock containing rights to non-forfeitable dividends are considered participating securities prior to vesting and have been included in the earnings allocation in computing basic and diluted EPS under the two-class method.

The following table is a reconciliation of the components used to derive basic and diluted EPS for the periods indicated:

	Net Income <i>(Numerator)</i>	Weighted-Average Shares <i>(Denominator)</i>	Per Share Amount <i>(1)</i>
<i>(in thousands, except for share and per share data)</i>			
Three Months Ended March 31, 2019			
Basic EPS			
Net income	\$ 14,672	30,667,378	\$ 0.48
Less: Income allocated to unvested restricted shares	79	30,667,378	—
Basic EPS	\$ 14,593	30,667,378	\$ 0.48
Effect of dilutive securities - options and unvested restricted stock		53,394	
Diluted EPS			
Net income	\$ 14,672	30,720,772	\$ 0.48
Less: Income allocated to unvested restricted shares	79	30,720,772	—
Diluted EPS	\$ 14,593	30,720,772	\$ 0.48
Three Months Ended March 31, 2018			
Basic EPS			
Net income	\$ 14,855	32,145,214	\$ 0.46
Less: Income allocated to unvested restricted shares	89	32,145,214	—
Basic EPS	\$ 14,766	32,145,214	\$ 0.46
Effect of dilutive securities - options and unvested restricted stock		155,881	
Diluted EPS			
Net income	\$ 14,855	\$ 32,301,095	\$ 0.46
Less: Income allocated to unvested restricted shares	89	32,301,095	—
Diluted EPS	\$ 14,766	\$ 32,301,095	\$ 0.46

⁽¹⁾ Per share amounts may not be able to be recalculated using net income and weighted-average shares presented above due to rounding.

There were no anti-dilutive options and shares of unvested restricted stock outstanding for the three months ended March 31, 2019 or 2018.

Note 8 – Accumulated Other Comprehensive Income

Activity in accumulated other comprehensive income for the three months ended March 31, 2019 and 2018 was as follows:

	Unrealized Gains and Losses on Available for Sale Securities	Tax Benefit (Expense)	Total
		<i>(in thousands)</i>	
March 31, 2019			
Balance at beginning of period	\$ (8,536)	\$ 2,457	\$ (6,079)
Other comprehensive loss before reclassification	6,619	(1,697)	4,922
Reclassification from accumulated other comprehensive income	(725)	—	(725)
Period change	5,894	(1,697)	4,197
Balance at end of period	\$ (2,642)	\$ 760	\$ (1,882)
March 31, 2018			
Balance at beginning of period	\$ (3,188)	\$ 1,319	\$ (1,869)
Other comprehensive income before reclassification	(8,864)	2,543	(6,321)
Adjustment to accumulated other comprehensive income related to adoption of ASU 2016-01 and 2018-02 (see Notes 2 and 5)	529	(546)	(17)
Period change	(8,335)	1,997	(6,338)
Balance at end of period	\$ (11,523)	\$ 3,316	\$ (8,207)

For the three months ended March 31, 2019, there was a \$725,000 reclassification from accumulated other comprehensive income to gains in earnings resulting from the sale of available-for-sale securities. The \$725,000 reclassification adjustment out of accumulated other comprehensive income was included in net gain on sales of securities under noninterest income. Net unrealized loss of \$206,000 related to these sold securities had previously been recorded in accumulated other comprehensive income as of the beginning of the period.

The Company recorded a net \$17,000 adjustment related to adoption of two new accounting standards (ASU 2016-01 and ASU 2018-02) effective January 1, 2018. The \$17,000 adjustment includes a \$529,000 reduction of unrealized losses related to the Company's mutual funds equity securities upon adoption of ASU 2016-01 and a \$546,000 reduction in tax benefits upon adoption of ASU 2016-01 and ASU 2018-02. All mutual fund equity securities were sold during the three months ended March 31, 2018. See Notes 2 and 5 to the unaudited consolidated financial statements for additional information on adoption of ASU 2016-01 and ASU 2018-02, respectively.

Note 9 — Regulatory Matters

Federal bank regulatory agencies require bank holding companies and banks to maintain a minimum ratio of qualifying total capital to risk-weighted assets of 8.0 percent and a minimum ratio of Tier 1 capital to risk-weighted assets of 6.0 percent. In addition to the risk-based guidelines, federal bank regulatory agencies require bank holding companies and banks to maintain a minimum ratio of Tier 1 capital to average assets, referred to as the leverage ratio, of 4.0 percent.

In order for banks to be considered “well capitalized,” federal bank regulatory agencies require a minimum ratio of qualifying total capital to risk-weighted assets of 10.0 percent and a minimum ratio of Tier 1 capital to risk-weighted assets of 8.0 percent. In addition to the risk-based guidelines, federal bank regulatory agencies require depository institutions to maintain a minimum ratio of Tier 1 capital to average assets, referred to as the leverage ratio, of 5.0 percent.

At March 31, 2019, the Bank's capital ratios exceeded the minimum requirements to place the Bank in the “well capitalized” category and the Company exceeded all of its applicable minimum regulatory capital ratio requirements.

A capital conservation buffer of 2.5% became effective on January 1, 2019, and must be met to avoid limitations on the ability of the Bank to pay dividends, repurchase shares or pay discretionary bonuses. The Bank's capital conservation buffer was 6.37% and 6.19% and the Company's capital conservation buffer was 5.94% and 5.74% as of March 31, 2019 and December 31, 2018, respectively.

The capital ratios of Hanmi Financial and the Bank as of March 31, 2019 and December 31, 2018 were as follows:

	Actual		Minimum Regulatory Requirement		Minimum to Be Categorized as "Well Capitalized"	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
<i>(dollars in thousands)</i>						
March 31, 2019						
Total capital (to risk-weighted assets):

Note 10 — Fair Value Measurements

Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value including a three-level valuation hierarchy, and expands disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The three-level fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are defined as follows:

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

- Level 2 - Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3 - Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Fair value is used on a recurring basis for certain assets and liabilities in which fair value is the primary basis of accounting. Additionally, fair value is used on a non-recurring basis to evaluate assets or liabilities for impairment or for disclosure purposes.

We record securities available for sale at fair value on a recurring basis. Certain other assets, such as loans held for sale, impaired loans, OREO, and core deposit intangible, are recorded at fair value on a non-recurring basis. Non-recurring fair value measurements typically involve assets that are periodically evaluated for impairment and for which any impairment is recorded in the period in which the re-measurement is performed.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument below:

Securities available for sale - The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges. If quoted prices are not available, fair values are measured using matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities, or other model-based valuation techniques requiring observable inputs other than quoted prices such as yield curve, prepayment speeds, and default rates. Level 1 securities include U.S. Treasury securities that are traded on an active exchange or by dealers or brokers in active over-the-counter markets. The fair value of these securities is determined by quoted prices on an active exchange or over-the-counter market. Level 2 securities primarily include U.S. government agency and sponsored agency mortgage-backed securities, collateralized mortgage obligations and debt securities as well as municipal bonds in markets that are active. In determining the fair value of the securities categorized as Level 2, we obtain reports from nationally recognized broker-dealers detailing the fair value of each investment security held as of each reporting date. The broker-dealers use prices obtained from nationally recognized pricing services to value our fixed income securities. The fair value of the municipal securities is determined based on pricing data provided by nationally recognized pricing services. We review the prices obtained for reasonableness based on our understanding of the marketplace, and also consider any credit issues related to the bonds. As we have not made any adjustments to the market quotes provided to us and as they are based on observable market data, they have been categorized as Level 2 within the fair value hierarchy. Level 3 securities are instruments that are not traded in the market. As such, no observable market data for the instrument is available, which necessitates the use of significant unobservable inputs.

Loans held for sale - Loans held for sale are all SBA loans and carried at the lower of cost or fair value. Management obtains quotes, bids or pricing indication sheets on all or part of these loans directly from the purchasing financial institutions. Premiums received or to be received on the quotes, bids or pricing indication sheets are indicative of the fact that cost is lower than fair value. At March 31, 2019 and December 31, 2018, the entire balance of SBA loans held for sale was recorded at its cost. We record SBA loans held for sale on a nonrecurring basis with Level 2 inputs.

Impaired loans - Nonaccrual loans and performing restructured loans are considered impaired for reporting purposes and are measured and recorded at fair value on a non-recurring basis. All impaired loans with a carrying balance over \$250,000 are reviewed individually for the amount of impairment, if any. Impaired loans with a carrying balance of \$250,000 or less are evaluated for impairment collectively. The Company does not record loans at fair value on a recurring basis. However, from time to time, nonrecurring fair value adjustments to collateral-dependent impaired loans are recorded based on either the current appraised value of the collateral, a Level 2 measurement, or management's judgment and estimation of value reported on older appraisals that are then adjusted based on recent market trends, a Level 3 measurement.

OREO - Fair value of OREO is based primarily on third party appraisals, less costs to sell and result in a Level 2 classification of the inputs for determining fair value. Appraisals are required annually and may be updated more frequently as circumstances require and the fair value adjustments are made to OREO based on the updated appraised value of the property.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

As of March 31, 2019 and December 31, 2018, assets and liabilities measured at fair value on a recurring basis are as follows:

	Level 1	Level 2	Level 3	
	Quoted Prices in Active Markets for Identical Assets	Significant Observable Inputs with No Active Market with Identical Characteristics	Significant Unobservable Inputs	Balance
	<i>(in thousands)</i>			
March 31, 2019

⁽²⁾ Consist of real estate loans of \$3.5 million, commercial and industrial loans of \$1.7 million.

ASC 825, *Financial Instruments*, requires disclosure of the fair value of financial assets and financial liabilities, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or non-recurring basis. The methodologies for estimating the fair value of financial assets and financial liabilities that are measured on a recurring basis or non-recurring basis are discussed above.

The estimated fair value of financial instruments has been determined by using available market information and appropriate valuation methodologies. However, considerable judgment is required to interpret market data in order to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that we could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Effective January 1, 2018, the Company adopted ASU 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities (Topic 825)*. This standard, among other provisions, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. Other than certain financial instruments for which we have concluded that the carrying amounts approximate fair value, the fair value estimates shown below are based on an exit price notion as of March 31, 2019, as required by ASU 2016-01. The financial instruments for which we have concluded that the carrying amounts approximate fair value include, cash and due from banks, accrued interest receivable and payable, FHLB stock, and noninterest-bearing deposits. The fair values of off-balance sheet items are based upon the difference between the current value of similar loans and the price at which the Bank has committed to make the loans.

The estimated fair values of financial instruments were as follows:

	March 31, 2019			
	Carrying Amount	Fair Value		
		Level 1	Level 2	Level 3
	<i>(in thousands)</i>			
Financial assets:				
Cash and due from banks	\$ 169,830	\$ 169,830	\$ —	\$ —
Securities available for sale	621,470	54,728	566,742	—
Loans held for sale	7,140	—	7,576	—
Loans and leases receivable, net of allowance for loan and lease losses	4,542,724	—	—	4,522,306
Accrued interest receivable	13,397	13,397	—	—
FHLB stock	16,385	—	16,385	—
Financial liabilities:				
Noninterest-bearing deposits	1,316,114	—	1,316,114	—
Interest-bearing deposits	3,504,061	—	—	3,514,296
Subordinated debentures	117,947	—	117,459	—
Accrued interest payable	14,437	14,437	—	—

Commercial letters of credit	13,848	—	—	13,848

Note 11 — Share-Based Compensation

Share-Based Compensation Expense

For the three months ended March 31, 2019 and 2018, share-based compensation expenses were \$711,000 and \$884,000, respectively, and net tax benefits recognized from stock option and restricted stock awards were \$213,000 and \$247,000, respectively. Excess tax benefits related to the Company's share-based compensation are recognized as income tax expense in the consolidated statement of income.

Unrecognized Share-Based Compensation Expense

As of March 31, 2019, unrecognized share-based compensation expense was as follows:

	Unrecognized Expense	Average Expected Recognition Period
	<i>(in thousands)</i>	
Restricted stock awards	\$ 3,315	1.8 years

There was no unrecognized share-based compensation expense for stock options at March 31, 2019.

Stock Option Awards

The table below provides stock option information for the three months ended March 31, 2019:

	Number of Shares	Weighted- Average Exercise Price Per Share	Weighted- Average Remaining Contractual Life	Aggregate Intrinsic Value of In-the- Money Options
				<i>(in thousands)</i>
Options outstanding at beginning of period	338,338	\$ 17.52	4.9 years	\$ 1,213 ⁽¹⁾
Options exercised	<u>(650)</u>	\$ 12.54	3.9 years	5
Options outstanding at end of period	<u>337,688</u>	\$ 17.53	4.6 years	\$ 1,356 ⁽²⁾
Options exercisable at end of period	337,688	\$ 17.53	4.6 years	\$ 1,356 ⁽²⁾

⁽¹⁾ Intrinsic value represents the excess of the closing stock price on the last trading day of the period, which was \$19.70 as of December 31, 2018, over the exercise price, multiplied by the number of options.

⁽²⁾ Intrinsic value represents the excess of the closing stock price on the last trading day of the period, which was \$21.27 as of March 31, 2019, over the exercise price, multiplied by the number of options.

Restricted Stock Awards

Restricted stock awards under the outstanding equity plans become fully vested after a certain number of years or after certain performance criteria are met. Hanmi Financial becomes entitled to an income tax deduction in an amount equal to the taxable income reported by the holders of the restricted shares when the restrictions are released and the shares are issued. Restricted shares are forfeited if officers and employees terminate prior to the lapsing of restrictions. Forfeitures of restricted stock are treated as canceled shares.

The table below provides information for restricted stock awards for the period indicated:

	Three Months Ended March 31, 2019	
	Number of Shares	Weighted- Average Grant Date Fair Value Per Share
Restricted stock at beginning of period	304,595	\$ 21.98
Restricted stock granted	1,670	\$ 19.84
Restricted stock vested	(69,170)	\$ 27.99
Restricted stock forfeited	(50,801)	\$ 12.10
Restricted stock at end of period	186,294	\$ 22.31

Note 12 — Off-Balance Sheet Commitments

The Bank is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of our customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk similar to the risk involved with on-balance sheet items recognized in the consolidated balance sheets.

The Bank's exposure to losses in the event of non-performance by the other party to commitments to extend credit and standby letters of credit is represented by the contractual notional amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for extending loan facilities to customers. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, was based on management's credit evaluation of the counterparty. Collateral held varies but may include accounts receivable, inventory, premises and equipment, and income-producing or borrower-occupied properties.

The following table shows the distribution of undisbursed loan commitments as of the dates indicated:

	March 31, 2019	December 31, 2018
	<i>(in thousands)</i>	
Commitments to extend credit	\$ 270,051	\$ 325,100
Standby letters of credit	30,597	32,500
Commercial letters of credit	11,920	13,848
Total undisbursed loan commitments	\$ 312,568	\$ 371,448

The allowance for off-balance sheet items is maintained at a level believed to be sufficient to absorb probable losses related to these unfunded credit facilities. The determination of the allowance adequacy is based on periodic evaluations of the unfunded credit facilities including an assessment of the probability of commitment usage, credit risk factors for loans outstanding to these same customers, and the terms and expiration dates of the unfunded credit facilities. Net adjustments to the allowance for off-balance sheet items are included in other operating expenses. Activity in the allowance for loan off-balance sheet items was as follows for the periods indicated:

	Three Months Ended March 31,	
	2019	2018
	<i>(in thousands)</i>	
Balance at beginning of period	\$ 1,439	\$ 1,296
(Income) provision	(339)	27
Balance at end of period	\$ 1,100	\$ 1,323

Note 13 — Revenue Recognition

The Company also adopted ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, as of January 1, 2018. ASU 2014-09 established a principles-based approach to recognizing revenue that applies to all contracts other than those

covered by other authoritative U.S. GAAP guidance. Quantitative and qualitative disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows are also required. The standard's core principle is that a company shall recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, companies generally are required to use more judgment and make more estimates than under prior guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation.

Since the guidance does not apply to revenue associated with financial instruments, including loans and securities that are accounted for under other GAAP, the new guidance did not have an impact on revenue most closely associated with our financial instruments, including interest income and expense. The Company completed its overall assessment of revenue streams and review of related contracts potentially affected by the ASU, including revenue streams associated with our noninterest income. Based on this assessment, the Company concluded that ASU 2014-09 did not change the method in which the Company currently recognizes revenue for these revenue streams.

The Company's noninterest income primarily includes service charges on deposit accounts, trade finance and other service charges and fees, servicing income, bank-owned life insurance income and gains or losses on sale of SBA loans and securities. Based on our assessment of revenue streams related to the Company's noninterest income, we concluded that the Company's performance obligations for such revenue streams are typically satisfied as services are rendered. If applicable, the Company records contract liabilities, or deferred revenue, when payments from customers are received or due in advance of providing services to customers and records contract assets when services are provided to customers before payment is received or before payment is due. The Company's noninterest revenue streams are largely based on transactional activities and since the Company generally receives payments for its services during the period or at the time services are provided, there are no contract asset or receivable balances as of March 31, 2019. Consideration is often received immediately or shortly after the Company satisfies its performance obligations and revenue is recognized.

The Company also completed its evaluation of certain costs related to these revenue streams to determine whether such costs should be presented as expenses or contra-revenue (i.e., gross versus net) and concluded that our Consolidated Statements of Income do not include any revenue streams that are impacted by such gross versus net provisions of the new standard. The Company adopted ASU 2014-09 and its related amendments on its required effective date of January 1, 2018 utilizing the modified retrospective approach. Since there was no impact upon adoption of this new standard, a cumulative effect adjustment to opening retained earnings was not deemed necessary.

Note 14 — Leases

As described in Note 1 to the unaudited consolidated financial statements, the Company adopted ASU 2016-02, *Leases (Topic 842)*, effective January 1, 2019. We had approximately 45 operating leases for real estate and other assets. These included various leases for our branch and office locations as well as those for postage and copier machines and an advertising billboard. Our leases had initial lease terms of two to twenty-five years. Most leases included one or more options to renew, with renewal terms that can extend the lease term from two to twelve years. We assessed these options using a threshold of reasonably certain. For leases where we were reasonably certain to renew, those option periods were included within the lease term and, therefore, the measurement of the right-of-use asset and lease liability. Certain leases included options to terminate the lease, which allows the contract parties to terminate their obligations under the lease contract, typically in return for an agreed financial consideration. The terms and conditions of the termination options vary by contract. Leases with an initial term of 12 months or less were not recognized on the balance sheet. We recognized lease expense for these leases on a straight-line basis over the lease term. Certain lease agreements included payments based on Consumer Price Index (CPI) on which variable lease payments were determined and included in the right-of-use asset and liability. Variable lease payments that were not based on CPI were excluded from the right-of-use asset and lease liability and recognized in the period in which the obligations for those payments were incurred. Our lease agreements did not contain any material residual value guarantees, restrictions or covenants.

In determining whether a contract contained a lease, we determined whether an arrangement was or included a lease at contract inception. Operating lease right-of-use asset and liability were recognized at commencement date and initially measured based on the present value of lease payments over the defined lease term. The opening balance for both our right-of-use asset and lease liability were \$40.9 million as of the adoption date of January 1, 2019 and the outstanding balances were \$39.3 million and \$39.5 million, respectively, as of March 31, 2019.

We had real estate lease agreements with lease and non-lease components, which are generally accounted for separately. However, we elected the practical expedient to not separate non-lease components from lease components for all classes of underlying assets. For certain equipment leases, such as machine equipment, we accounted for the lease and associated non-lease components as a single lease component.

In determining the discount rates, since most of our leases do not provide an implicit rate, we used our incremental borrowing rate provided by the FHLB of San Francisco based on the information available at commencement date to calculate the present value of lease payments. In order to apply the incremental borrowing rate, a portfolio approach with a collateralized rate was utilized. Assets were grouped based on similar lease terms and economic environments in a manner whereby the Company reasonably expects that the application does not differ materially from a lease-by-lease approach.

The following table presents the Company's right-of-use asset and lease liability for the period indicated:

	March 31, 2019
	<i>(in thousands)</i>
Assets	
Operating leases	\$ 39,340
Total right-of-use asset	<u>\$ 39,340</u>
Liabilities	
Operating leases	\$ 39,531
Total lease liability	<u>\$ 39,531</u>

The Company's right-of-use asset is included in prepaid expenses and other assets and our lease liability is included in accrued expenses and other liabilities in the accompanying consolidated balance sheet.

The following table presents the Company's lease costs for the periods indicated:

	Three Months Ended March 31, 2019
	<i>(in thousands)</i>
Operating lease cost ⁽¹⁾	\$ 1,943
Sublease income ⁽²⁾	(33)
Net lease cost	<u>\$ 1,910</u>

⁽¹⁾ Includes short-term leases and variable lease costs, which are recorded in rent expense.

⁽²⁾ Includes rental income from leased properties, which are included as contra-expense in rent expense.

The following table presents the Company's remaining lease liability by maturity as of March 31, 2019:

	Operating Leases
	<i>(in thousands)</i>
2019	\$ 4,700
2020	5,691
2021	4,991
2022	4,696
2023	4,538
Thereafter	<u>21,390</u>
	46,006
Interest	<u>(6,475)</u>
Present value of lease liability	<u>\$ 39,531</u>

The Company did not have any finance leases as of January 1, 2019 or March 31, 2019. Weighted average remaining leases terms for the Company's operating leases were 9.18 years as of March 31, 2019. Weighted average discount rates used for the Company's operating leases was 3.25 percent as of March 31, 2019. Net lease expense recognized for the three months ended March 31, 2019 was \$1.9 million. The Company chose the practical expedients and reviewed the lease and non-lease components for any impairment or otherwise, subsequently determining that no cumulative-effect adjustment to equity was necessary as part of implementing the modified retrospective approach for its adoption of ASC 842.

Cash paid, and included in cash flows from operating activities, for amounts included in the measurement of the lease liability for the Company's operating leases was \$1.7 million for the three months ended March 31, 2019.

Note 15 — Subsequent Events

Management has evaluated subsequent events through the date of issuance of the financial data included herein. Other than as disclosed above, there have been no subsequent events that occurred during such period that would require disclosure in this Quarterly Report on Form 10-Q for the period ended March 31, 2019, or would be required to be recognized in the unaudited consolidated financial statements as of March 31, 2019.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is management's discussion and analysis of our results of operations and financial condition as of and for the three months ended March 31, 2019. This analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2018 (the "2018 Annual Report on Form 10-K") and with the unaudited consolidated financial statements and notes thereto set forth in this Quarterly Report on Form 10-Q for the period ended March 31, 2019 (this "Report").

Forward-Looking Statements

Some of the statements contained in this Report are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements in this Report other than statements of historical fact are “forward-looking statements” for purposes of federal and state securities laws, including, but not limited to, statements about anticipated future operating and financial performance, financial position and liquidity, business strategies, regulatory and competitive outlook, investment and expenditure plans, capital and financing needs, plans and objectives of management for future operations, and other similar forecasts and statements of expectation and statements of assumptions underlying any of the foregoing. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “could,” “expects,” “plans,” “intends,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” or “continue,” or the negative of such terms and other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance, strategies, outlook, needs, plans, objectives or achievements to differ from those expressed or implied by the forward-looking statement. These factors include the following: failure to maintain adequate levels of capital and liquidity to support our operations; the effect of potential future supervisory action against us or Hanmi Bank; general economic and business conditions internationally, nationally and in those areas in which we operate; volatility and deterioration in the credit and equity markets; changes in consumer spending, borrowing and savings habits; availability of capital from private and government sources; demographic changes; competition for loans and deposits and failure to attract or retain loans and deposits; fluctuations in interest rates and a decline in the level of our interest rate spread; risks of natural disasters related to our real estate portfolio; risks associated with Small Business Administration loans; failure to attract or retain key employees; our ability to access cost-effective funding; fluctuations in real estate values; changes in accounting policies and practices; the imposition of tariffs or other domestic or international governmental policies impacting the value of the products of our borrowers; changes in governmental regulation, including, but not limited to, any increase in Federal Deposit Insurance Corporation insurance premiums; ability of Hanmi Bank to make distributions to Hanmi Financial Corporation, which is restricted by certain factors, including Hanmi Bank’s retained earnings, net income, prior distributions made, and certain other financial tests; ability to identify a suitable strategic partner or to consummate a strategic transaction; adequacy of our allowance for loan and lease losses; credit quality and the effect of credit quality on our provision for loan and lease losses and allowance for loan and lease losses; changes in the financial performance and/or condition of our borrowers and the ability of our borrowers to perform under the terms of their loans and other terms of credit agreements; our ability to control expenses; changes in securities markets; and risks experienced by our external vendors as it relates to cyber security. For additional information concerning risks we face, see “Item 1A. Risk Factors” in Part I of the 2018 Annual Report on Form 10-K. We undertake no obligation to update these forward-looking statements to reflect events or circumstances that occur after the date on which such statements were made, except as required by law.

Critical Accounting Policies

We have established various accounting policies that govern the application of GAAP in the preparation of our financial statements. Our significant accounting policies are described in the Notes to consolidated financial statements in our 2018 Annual Report on Form 10-K. We had no significant changes in our accounting policies since the filing of our 2018 Annual Report on Form 10-K.

Certain accounting policies require us to make significant estimates and assumptions that have a material impact on the carrying value of certain assets and liabilities, and we consider these critical accounting policies. For a description of these critical accounting policies, see “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies” in our 2018 Annual Report on Form 10-K. We use estimates and assumptions based on historical experience and other factors that we believe to be reasonable under the circumstances. Actual results could differ significantly from these estimates and assumptions, which could have a material impact on the carrying value of assets and liabilities at the balance sheet dates and our results of operations for the reporting periods. Management has discussed the development and selection of these critical accounting policies with the Audit Committee of the Company’s Board of Directors.

Selected Financial Data

The following table sets forth certain selected financial data for the periods indicated:

	As of or for the Three Months Ended March 31,	
	2019	2018
<i>(dollars in thousands, except per share data)</i>		
Summary balance sheets:		
Cash and due from banks	\$ 169,830	\$ 151,611
Securities	621,470	570,351
Loans and leases receivable, net ⁽¹⁾	4,542,724	4,381,780
Assets	5,571,068	5,305,641
Deposits	4,820,175	4,378,101
Liabilities	5,006,776	4,741,363

⁽¹⁾ Excludes loans held for sale and net of allowance for loan and lease losses.

⁽²⁾ Includes loans held for sale and before allowance for loan and lease losses.

⁽³⁾ Stockholders' equity divided by shares of common stock outstanding.

⁽⁴⁾ Tangible equity divided by common shares outstanding. Tangible equity is a "Non-GAAP" financial measure, as discussed in the following section.

⁽⁵⁾ Net income divided by average assets.

⁽⁶⁾ Net income divided by average stockholders' equity.

⁽⁷⁾ Net interest income divided by average interest-earning assets. Computed on a tax-equivalent basis using the statutory federal tax rate.

⁽⁸⁾ Noninterest expense divided by the sum of net interest income and noninterest income.

⁽⁹⁾ Dividends declared per share divided by basic earnings per share.

⁽¹⁰⁾ Nonperforming loans and leases, excluding loans held for sale, consist of nonaccrual loans and leases, and loans and leases past due 90 days or more still accruing interest.

⁽¹¹⁾ Nonperforming assets consist of nonperforming loans and leases and real estate owned.

⁽¹²⁾ Calculation based on annualized net income.

Non-GAAP Financial Measures

The Company calculates certain supplemental financial information determined by methods other than in accordance with U.S. GAAP, including tangible assets, tangible stockholders' equity and tangible book value per share. These non-GAAP measures are used by management in analyzing Hanmi Financial's capital strength.

Tangible equity is calculated by subtracting goodwill and other intangible assets (principally core deposit intangibles) from stockholders' equity. Banking and financial institution regulators also exclude goodwill and core deposit intangible from stockholders' equity when assessing the capital adequacy of a financial institution.

Management believes the presentation of these financial measures excluding the impact of items described in the preceding paragraph provide useful supplemental information that are essential to a proper understanding of the capital strength of Hanmi Financial. These disclosures should not be viewed as a substitution for results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.

Tangible Assets, Tangible Stockholders' Equity and Tangible Book Value Per Share

The following table reconciles these non-GAAP performance measures to the most comparable GAAP performance measures as of the dates indicated:

	March 31,	
	2019	2018
	<i>(in thousands, except per share data)</i>	
Total assets	\$ 5,571,068	\$ 5,305,641
Less goodwill	(11,031)	(11,031)
Less other intangible assets	(1,074)	(1,423)

Tangible book value per share	\$ 17.89	\$ 16.98

Executive Overview

For the three months ended March 31, 2019, net income was \$14.7 million, or \$0.48 per diluted share, compared with \$14.9 million, or \$0.46 per diluted share, for the three months ended March 31, 2018, a decrease of \$183,000 or 1.2 percent. Loan and lease loss provision increased \$468,000, or 72.1 percent, to \$1.1 million in the first quarter of 2019 compared with \$649,000 in the same quarter of 2018. Income tax expense increased \$564,000, or 9.9 percent, to \$6.3 million in the first quarter of 2019 compared with \$5.7 million in the same quarter of 2018. The increases were offset by a decrease in noninterest expense of \$692,000, or 2.3 percent, mainly due to a decrease in salaries and employee benefits resulting from lower incentive compensation.

Other financial highlights include the following:

- Loans and leases receivable were \$4.58 billion at March 31, 2019, compared with \$4.60 billion at December 31, 2018 and \$4.41 billion at March 31, 2018.
- Deposits at March 31, 2019 were \$4.82 billion, an increase of \$72.9 million, or 1.5 percent, from \$4.75 billion at December 31, 2018. Loan-to-deposit ratio at March 31, 2019 declined to 94.9 percent from 96.9 percent at December 31, 2018.
- Allowance for loan and lease losses to loans and leases was 0.72 percent at March 31, 2019, a 2 basis points increase from 0.70 percent at December 31, 2018.

Results of Operations

Net Interest Income

Our primary source of revenue is net interest income, which is the difference between interest and fees derived from earning assets, and interest paid on liabilities obtained to fund those assets. Our net interest income is affected by changes in the level and mix of interest-earning assets and interest-bearing liabilities, referred to as volume changes. Net interest income is also affected by changes in the yields earned on assets and rates paid on liabilities, referred to as rate changes. Interest rates charged on loans and leases are affected principally by changes to interest rates, the demand for loans and leases, the supply of money available for lending purposes, and other competitive factors. Those factors are, in turn, affected by general economic

conditions and other factors beyond our control, such as federal economic policies, the general supply of money in the economy, legislative tax policies, governmental budgetary matters, and the actions of the Federal Reserve.

The following tables show: the average balance of assets, liabilities and stockholders' equity; the amount of interest income, on a tax-equivalent basis, and interest expense; the average yield or rate for each category of interest-earning assets and interest-bearing liabilities; and the net interest spread and the net interest margin for the periods indicated. All average balances are daily average balances.

⁽¹⁾ Loans and leases receivable include loans held for sale and exclude the allowance for loan and lease losses. Nonaccrual loans and leases are included in the average loan and lease balance.

⁽²⁾ Amounts calculated on a fully taxable equivalent basis using the federal tax rate in effect for the periods presented.

⁽³⁾ Represents interest expense on deposits as a percentage of all interest-bearing and noninterest-bearing deposits.

⁽⁴⁾ Represents the average yield earned on interest-earning assets less the average rate paid on interest-bearing liabilities.

⁽⁵⁾ Represents net interest income as a percentage of average interest-earning assets.

The table below shows changes in interest income (on a tax equivalent basis) and interest expense and the amounts attributable to variations in interest rates and volumes for the periods indicated. The variances attributable to simultaneous volume and rate changes have been allocated to the change due to volume and the change due to rate categories in proportion to the relationship of the absolute dollar amount attributable solely to the change in volume and to the change in rate.

	Three Months Ended		
	March 31, 2019 vs. March 31, 2018		
	Increases (Decreases) Due to Change In		
	Volume	Rate	Total
	<i>(in thousands)</i>		
Interest and dividend income:			
Loans and leases receivable	\$ 2,731	\$ 4,029	\$ 6,760
Securities	4	297	301
FHLB stock	—	—	—
Interest-bearing deposits in other banks	99	122	221
Total interest and dividend income (taxable equivalent)	\$ 2,834	\$ 4,448	\$ 7,282
Interest expense:			
Demand: interest-bearing	\$ (1)	\$ 12	\$ 11
Money market and savings	111	2,240	2,351
Time deposits	1,533	4,003	5,536
Borrowings	(908)	300	(608)
Subordinated debentures	8	70	78
Total interest expense	\$ 743	\$ 6,625	\$ 7,368
Change in net interest income (taxable equivalent)	\$ 2,091	\$ (2,177)	\$ (86)

Interest and dividend income, on a taxable equivalent basis, increased \$7.3 million, or 13.2 percent, to \$62.6 million for the three months ended March 31, 2019 from \$55.3 million for the same period in 2018. Interest expense increased \$7.4 million, or 72.5 percent, to \$17.5 million for the three months ended March 31, 2019 from \$10.2 million for the same period in 2018. For the three months ended March 31, 2019 and 2018, net interest income, on a taxable equivalent basis, was \$45.0 million and \$45.1 million, respectively. Net interest income remained relatively unchanged in the 2019 first quarter compared with the same period in 2018 mainly due to increases in rates paid on interest-bearing deposits offsetting the growth in the average balance of and yields earned on loans and leases. The net interest spread and net interest margin, on a taxable equivalent basis, for the three months ended March 31, 2019 were 2.91 percent and 3.52 percent, respectively, compared with 3.28 percent and 3.70 percent, respectively, for the same period in 2018.

The average balance of loans and leases increased \$222.2 million, or 5.2 percent, to \$4.53 billion for the three months ended March 31, 2019 from \$4.31 billion for the same period in 2018. The average balance of interest-earning assets increased \$243.6 million, or 4.9 percent, to \$5.19 billion for the three months ended March 31, 2019 from \$4.95 billion for the same period in 2018. The increase in the average balance of loans and leases was due mainly to new loan production. The average balance of interest-bearing liabilities increased \$286.2 million, or 8.7 percent, to \$3.59 billion for the three months ended March 31, 2019, compared with \$3.31 billion for the same period in 2018. The increase in the average balance of interest-bearing liabilities resulted primarily from an increase in the average balance of time deposits of \$412.2 million, mainly offset by a decrease in the average balance of borrowings of \$168.4 million in the first quarter of 2019 compared with the same period in 2018.

The average yield on interest-earning assets, on a taxable equivalent basis, increased 36 basis points to 4.89 percent for the three months ended March 31, 2019 from 4.53 percent for the same period in 2018, primarily due to the increase in the general level of interest rates and the mix of interest-earning assets. The average cost of interest-bearing liabilities increased by 73 basis points to 1.98 percent for the three months ended March 31, 2019 from 1.25 percent for the same period in 2018, mainly due to higher market interest rates and a larger percentage of higher-costing time deposits in the deposit portfolio.

Provision for Loan and Lease Losses

In anticipation of credit risks inherent in our lending business, we set aside an allowance for loan and lease losses through charges to earnings. These charges are made not only for our outstanding loan and lease portfolio, but also for off-

balance sheet items, such as commitments to extend credit, or letters of credit. The provisions, whether a charge or a credit, made for our outstanding loan and lease portfolio are recorded to the allowance for loan and lease losses, whereas charges or credits to other noninterest expense for off-balance sheet items are recorded to the allowance for off-balance sheet items, and are presented as a component of other liabilities.

The provision for loan and lease losses was \$1.1 million and \$649,000 for the three months ended March 31, 2019 and 2018, respectively. A reduction of \$339,000 in the allowance for off-balance sheet items was recognized as income for the three months ended March 31, 2019 compared with \$27,000 of provision for losses recognized as expense for the same period in 2018.

See also “Allowance for Loan and Lease Losses and Allowance for Off-Balance Sheet Items” for further details.

Noninterest Income

The following table sets forth the various components of noninterest income for the periods indicated:

	Three Months Ended March 31,		Increase (Decrease)	
	2019	2018	Amount	Percentage
	<i>(dollars in thousands)</i>			
Service charges on deposit accounts	\$ 2,358	\$ 2,511	\$ (153)	(6.1)%
Trade finance and other service charges and fees	1,124	1,173	(49)	(4.2)%
Other operating income	1,121	1,357	(236)	(17.4)%
Subtotal service charges, fees and other income	4,603	5,041	(438)	(8.7)%
Gain on sale of SBA loans	926	1,448	(522)	(36.0)%
Net gain (loss) on sales of securities	725	(428)	1,153	269.4 %
Total noninterest income	\$ 6,254	\$ 6,061	\$ 193	3.2 %

For the three months ended March 31, 2019, noninterest income was \$6.3 million, an increase of \$193,000, or 3.2 percent, compared with \$6.1 million for the same period in 2018. The increase was primarily attributable to an increase of \$1.2 million, or 269.4 percent, in gain on sales of securities, mainly offset by a \$522,000 decrease in gain on sale of SBA loans reflecting higher trade premiums offset by lower volume.

Noninterest Expense

The following table sets forth the components of noninterest expense for the periods indicated:

	Three Months Ended March 31,		Increase (Decrease)	
	2019	2018	Amount	Percentage
	<i>(dollars in thousands)</i>			
Salaries and employee benefits	\$ 15,738	\$ 18,702	\$ (2,964)	(15.8)%
Occupancy and equipment	4,521	4,072	449	11.0 %
Data processing	2,083	1,678	405	24.1 %
Professional fees	1,649	1,369	280	20.5 %
Supplies and communications	844	708	136	19.2 %
Advertising and promotion	760	876	(116)	(13.2)%
Other operating expenses	3,470	2,352	1,118	47.5 %
Total noninterest expense	\$ 29,065	\$ 29,757	\$ (692)	(2.3)%

For the three months ended March 31, 2019, noninterest expense was \$29.1 million, a decrease of \$692,000 or 2.3 percent, compared with \$29.8 million for the same period in 2018. The decrease was due primarily to a \$3.0 million, or 15.8 percent, decrease in salaries and employee benefits, mainly offset by an \$1.1 million increase in other operating expenses. The decrease in salaries and employee benefits in 2019 compared with 2018 was mainly due to closing of branches and other staff related expense reductions.

Income Tax Expense

Income tax expense was \$6.3 million and \$5.7 million representing an effective income tax rate of 30.0 percent and 27.8 percent for the three months ended March 31, 2019 and 2018, respectively. The increase in the effective tax rates compared with 2018 was due to charge of \$400,000 related to the settlement of the California 2008 and 2009 tax year audits with the Franchise Tax Board. In addition, the 2018 tax rate was impacted by the passage of the Tax Reform in December 2017, resulting in a lower rate in 2018.

Financial Condition

Securities

As of March 31, 2019, our securities portfolio was composed primarily of mortgage-backed securities, collateralized mortgage obligations and, to a lesser extent, U.S. Treasury securities and tax-exempt municipal bonds. Most of the securities carry fixed interest rates. Other than holdings of U.S. government agency and sponsored agency obligations, there were no securities of any one issuer exceeding 10 percent of stockholders' equity as of March 31, 2019 and December 31, 2018.

The following table summarizes the amortized cost, estimated fair value and unrealized gain (loss) on securities as of the dates indicated:

	March 31, 2019			December 31, 2018		
	Amortized Cost	Estimated Fair Value	Unrealized Gain (Loss)	Amortized Cost	Estimated Fair Value	Unrealized Gain (Loss)
	<i>(in thousands)</i>					
Securities available for sale:						
U.S. Treasury securities	\$ 54,584	\$ 54,728	\$ 144	\$ 39,768	\$ 39,830	\$ 62
U.S. government agency and sponsored agency obligations:						
Mortgage-backed securities	356,973	354,601	(2,372)	300,957	295,034	(5,923)

Total securities available for sale	\$ 624,112	\$ 621,470	\$ (2,642)	\$ 583,444	\$ 574,908	\$ (8,536)

As of March 31, 2019, securities available for sale increased \$46.6 million or 8.1 percent to \$621.5 million, compared with \$574.9 million as of December 31, 2018. This increase was due mainly to purchases of mortgage-backed securities and collateralized mortgage obligations, offset by sale of tax-exempt municipal bonds. As of March 31, 2019, securities available for sale had a net unrealized loss of \$2.6 million, comprised of \$1.9 million of unrealized gains and \$4.6 million of unrealized losses. As of December 31, 2018 securities available for sale had a net unrealized loss of \$8.5 million, comprised of \$401,000 of unrealized gains and \$8.9 million of unrealized losses.

The following table summarizes the contractual maturity schedule for securities, at amortized cost, and their weighted-average yield as of March 31, 2019:

	Within One Year		After One Year But Within Five Years		After Five Years But Within Ten Years		After Ten Years		Total

Loans and leases receivable, net	\$ 4,542,724	\$ 4,568,566

⁽¹⁾ Includes, among other types, mixed-use, apartment, office, industrial, gas stations, faith-based facilities and warehouse; all other property types represent less than one percent of total loans and leases receivable.

⁽²⁾ Consumer loans include home equity lines of credit of \$9.9 million and \$10.3 million as of March 31, 2019 and December 31, 2018, respectively.

As of March 31, 2019 and December 31, 2018, net loans and leases receivable were \$4.54 billion and \$4.57 billion, respectively, representing a decrease of \$25.9 million, or 0.6 percent. The decrease in loans and leases as of March 31, 2019

compared with December 31, 2018 was primarily attributable to payoffs and pay downs of \$188.2 million and loan sales of \$15.5 million, offset by new loan and lease production of \$179.8 million.

During the three months ended March 31, 2019, loan and lease disbursements for new production consisted of \$69.6 million in leases receivable, \$46.5 million in commercial real estate loans, \$33.6 million in commercial and industrial loans, and \$30.0 million in SBA loans.

Industry

Our loan and lease portfolio included the following concentrations of loans to one type of industry that were greater than 10 percent of loans and leases outstanding:

	Balance as of March 31, 2019	Percentage of Loans and Leases Outstanding
	<i>(in thousands)</i>	
Lessor of nonresidential buildings	\$ 1,359,398	29.7%
Hospitality	\$ 833,219	18.2%

There was no other concentration of loans and leases to any one type of industry exceeding 10.0 percent of loans and leases outstanding.

Nonperforming Loans and Leases and Nonperforming Assets

Nonperforming loans and leases consist of loans and leases on nonaccrual status and loans and leases 90 days or more past due and still accruing interest. Nonperforming assets consist of nonperforming loans and leases and OREO. Loans and leases are placed on nonaccrual status when, in the opinion of management, the full timely collection of principal or interest is in doubt. Generally, the accrual of interest is discontinued when principal or interest payments become more than 90 days past due, unless we believe the loan is adequately collateralized and in the process of collection. However, in certain instances, we may place a particular receivable on nonaccrual status earlier, depending upon the individual circumstances surrounding the receivable's delinquency. When an asset is placed on nonaccrual status, previously accrued but unpaid interest is reversed against current income. Subsequent collections of cash are applied as principal reductions when received, except when the ultimate collectability of principal is probable, in which case interest payments are credited to income. Nonaccrual assets may be restored to accrual status when principal and interest become current and full repayment is expected. Interest income is recognized on the accrual basis for impaired loans and leases not meeting the criteria for nonaccrual. OREO consists of properties acquired by foreclosure or similar means that management intends to offer for sale.

Except for nonperforming loans and leases set forth below, we are not aware of any loans or leases as of March 31, 2019 for which known credit problems of the borrower would cause serious doubts as to the ability of such borrowers to comply with their present repayment terms, or any known events that would result in the receivable being designated as nonperforming at some future date. We cannot, however, predict the extent to which a deterioration in general economic conditions, real estate values, increases in general rates of interest, or changes in the financial condition or business of borrower may adversely affect a borrower's ability to pay.

The following table provides information with respect to the components of nonperforming assets as of the dates indicated:

	March 31, 2019	December 31, 2018	Increase (Decrease)	
			Amount	Percentage
<i>(dollars in thousands)</i>				
Nonperforming loans and leases:				
Real estate loans:				
Commercial property				
Retail	\$ 830	\$ 865	\$ (35)	(4.0)%
Hospitality	3,237	3,625	(388)	(10.7)%
Other	7,215	1,641	5,574	339.7 %
Total commercial property loans	11,282	6,131	5,151	84.0 %
Residential property	449	182	267	146.7 %
Total real estate loans	11,731	6,313	5,418	85.8 %
Commercial and industrial loans	22,795	3,337	19,458	583.1 %
Leases receivable	4,783	5,129	(346)	(6.7)%
Consumer loans	732	746	(14)	(1.9)%
Total nonperforming loans	40,041	15,525	24,516	157.9 %
Loans 90 days or more past due and still accruing	—	4	(4)	— %
Total nonperforming loans and leases ⁽¹⁾	40,041	15,529	24,512	157.8 %
OREO	622	663	(41)	(6.2)%
Total nonperforming assets	\$ 40,663	\$ 16,192	\$ 24,471	151.1 %
Nonperforming loans and leases as a percentage of loans and leases	0.88%	0.34%		
Nonperforming assets as a percentage of assets	0.73%	0.29%		
Troubled debt restructured performing loans and leases	\$ 3,047	\$ 6,029		

⁽¹⁾ Includes nonperforming TDRs of \$6.9 million and \$4.3 million as of March 31, 2019 and December 31, 2018, respectively.

Nonperforming loans and leases were \$40.0 million and \$15.5 million as of March 31, 2019 and December 31, 2018, respectively. The Company placed \$28.6 million of loans and leases on nonaccrual status in the first quarter of 2019. Offsetting these additions were by \$3.7 million of principal payoffs and pay-downs and \$444,000 in charge-offs and upgrades to accrual status. The first quarter increase in nonaccrual loans reflects the addition of a \$25.0 million commercial loan relationship, primarily secured by business assets and to a lesser extent commercial real estate, which recently experienced an interruption in their business. The Company has established a specific allowance of \$3.0 million for this relationship as of March 31, 2019.

Delinquent loans and leases (defined as 30 to 89 days past due and still accruing) were \$9.2 million as of March 31, 2019 compared with \$10.7 million as of December 31, 2018.

The ratio of nonperforming loans and leases to loans and leases increased to 0.88 percent as of March 31, 2019 compared with 0.34 percent as of December 31, 2018. The allowance for collateral-dependent loans is calculated as the difference between the outstanding loan balance and the value of the collateral as determined by recent appraisals less estimated costs to sell. The allowance for collateral-dependent loans varies from loan to loan based on the collateral coverage of the loan at the time of designation as nonperforming. We continue to monitor the collateral coverage, based on recent appraisals, on these loans on a quarterly basis and adjust the allowance accordingly.

As of March 31, 2019, OREO consisted of five properties with a combined carrying value of \$622,000, as compared with seven properties with a combined carrying value of \$663,000 as of December 31, 2018.

Impaired Loans and Leases

We evaluate loan impairment in accordance with applicable GAAP. Loans are considered impaired when it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan agreement, including scheduled interest payments. Impaired loans are measured based on the present value of expected future cash flows discounted at the

loan's effective interest rate or, as an expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent, less costs to sell. If the measure of the impaired loan is less than the recorded investment in the loan, the deficiency will be charged off against the allowance for loan losses or, alternatively, a specific allocation will be established. Additionally, impaired loans are specifically excluded from the analysis when determining the general portion of the allowance for loan losses required for the period.

The following table provides information on impaired loans and lease as of the dates indicated:

	March 31, 2019		December 31, 2018	
	Recorded Investment	Percentage	Recorded Investment	Percentage
<i>(dollars in thousands)</i>				
Real estate loans:				
Commercial property				
Retail	\$ 982	2.3%	\$ 2,166	8.6%
Hospitality	3,237	7.5%	4,282	17.0%
Other	8,748	20.1%	7,525	30.1%
Total commercial property loans	12,967	29.9%	13,973	55.7%
Residential property	1,048	2.4%	788	3.1%
Total real estate loans	14,015	32.3%	14,761	58.8%
Commercial and industrial loans	23,114	53.4%	4,396	17.5%
Leases receivable	4,783	11.1%	5,129	20.4%
Consumer loans	1,370	3.2%	839	3.3%
Total	\$ 43,282	100.0%	\$ 25,125	100.0%

Total impaired loans and leases increased \$18.2 million, or 72.3 percent, to \$43.3 million as of March 31, 2019, from \$25.1 million at December 31, 2018. The increase in impaired loans was primarily due to the addition of a \$25.0 million commercial loan relationship as described in the Nonperforming Loans and Leases and Nonperforming Assets section above. Specific allowances associated with impaired loans and leases were \$4.4 million and \$1.8 million as of March 31, 2019 and December 31, 2018, respectively.

During the three months ended March 31, 2019 and 2018, interest income that would have been recognized had impaired loans and leases performed in accordance with their original terms totaled \$888,000 and \$654,000, respectively. Of these amounts, actual interest recognized on impaired loans and leases was \$682,000 and \$367,000 for the three months ended March 31, 2019 and 2018, respectively.

The following table provides information on TDRs as of the dates indicated:

	March 31, 2019			December 31, 2018		
	Nonaccrual TDRs	Accrual TDRs	Total	Nonaccrual TDRs	Accrual TDRs	Total
<i>(in thousands)</i>						
Real estate loans	\$ 4,432	\$ 2,127	\$ 6,559	\$ 2,059	\$ 5,234	\$ 7,293
Commercial and industrial loans	1,778	283	2,061	1,471	702	2,173
Consumer loans	732	637	1,369	746	93	839
Total	\$ 6,942	\$ 3,047	\$ 9,989	\$ 4,276	\$ 6,029	\$ 10,305

For the three months ended March 31, 2019, we restructured monthly payments for eight loans, with a net carrying value of \$4.1 million at the time of modification, which we subsequently classified as TDRs. Temporary payment structure modifications included, but were not limited to, extending the maturity date, reducing the amount of principal and/or interest due monthly, and/or allowing for interest only monthly payments for six months or less.

As of March 31, 2019, TDRs on accrual status were \$3.0 million, all of which were temporary interest rate and payment reductions or extensions of maturity, and a \$38,000 allowance relating to these loans was included in the allowance for loan and lease losses. For the TDRs on accrual status, we determined that, based on the financial capabilities of the borrowers at

the time of the loan restructuring and the borrowers' past performance in the payment of debt service under the previous loan terms, performance and collection under the revised terms is probable. As of March 31, 2019, TDRs on nonaccrual status were \$6.9 million, and a \$359,000 allowance relating to these loans was included in the allowance for loan and lease losses.

As of December 31, 2018, TDRs on accrual status were \$6.0 million, all of which were temporary interest rate and payment reductions or extensions of maturity, and a \$57,000 allowance relating to these loans was included in the allowance for loan and lease losses. As of December 31, 2018, TDRs on nonaccrual status were \$4.3 million, and a \$256,000 allowance relating to these loans was included in the allowance for loan and lease losses.

Allowance for Loan and Lease Losses and Allowance for Off-Balance Sheet Items

The Bank charges or credits operating expense for provisions to the allowance for loan and lease losses and the allowance for off-balance sheet items at least quarterly based upon the allowance need. The allowance is determined through an analysis involving quantitative calculations based on historic loss rates and qualitative adjustments for general reserves and individual impairment calculations for specific allocations. The Bank charges the allowance for actual losses and credits the allowance for recoveries on loans and leases previously charged-off.

The Bank evaluates the allowance methodology at least annually. For the year ended December 31, 2018 and the first three months of 2019, the Bank utilized a 31-quarter and 32-quarter, respectively, look-back period anchored to the first quarter of 2011, with equal weighting to all quarters. Management determined it was appropriate to anchor the look-back period in consideration of the prolonged period of low losses and the procyclical nature of provisioning. The anchoring will allow the Bank to better capture the economic cycle while improving the ability to measure losses.

To determine general reserve requirements, existing loans and leases are divided into segmented pools of similar risk characteristic loans, as well as homogeneous pools. For the twelve months ended December 31, 2018 and the first three months in 2019, loans were divided into eleven general pools of risk-rated loans, as well as two homogeneous pools. For risk-rated loans, migration analysis allocates historical losses by pool and risk grade to determine risk factors for potential losses inherent in the current outstanding portfolio. As the two homogeneous pools are bulk graded, the risk grade is not factored into the historical loss analysis. In addition, specific reserves are allocated for loans deemed impaired.

When determining the appropriate level for allowance for loan and lease losses, management considers qualitative adjustments for any factors that are likely to cause estimated loan and lease losses associated with the Bank's current portfolio to differ from historical loss experience, including, but not limited to, national and local economic and business conditions, volume and geographic concentrations, and problem loan trends.

To systematically quantify the credit risk impact of trends and changes within the loan and lease portfolio, a credit risk matrix is utilized. The qualitative factors are considered on a loan pool by loan pool basis subsequent to, and in conjunction with, a loss migration analysis. The credit risk matrix provides various scenarios with positive or negative impact on the portfolio along with corresponding basis points for qualitative adjustments.

The following tables reflect our allocation of allowance for loan and lease losses by category as well as the receivable for each loan type:

	March 31, 2019			December 31, 2018		
	Allowance Amount	Percentage	Total Loans	Allowance Amount	Percentage	Total Loans
	<i>(dollars in thousands)</i>					
Real estate loans:						
Commercial property						
Retail	\$ 3,679	11.2%	\$ 898,632	\$ 3,652	11.4%	\$ 906,260
Hospitality	5,150	15.7%	812,592	5,486	17.2%	830,679
Other	6,515	19.7%	1,436,593	6,723	21.0%	1,449,270
Total commercial property loans	15,344	46.6%	3,147,817	15,861	49.6%	3,186,209
Construction	1,218	3.7%	82,709	1,143	3.6%	71,583
Residential property	1,743	5.3%	483,830	1,380	4.3%	500,563
Total real estate loans	18,305	55.6%	3,714,356	18,384	57.5%	3,758,355
Commercial and industrial loans:						
Commercial term	5,021	15.3%	186,471	5,416	16.9%	206,691
Commercial lines of credit	3,416	10.4%	196,213	1,532	4.8%	194,032
International loans	275	0.8%	39,818	214	0.7%	29,180
Total commercial and industrial loans	8,712	26.5%	422,502	7,162	22.4%	429,903
Leases receivable	5,580	17.0%	425,530	6,303	19.7%	398,858
Consumer loans	89	0.3%	13,232	98	0.3%	13,424
Unallocated	210	0.6%	—	27	0.1%	—
Total	\$ 32,896	100.0%	\$ 4,575,620	\$ 31,974	100.0%	\$ 4,600,540

The following tables set forth certain information regarding the allowance for loan and lease losses and the allowance for off-balance sheet items for the periods presented. Allowance for off-balance sheet items is determined by applying loss factors according to pool and grade as well as actual current commitment usage figures by type to existing contingent liabilities.

	For the Three Months Ended	
	March 31, 2019	March 31, 2018
	<i>(dollars in thousands)</i>	
Allowance for loan and lease losses:		
Balance at beginning of period	\$ 31,974	\$ 31,043
Loans and leases charged off	(1,107)	(1,632)
Recoveries on loans and leases previously charged off	912	1,717
Net (charge-offs) recoveries	(195)	85
Loan and lease loss provision	1,117	649
Balance at end of period	\$ 32,896	\$ 31,777
Allowance for off-balance sheet items:		
Balance at beginning of period	\$ 1,439	\$ 1,296
Loan and lease (income) loss provision	(339)	27
Balance at end of period	\$ 1,100	\$ 1,323
Ratios:		
Net (charge-offs) recoveries to average loans and leases ⁽¹⁾	(0.02)%	0.01%
Net (charge-offs) recoveries to loans and leases ⁽¹⁾	(0.02)%	0.01%
Allowance for loan and lease losses to average loans and leases	0.73 %	0.74%
Allowance for loan and lease losses to loans and leases	0.72 %	0.72%
Net (charge-offs) recoveries to allowance for loans and leases ⁽¹⁾	(2.37)%	1.07%
Allowance for loan and lease losses to nonperforming loans and leases	82.16 %	206.85%
Balance:		
Average loans and leases during period	\$ 4,533,120	\$ 4,310,964
Loans and leases at the end of period	\$ 4,575,620	\$ 4,413,557
Nonperforming loans and leases at end of period	\$ 40,041	\$ 15,362

⁽¹⁾ Net (charge-offs) recoveries are annualized to calculate the ratios.

The allowance for loan and lease losses was \$32.9 million and \$32.0 million as of March 31, 2019 and December 31, 2018, respectively. The increase of \$922,000, or 2.9 percent, in the allowance for loan and lease losses was due primarily to the changes in composition of the loan portfolio combined with the increase in impaired loans, partially offset by reduced loss rates. The provision for loan and lease losses was \$1.1 million and \$649,000 for the three months ended March 31, 2019 and 2018, respectively. Charge-offs of \$1.1 million were offset by recoveries of \$912,000 for the three months ended March 31, 2019 compared with charge-offs of \$1.6 million and recoveries of \$1.7 million for the same period in 2018.

The allowance for off-balance sheet exposure, primarily unfunded loan commitments, was \$1.1 million and \$1.3 million as of March 31, 2019 and 2018, respectively. The Bank closely monitors the borrower's repayment capabilities, while funding existing commitments to ensure losses are minimized.

Based on management's evaluation and analysis of portfolio credit quality and prevailing economic conditions, we believe these allowances were adequate for losses inherent in the loan and lease portfolio and for off-balance sheet exposures as of March 31, 2019.

The following table presents a summary of net charge-offs (recoveries):

	For the Three Months Ended		
	Charge-offs	Recoveries	Net Charge-offs (Recoveries)
	<i>(in thousands)</i>		
March 31, 2019			
Real estate loans	\$ 122	\$ 440	\$ (318)
Commercial and industrial loans	133	382	(249)
Leases receivable	852	90	762
Total	\$ 1,107	\$ 912	\$ 195
March 31, 2018			
Real estate loans	\$ 989	\$ 885	104
Commercial and industrial loans	279	736	(457)
Leases receivable	364	95	269
Consumer loans	—	1	(1)
Total	\$ 1,632	\$ 1,717	\$ (85)

For the three months ended March 31, 2019, total charge-offs were \$1.1 million, a decrease of \$525,000, or 32.2 percent, from \$1.6 million for the same period in 2018. Charge-offs were offset by recoveries during the three months ended March 31, 2019 of \$912,000, a decrease of \$805,000, or 46.9 percent, from \$1.7 million for the same period in 2018.

Deposits

The following table shows the composition of deposits by type as of the dates indicated:

	March 31, 2019		December 31, 2018	
	Balance	Percent	Balance	Percent
	<i>(dollars in thousands)</i>			
Demand – noninterest-bearing	\$ 1,316,114	27.3%	\$ 1,284,530	27.1%
Interest-bearing:				
Demand	85,946	1.8%	87,582	1.8%
Money market and savings	1,543,299	32.0%	1,573,622	33.2%
Time deposits of \$100,000 or more ⁽¹⁾	1,682,306	34.9%	1,601,648	33.7%
Other time deposits	192,510	4.0%	199,853	4.2%
Total deposits	\$ 4,820,175	100.0%	\$ 4,747,235	100.0%

⁽¹⁾ Includes \$294.9 million and \$288.6 million of time deposits of \$250,000 or more as of March 31, 2019 and December 31, 2018, respectively.

Deposits increased \$72.9 million, or 1.5 percent, to \$4.82 billion as of March 31, 2019 from \$4.75 billion as of December 31, 2018. The increase in deposits was mainly attributable to the \$80.7 million, or 5.0 percent increase in time deposits of \$100,000 or more, and the \$31.6 million, or 2.5 percent increase in noninterest-bearing deposits, offset by a decrease of \$30.3 million, or 1.9 percent, in money market and savings deposits.

Borrowings and Subordinated Debentures

At March 31, 2019, the Company had no FHLB advances and at December 31, 2018, there were \$55.0 million in overnight advances from the FHLB. In addition, subordinated debentures were \$117.9 million and \$117.8 million at March 31, 2019 and December 31, 2018, respectively.

Interest Rate Risk Management

The spread between interest income on interest-earning assets and interest expense on interest-bearing liabilities is the

principal component of net interest income, and interest rate changes substantially affect our financial performance. We emphasize capital protection through stable earnings. In order to achieve stable earnings, we prudently manage our assets and liabilities and closely monitor the percentage changes in net interest income and equity value in relation to limits established within our guidelines.

The Company performs simulation modeling to estimate the potential effects of interest rate changes. The following table summarizes one of the stress simulations performed to forecast the impact of changing interest rates on net interest income and the value of interest-earning assets and interest-bearing liabilities reflected on our balance sheet (i.e., an instantaneous parallel shift in the yield curve of the magnitude indicated below). This sensitivity analysis is compared to policy limits, which specify the maximum tolerance level for net interest income exposure over a 1- to 12-month and a 13- to 24-month horizon, given the basis point adjustment in interest rates reflected below.

Change in Interest Rate	Net Interest Income Simulation			
	1- to 12-Month Horizon		13- to 24-Month Horizon	
	Dollar Change	Percentage Change	Dollar Change	Percentage Change
	<i>(dollars in thousands)</i>			
300%	\$ 4,083	2.15%	\$ 11,907	6.05%
200%	\$ 2,610	1.38%	\$ 7,620	3.87%
100%	\$ 1,678	0.89%	\$ 4,535	2.30%
(100)%	\$ (6,009)	(3.17)%	\$ (12,218)	(6.20)%

Change in Interest Rate	Economic Value of Equity (EVE)	
	Dollar Change	Percentage Change
	<i>(dollars in thousands)</i>	
300%	\$ 12,318	2.05%
200%	\$ 12,085	2.01%
100%	\$ 11,545	1.92%
(100)%	\$ (30,420)	(5.07)%

The estimated sensitivity does not necessarily represent our forecast, and the results may not be indicative of actual changes to our net interest income. These estimates are based upon a number of assumptions including the nature and timing of interest rate levels including yield curve shape, prepayments on loans and leases and securities, pricing strategies on loans and leases and deposits, and replacement of asset and liability cash flows. While the assumptions used are based on current economic and local market conditions, there is no assurance as to the predictive nature of these conditions, including how customer preferences or competitor influences might change.

Capital Resources and Liquidity

Capital Resources

Historically, our primary source of capital has been the retention of operating earnings. In order to ensure adequate levels of capital, the Board regularly assesses projected sources and uses of capital in conjunction with projected increases in assets and levels of risk. Management considers, among other things, earnings generated from operations, and access to capital from financial markets through the issuance of additional securities, including common stock or notes, to meet our capital needs.

At March 31, 2019, the Bank's total risk-based capital ratio of 14.37 percent, Tier 1 risk-based capital ratio of 13.64 percent, common equity Tier 1 capital ratio of 13.64 percent and Tier 1 leverage capital ratio of 11.88 percent, placed the Bank in the "well capitalized" category pursuant to capital rules, which is defined as institutions with total risk-based capital ratio equal to or greater than 10.00 percent, Tier 1 risk-based capital ratio equal to or greater than 8.00 percent, common equity Tier 1 capital ratios equal to or greater than 6.50 percent and Tier 1 leverage capital ratio equal to or greater than 5.00 percent.

At March 31, 2019, the Company's total risk-based capital ratio was 14.17 percent, Tier 1 risk-based capital ratio was 11.94 percent, common equity Tier 1 capital ratio was 11.52 percent and Tier 1 leverage capital ratio was 10.39 percent.

For a discussion of implemented changes to the capital adequacy framework prompted by Basel III and the Dodd-Frank Wall Street Reform and Consumer Protection Act, see our 2018 Annual Report on Form 10-K.

Liquidity

Hanmi Financial

Management believes that Hanmi Financial, on a stand-alone basis, has adequate liquid assets to meet its current obligations.

Hanmi Bank

The principal objective of our liquidity management program is to maintain the Bank's ability to meet the day-to-day cash flow requirements of our customers who either wish to withdraw funds or to draw upon credit facilities to meet their cash needs. Management believes that the Bank, on a stand-alone basis, has adequate liquid assets to meet its current obligations. The Bank's primary funding source will continue to be deposits originating from its branch platform. The Bank's wholesale funds historically consisted of FHLB advances and brokered deposits. As of March 31, 2019, the Bank had no advances from the FHLB and \$348.4 million of brokered deposits.

We monitor the sources and uses of funds on a regular basis to maintain an acceptable liquidity position. The Bank's primary source of borrowings is the FHLB, from which the Bank is eligible to borrow up to 30% of its assets. As of March 31, 2019, the total borrowing capacity available based on pledged collateral and remaining available borrowing capacity were \$893.7 million and \$753.7 million, respectively, compared to \$924.4 million and \$729.4 million, respectively, as of December 31, 2018. The Bank also had three unsecured federal funds lines totaling \$115.0 million with no outstanding balances as of March 31, 2019.

As a means of augmenting its liquidity, the Bank had an available borrowing source of \$29.5 million from the Federal Reserve Discount Window, to which the Bank pledged securities with a carrying value of \$30.0 million, and had no borrowings under this source as of March 31, 2019.

Off-Balance Sheet Arrangements

For a discussion of off-balance sheet arrangements, see Note 12 - Off-Balance Sheet Commitments included in the notes to unaudited consolidated financial statements in this Report and "Item 1. Business - Off-Balance Sheet Commitments" in our 2018 Annual Report on Form 10-K.

Contractual Obligations

There have been no material changes to the contractual obligations described in our 2018 Annual Report on Form 10-K.

Recently Issued Accounting Standards

FASB ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, introduces new guidance for the accounting for credit losses on instruments within its scope. The new guidance introduces an approach based on expected losses to estimate credit losses on certain types of financial instruments. It also modifies the impairment model for available-for-sale debt securities and provides for a simplified accounting model for purchased financial assets with credit deterioration since their origination. Current expected credit losses ("CECL") model, will apply to: (1) financial assets subject to credit losses and measured at amortized cost; and (2) certain off-balance sheet credit exposures. This includes loans, held-to-maturity debt securities, loan commitments, financial guarantees, and net investments in leases, as well as reinsurance and trade receivables. Upon initial recognition of the exposure, the CECL model requires an entity to estimate the credit losses expected over the life of an exposure (or pool of exposures). The estimate of expected credit

losses (“ECL”) should consider historical information, current information, and reasonable and supportable forecasts, including estimates of prepayments. Financial instruments with similar risk characteristics should be grouped together when estimating ECL. ASU 2016-13 is effective for public entities for interim and annual periods beginning after December 15, 2019. Early application of the guidance will be permitted for all entities for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company has established a steering committee comprised of senior executives from the Accounting and Credit Risk functions and has engaged third party consultants to support CECL adoption activities. The Company is currently engaged in implementation activities and has completed the initial procedures to develop estimation models utilizing an external vendor to support implementation. A preliminary CECL model has been developed and is currently being refined, along with the execution of procedures to support the ongoing estimation activities associated with CECL. The Company is still evaluating the impacts of ASU 2016-13 on its consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

For quantitative and qualitative disclosures regarding market risks in Hanmi Bank’s portfolio, see “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Risk Management” and “- Capital Resources” in this Report.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of March 31, 2019, Hanmi Financial carried out an evaluation of the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, under the supervision and with the participation of our senior management, including our Chief Executive Officer (principal executive officer) and our Chief Financial Officer (principal financial and accounting officer). The purpose of the disclosure controls and procedures is to ensure that information required to be disclosed in the reports that are filed or submitted under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that Hanmi Financial’s disclosure controls and procedures were effective as of March 31, 2019.

Changes in Internal Control Over Financial Reporting

During the most recent fiscal quarter, there has been no change in our internal controls over financial reporting, as defined in Rules 13a-15 (f) and 15d-15(f) under the Exchange Act, that have materially affected or are reasonably likely to materially affect Hanmi Financial’s internal controls over financial reporting.

Part II — Other Information

Item 1. Legal Proceedings

From time to time, Hanmi Financial and its subsidiaries are parties to litigation that arises in the ordinary course of business, such as claims to enforce liens, claims involving the origination and servicing of loans, and other issues related to the business of Hanmi Financial and its subsidiaries. In the opinion of management, the resolution of any such issues would not have a material adverse impact on the financial condition, results of operations, or liquidity of Hanmi Financial or its subsidiaries.

Item 1A. Risk Factors

There have been no material changes in the risk factors previously disclosed under Part I, Item 1A, “Risk Factors” of our 2018 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On January 24, 2019, the Company announced a new stock repurchase program that authorized the buy-back of up to 5% of its outstanding shares or approximately 1.5 million shares of common stock. During the three months ended March 31, 2019, there were no repurchases of its common stock under the repurchase program, except that the Company acquired 19,423 shares from employees in connection with the satisfaction of income tax withholding obligations incurred through vesting of Company stock awards.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Section 2: EX-31.1 (EXHIBIT 31.1)

Exhibit 31.1

Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Bonita I. Lee, President and Chief Executive Officer, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Hanmi Financial Corporation;
2. Based on my knowledge, this Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Report;
3. Based on my knowledge, the financial statements, and other financial information included in this Report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this Report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this Report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Report based on such evaluation; and
 - (d) disclosed in this Report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the Audit Committee of the Registrant's Board of Directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are

- reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
- (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

Section 3: EX-31.2 (EXHIBIT 31.2)

Exhibit 31.2

Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Romolo C. Santarosa, Senior Executive Vice President and Chief Financial Officer, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Hanmi Financial Corporation;
2. Based on my knowledge, this Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Report;
3. Based on my knowledge, the financial statements, and other financial information included in this Report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this Report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this Report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Report based on such evaluation; and
 - (d) disclosed in this Report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the Audit Committee of the Registrant's Board of Directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

Section 4: EX-32.1 (EXHIBIT 32.1)

Exhibit 32.1

**Certification Pursuant To
18 U.S.C. Section 1350,
As Adopted Pursuant To
Section 906 of The Sarbanes-Oxley Act of 2002**

In connection with the Quarterly Report of Hanmi Financial Corporation (the "Company") on Form 10-Q for the period ended March 31, 2019, as filed with the Securities and Exchange Commission (the "SEC") on the date hereof (the "Report"), I, Bonita I. Lee, President and Chief Executive Officer of the Company, certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, to the best of my knowledge that:

- (1) The Report fully complies with the requirements of Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company as of, and for, the period presented.

Date: May 10, 2019
